STATE OF FLORIDA AUDITOR GENERAL

Financial Audit

Report No. 2018-154
March 2018

SOUTH FLORIDA STATE COLLEGE

For the Fiscal Year Ended
June 30, 2017

Sherrill F. Norman, CPA
Auditor General

Board of Trustees and President

During the 2016-17 fiscal year, Dr. Thomas C. Leitzel served as President of South Florida State College and the following individuals served as Members of the Board of Trustees:

	County
Derren J. Bryan, Chair from 7-20-16, Vice Chair through 7-19-16	Hardee
Timothy D. Backer, Vice Chair from 7-20-16	DeSoto
Kris Y. Rider, Chair through 7-19-16	Highlands
Tamela C. Cullens	Highlands
Dr. Louis H. Kirschner	DeSoto
Kenneth A. Lambert	Hardee
Lana C. Puckorius	Highlands
P. Joseph Wright	Highlands

The Auditor General conducts audits of governmental entities to provide the Legislature, Florida's citizens, public entity management, and other stakeholders unbiased, timely, and relevant information for use in promoting government accountability and stewardship and improving government operations.

The team leader was Pakeishia L. Johnson, and the audit was supervised by Mark A. Arroyo, CPA.

Please address inquiries regarding this report to Jaime N. Hoelscher, CPA, Audit Manager, by e-mail at jaimehoelscher@aud.state.fl.us or by telephone at (850) 412-2868.

This report and other reports prepared by the Auditor General are available at:

Purpose of this Report	43

SUMMARY

SUMMARY OF REPORT ON FINANCIAL STATEMENTS

Our audit disclosed that the basic financial statements of South Florida State College (a component unit of the State of Florida) were presented fairly, in all material respects, in accordance with prescribed financial reporting standards.

SUMMARY OF REPORT ON INTERNAL CONTROL AND COMPLIANCE

Our audit did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* issued by the Comptroller General of the United States.

AUDIT OBJECTIVES AND SCOPE

Our audit objectives were to determine whether South Florida State College and its officers with administrative and stewardship responsibilities for College operations had:

- Presented the College's basic financial statements in accordance with generally accepted accounting principles;
- Established and implemented internal control over financial reporting and compliance with requirements that could have a direct and material effect on the financial statements; and
- Complied with the various provisions of laws, rules, regulations, contracts, and grant agreements that are material to the financial statements.

The scope of this audit included an examination of the College's basic financial statements as of and for the fiscal year ended June 30, 2017. We obtained an understanding of the College's environment, including its internal control, and assessed the risk of material misstatement necessary to plan the audit of the basic financial statements. We also examined various transactions to determine whether they were executed, in both manner and substance, in accordance with governing provisions of laws, rules, regulations, contracts, and grant agreements.

An examination of Federal awards administered by the College is included within the scope of our Statewide audit of Federal awards administered by the State of Florida.

AUDIT METHODOLOGY

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and applicable standards contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of South Florida State College, a component unit of the State of Florida, and its discretely presented component unit as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the discretely presented component unit, which represent 100 percent of the transactions and account balances of the discretely presented component unit's columns. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the discretely presented component unit, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the

assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of South Florida State College and of its discretely presented component unit as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Required Supplementary Information

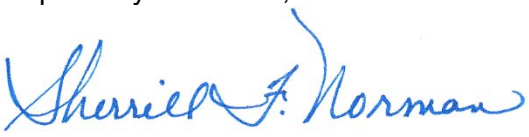

Accounting principles generally accepted in the United States of America require that **MANAGEMENT'S DISCUSSION AND ANALYSIS**, the **Schedule of Funding Progress – Other Postemployment Benefits Plan**, **Schedule of the College's Proportionate Share of the Net Pension Liability – Florida Retirement System Pension Plan**, **Schedule of College Contributions – Florida Retirement System Pension Plan**, **Schedule of the College's Proportionate Share of the Net Pension Liability – Health Insurance Subsidy Pension Plan**, **Schedule of College Contributions – Health Insurance Subsidy Pension Plan**, and **Notes to Required Supplementary Information**, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated March 19, 2018, on our consideration of the South Florida State College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements and other matters included under the heading **INDEPENDENT AUDITOR'S REPORT ON**

INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the South Florida State College's internal control over financial reporting and compliance.

Respectfully submitted,

Sherrill F. Norman, CPA
Tallahassee, Florida
March 19, 2018

MANAGEMENT'S DISCUSSION AND ANALYSIS

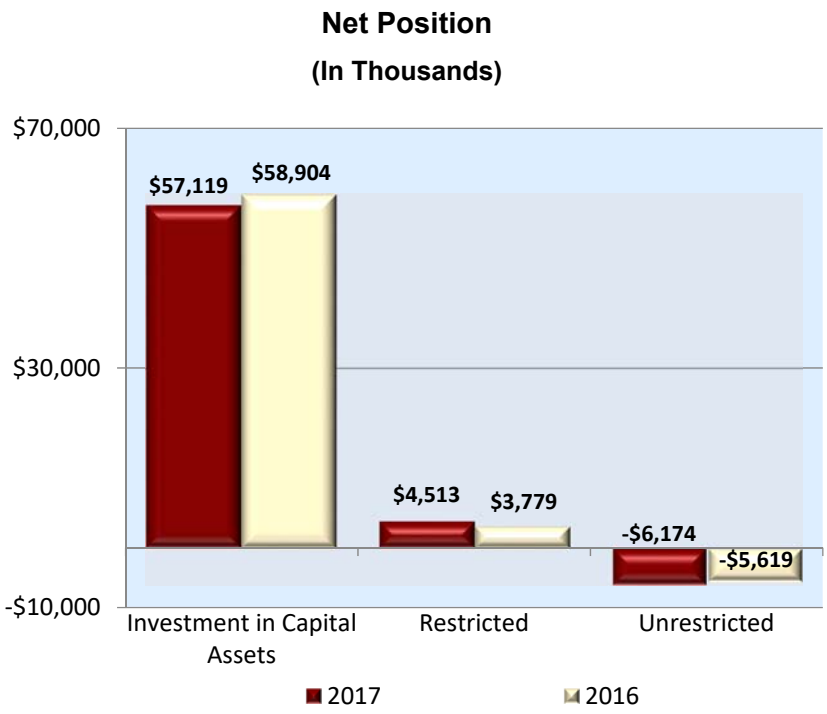

Management's discussion and analysis (MD&A) provides an overview of the financial position and activities of the College for the fiscal year ended June 30, 2017, and should be read in conjunction with the financial statements and notes thereto. The MD&A, and financial statements and notes thereto, are the responsibility of College management. The MD&A contains financial activity of the College for the fiscal years ended June 30, 2017, and June 30, 2016.

FINANCIAL HIGHLIGHTS

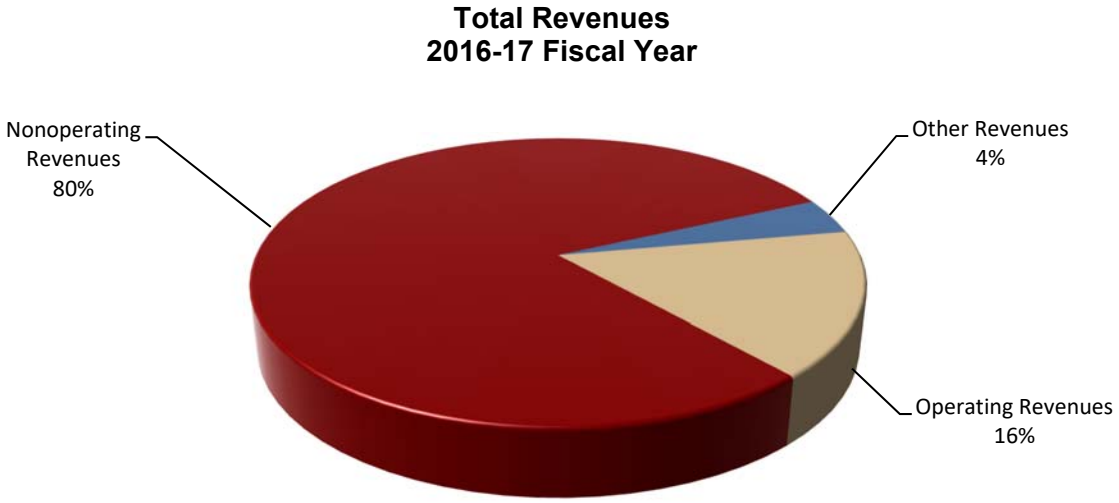

The College's assets and deferred outflows of resources totaled $74.2 million at June 30, 2017. This balance reflects a $2.4 million, or 3.3 percent, increase as compared to the 2015-16 fiscal year, resulting mainly from changes in the deferred outflows of resources related to Florida Retirement System (FRS) and Health Insurance Subsidy (HIS) Pensions. While assets and deferred outflows of resources grew, liabilities and deferred inflows of resources increased by $4 million, or 27.2 percent, totaling $18.8 million at June 30, 2017, resulting from increases in Net Pension Liability. As a result, the College's net position decreased by $1.6 million, resulting in a year-end balance of $55.5 million.

The College's operating revenues totaled $5 million for the 2016-17 fiscal year, representing a 3.9 percent increase compared to the 2015-16 fiscal year due mainly to increases in student tuition and fees and federal grants and contracts. Operating expenses totaled $32.8 million for the 2016-17 fiscal year, representing an increase of 4.6 percent as compared to the 2015-16 fiscal year due mainly to increases in personnel services.

Net position represents the residual interest in the College's assets and deferred outflows of resources after deducting liabilities and deferred inflows of resources. The College's comparative total net position by category for the fiscal years ended June 30, 2017, and June 30, 2016, is shown in the following graph:

The following chart provides a graphical presentation of College revenues by category for the 2016-17 fiscal year:

OVERVIEW OF FINANCIAL STATEMENTS

Pursuant to GASB Statement No. 35, the College's financial report consists of three basic financial statements: the statement of net position; the statement of revenues, expenses, and changes in net position; and the statement of cash flows. The financial statements, and notes thereto, provide information on the College as a whole, present a long-term view of the College's finances, and include activities for the following entities:

- South Florida State College (Primary Institution) — Most of the programs and services generally associated with a college fall into this category, including instruction, public services, and support services.
- South Florida State College Foundation, Inc. (Component Unit) — Although legally separate, this component unit is important because the College is financially accountable for it, as the College reports its financial activities to the State of Florida. This component unit provides funding and services to support and foster the pursuit of higher education at the College.

The Statement of Net Position

The statement of net position reflects the assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the College, using the accrual basis of accounting, and presents the financial position of the College at a specified time. Assets, plus deferred outflows of resources, less liabilities, less deferred inflows of resources, equals net position, which is one indicator of the College's current financial condition. The changes in net position that occur over time indicate improvement or deterioration in the College's financial condition.

The following summarizes the College's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position at June 30:

Condensed Statement of Net Position at June 30

(In Thousands)

	2017	2016
Assets		
Current Assets	$ 7,685	$ 6,422
Capital Assets, Net	57,119	58,904
Other Noncurrent Assets	3,594	3,473
Total Assets	68,398	68,799
Deferred Outflows of Resources	5,811	3,004
Liabilities		
Current Liabilities	2,032	1,895
Noncurrent Liabilities	16,125	11,488
Total Liabilities	18,157	13,383
Deferred Inflows of Resources	594	1,356
Net Position		
Investment in Capital Assets	57,119	58,904
Restricted	4,513	3,779
Unrestricted	(6,174)	(5,619)
Total Net Position	$ 55,458	$ 57,064

The Statement of Revenues, Expenses, and Changes in Net Position

The statement of revenues, expenses, and changes in net position presents the College's revenue and expense activity, categorized as operating and nonoperating. Revenues and expenses are recognized when earned or incurred, regardless of when cash is received or paid.

The following summarizes the College's activity for the 2016-17 and 2015-16 fiscal years:

Condensed Statement of Revenues, Expenses, and Changes in Net Position
For the Fiscal Years

(In Thousands)

	2016-17	2015-16
Operating Revenues	$ 5,041	$ 4,854
Less, Operating Expenses	32,776	31,336
Operating Loss	(27,735)	(26,482)
Net Nonoperating Revenues	24,868	24,055
Loss Before Other Revenues	(2,867)	(2,427)
Other Revenues	1,261	395
Net Decrease In Net Position	(1,606)	(2,032)
Net Position, Beginning of Year	57,064	59,096
Net Position, End of Year	$ 55,458	$ 57,064

Operating Revenues

GASB Statement No. 35 categorizes revenues as either operating or nonoperating. Operating revenues generally result from exchange transactions where each of the parties to the transaction either gives or receives something of equal or similar value.

The following summarizes the operating revenues by source that were used to fund operating activities for the 2016-17 and 2015-16 fiscal years:

Operating Revenues
For the Fiscal Years

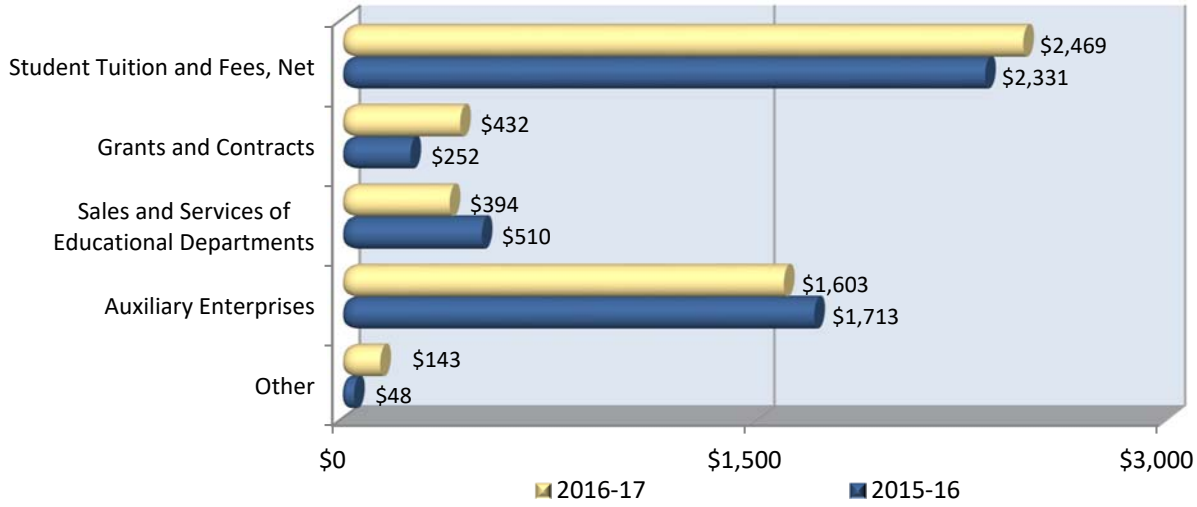

(In Thousands)

	2016-17	2015-16
Student Tuition and Fees, Net	$ 2,469	$ 2,331
Grants and Contracts	432	252
Sales and Services of Educational Departments	394	510
Auxiliary Enterprises	1,603	1,713
Other	143	48
Total Operating Revenues	$ 5,041	$ 4,854

The following chart presents the College's operating revenues for the 2016-17 and 2015-16 fiscal years:

Operating Revenues

(In Thousands)

College operating revenue changes were the result of the following factors:

- Increased student tuition and fees due to higher enrollment.
- Auxiliary enterprises decreased due to a reduction in cultural programs and a decrease in the Hotel Jacaranda hotel and restaurant services.

Operating Expenses

Expenses are categorized as operating or nonoperating. The majority of the College's expenses are operating expenses as defined by GASB Statement No. 35. GASB gives financial reporting entities the choice of reporting operating expenses in the functional or natural classifications. The College has chosen to report the expenses in their natural classification on the statement of revenues, expenses, and changes in net position and has displayed the functional classification in the notes to financial statements.

The following summarizes operating expenses by natural classification for the 2016-17 and 2015-16 fiscal years:

Operating Expenses
For the Fiscal Years

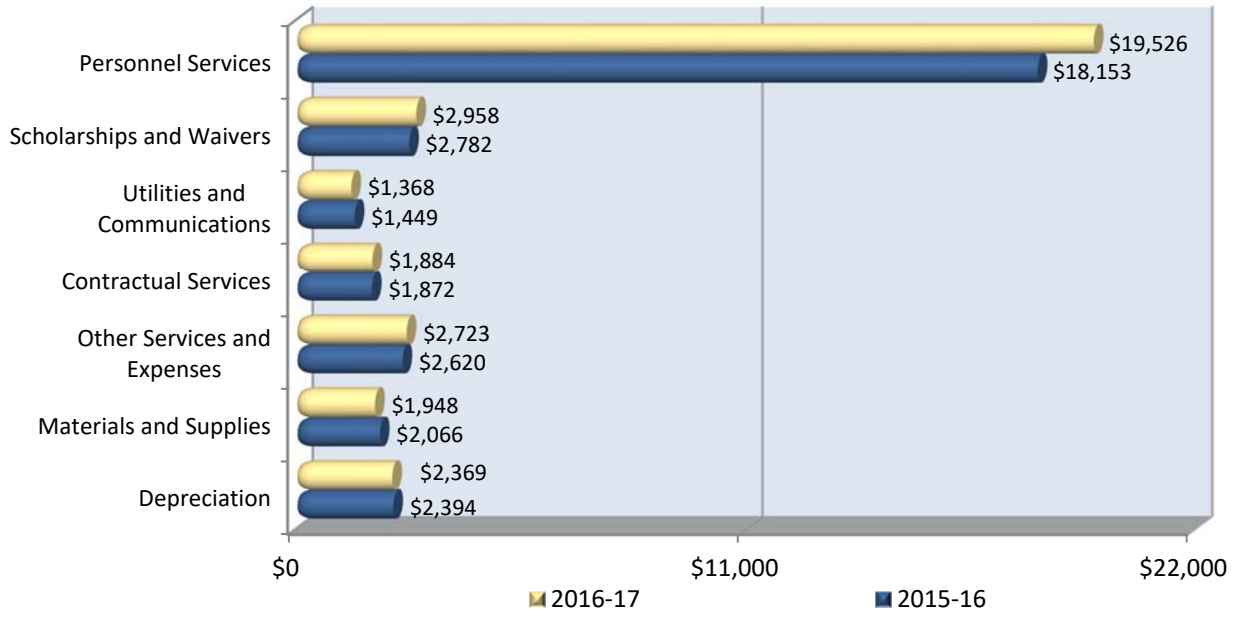

(In Thousands)

	2016-17	2015-16
Personnel Services	$ 19,526	$ 18,153
Scholarships and Waivers	2,958	2,782
Utilities and Communications	1,368	1,449
Contractual Services	1,884	1,872
Other Services and Expenses	2,723	2,620
Materials and Supplies	1,948	2,066
Depreciation	2,369	2,394
Total Operating Expenses	$ 32,776	$ 31,336

The following chart presents the College's operating expenses for the 2016-17 and 2015-16 fiscal years:

Operating Expenses

(In Thousands)

College operating expense changes were the result of the following factors:

- Personnel services increased $1.4 million or 7.6 percent compared to the prior year. This was primarily due to a 2.5 percent increase in pay for all full-time employees meeting service criteria.
- Scholarships and waivers increased because of an increase in enrollment.

Nonoperating Revenues

Certain revenue sources that the College relies on to provide funding for operations, including State noncapital appropriations, Federal and State student financial aid, certain gifts and grants, and investment income, are defined by GASB as nonoperating. The following summarizes the College's nonoperating revenues and expenses for the 2016-17 and 2015-16 fiscal years:

Nonoperating Revenues
For the Fiscal Years

(In Thousands)

	2016-17	2015-16
State Noncapital Appropriations	$ 16,566	$ 16,182
Federal and State Student Financial Aid	5,576	5,254
Gifts and Grants	2,664	2,580
Investment Income	60	38
Other Nonoperating Revenues	2	1
Net Nonoperating Revenues	$ 24,868	$ 24,055

Nonoperating revenues did not change significantly from the prior year.

Other Revenues

This category is composed of State capital appropriations and capital grants, contracts, gifts, and fees. The following summarizes the College's other revenues for the 2016-17 and 2015-16 fiscal years:

Other Revenues
For the Fiscal Years

(In Thousands)

	2016-17	2015-16
State Capital Appropriations	$ 921	$ 63
Capital Grants, Contracts, Gifts, and Fees	340	332
Total	$ 1,261	$ 395

State capital appropriations increased significantly due to an increase in Public Education Capital Outlay (PECO) appropriations.

The Statement of Cash Flows

The statement of cash flows provides information about the College's financial results by reporting the major sources and uses of cash and cash equivalents. This statement will assist in evaluating the College's ability to generate net cash flows, its ability to meet its financial obligations as they come due, and its need for external financing. Cash flows from operating activities show the net cash used by the operating activities of the College. Cash flows from capital financing activities include all plant funds and related long-term debt activities. Cash flows from investing activities show the net source and use of cash related to purchasing or selling investments, and earning income on those investments. Cash flows from noncapital financing activities include those activities not covered in other sections.

The following summarizes the College's cash flows for the 2016-17 and 2015-16 fiscal years:

Condensed Statement of Cash Flows
For the Fiscal Years

(In Thousands)

	2016-17	2015-16
Cash Provided (Used) by:		
Operating Activities	$(24,148)	$(25,091)
Noncapital Financing Activities	24,806	23,910
Capital and Related Financing Activities	183	1,087
Investing Activities	59	38
Net Increase (Decrease) in Cash and Cash Equivalents	900	(56)
Cash and Cash Equivalents, Beginning of Year	8,821	8,877
Cash and Cash Equivalents, End of Year	$ 9,721	$ 8,821

Major sources of funds came from State noncapital appropriations ($16.6 million), Federal and State student financial aid ($5.6 million), noncapital gifts and grants ($2.7 million), and net student tuition and fees ($2.4 million). Major uses of funds were for payments to employees and for employee benefits ($18.6 million), payments to suppliers ($6.7 million), and payments to scholarships ($3 million).

Cash and cash equivalents did not change significantly from the prior year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2017, the College had $104.5 million in capital assets, less accumulated depreciation of $47.4 million, for net capital assets of $57.1 million. Depreciation charges for the current fiscal year totaled $2.4 million. The following table summarizes the College's capital assets, net of accumulated depreciation, at June 30:

Capital Assets, Net at June 30

(In Thousands)

	2017	2016
Land	$ 2,478	$ 2,478
Artwork/Artifacts	535	535
Buildings	52,334	54,158
Other Structures and Improvements	222	560
Furniture, Machinery, and Equipment	912	489
Computer Software, Depreciable	59	105
Computer Software, Perpetual Licenses	579	579
Capital Assets, Net	$57,119	$58,904

Total capital assets declined primarily as a result of depreciation exceeding capital asset additions. Additional information about the College's capital assets is presented in the notes to financial statements.

Debt Administration

As of June 30, 2017, the long-term liabilities consisted of accrued liabilities for compensated absences payable, other postemployment benefits payable, and the net pension liability. Otherwise, the College had no long-term debt at fiscal year-end. Additional information about the College's long-term liabilities is presented in the notes to financial statements.

ECONOMIC FACTORS THAT WILL AFFECT THE FUTURE

The College's economic condition is closely tied to that of the State of Florida. Because of limited economic growth and increased demand for State resources, only a modest increase in State funding is anticipated in the 2017-18 fiscal year. In response, the Board of Trustees elected to maintain the same tuition rate charged for the 2016-17 fiscal year in the 2017-18 fiscal year. However, the College's current financial and capital plans indicate that the infusion of additional financial resources from the State and students may be necessary to maintain its present level of services.

REQUESTS FOR INFORMATION

Questions concerning information provided in the MD&A or other required supplementary information, and financial statements and notes thereto, or requests for additional financial information should be addressed to Glenn W. Little, Vice President for Administrative Services, South Florida State College, 600 W. College Drive, Avon Park, Florida 33825.

The accompanying notes to financial statements are an integral part of this statement.

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

Reporting Entity. The governing body of South Florida State College, a component unit of the State of Florida, is the College Board of Trustees. The Board of Trustees constitutes a corporation and is composed of eight members appointed by the Governor and confirmed by the Senate. The Board of Trustees is under the general direction and control of the Florida Department of Education, Division of Florida Colleges, and is governed by State law and State Board of Education (SBE) rules. However, the Board of Trustees is directly responsible for the day-to-day operations and control of the College within the framework of applicable State laws and SBE rules. The College serves DeSoto, Hardee, and Highlands Counties.

Criteria for defining the reporting entity are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. These criteria were used to evaluate potential component units for which the Board of Trustees is financially accountable and other organizations for which the nature and significance of their relationship with the Board of Trustees are such that exclusion would cause the College's financial statements to be misleading. Based on the application of these criteria, the College is a component unit of the State of Florida, and its financial balances and activities are reported in the State's Comprehensive Annual Financial Report by discrete presentation.

Discretely Presented Component Unit. Based on the application of the criteria for determining component units, the South Florida State College Foundation, Inc. (Foundation), a legally separate entity, is included within the College's reporting entity as a discretely presented component unit and is governed by a separate board.

The Foundation is also a direct-support organization, as defined in Section 1004.70, Florida Statutes, and although legally separate from the College, is financially accountable to the College. The Foundation is managed independently, outside the College's budgeting process, and its powers generally are vested in a governing board pursuant to various State statutes. The Foundation receives, holds, invests, and administers property, and makes expenditures to or for the benefit of the College.

The Foundation is audited by other auditors pursuant to Section 1004.70(6), Florida Statutes. The Foundation's audited financial statements are available to the public and can be obtained from the College. The financial data reported on the accompanying financial statements was derived from the Foundation's audited financial statements for the fiscal year ended December 31, 2016.

Basis of Presentation. The College's accounting policies conform with accounting principles generally accepted in the United States of America applicable to public colleges and universities as prescribed by GASB. The National Association of College and University Business Officers (NACUBO) also provides the College with recommendations prescribed in accordance with generally accepted accounting principles promulgated by GASB and the Financial Accounting Standards Board (FASB). GASB allows public colleges various reporting options. The College has elected to report as an entity engaged in only business-type activities. This election requires the adoption of the accrual basis of accounting and entitywide reporting including the following components:

- Management's Discussion and Analysis
- Basic Financial Statements:
  - Statement of Net Position
  - Statement of Revenues, Expenses, and Changes in Net Position
  - Statement of Cash Flows
  - Notes to Financial Statements
- Other Required Supplementary Information

Measurement Focus and Basis of Accounting. Basis of accounting refers to when revenues, expenses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources are recognized in the accounts and reported in the financial statements. Specifically, it relates to the timing of the measurements made, regardless of the measurement focus applied. The College's financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from nonexchange activities are generally recognized when all applicable eligibility requirements, including time requirements, are met. The College follows GASB standards of accounting and financial reporting.

The College's component unit uses the economic resources measurement focus and the accrual basis of accounting, and follows FASB standards of accounting and financial reporting for not-for-profit organizations.

Significant interdepartmental sales between auxiliary service departments and other institutional departments have been accounted for as reductions of expenses and not revenues of those departments.

The College's principal operating activity is instruction. Operating revenues and expenses generally include all fiscal transactions directly related to instruction as well as administration, academic support, student services, physical plant operations, and depreciation of capital assets. Nonoperating revenues include State noncapital appropriations, Federal and State student financial aid, gifts and grants, and investment income. Other revenues generally include revenues for capital construction projects.

The statement of net position is presented in a classified format to distinguish between current and noncurrent assets and liabilities. When both restricted and unrestricted resources are available to fund certain programs, it is the College's policy to first apply the restricted resources to such programs followed by the use of the unrestricted resources.

The statement of revenues, expenses, and changes in net position is presented by major sources and is reported net of tuition scholarship allowances. Tuition scholarship allowances are the difference between the stated charge for goods and services provided by the College and the amount that is actually paid by the student or the third party making payment on behalf of the student. To the extent that these resources are used to pay student charges, the College records a scholarship allowance against tuition and fee revenues.

The statement of cash flows is presented using the direct method in compliance with GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*.

Cash and Cash Equivalents. The amount reported as cash and cash equivalents consists of cash on hand, cash in demand accounts, and cash placed with the State Board of Administration (SBA) Florida PRIME investment pool. For reporting cash flows, the College considers all highly liquid investments with original maturities of 3 months or less, that are not held solely for income or profit to be cash equivalents. Under this definition, the College considers amounts invested in the Florida PRIME investment pools to be cash equivalents.

College cash deposits are held in banks qualified as public depositories under Florida law. All such deposits are insured by Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool required by Chapter 280, Florida Statutes. Cash and cash equivalents that are externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital or other restricted assets are classified as restricted.

At June 30, 2017, the College reported as cash equivalents $6,090,205 in the Florida PRIME investment pool administered by the SBA pursuant to Section 218.405, Florida Statutes. The College's investments in the Florida PRIME investment pool, which the SBA indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. The Florida PRIME investment pool carried a credit rating of AAAm by Standard & Poor's and had a weighted-average days to maturity (WAM) of 39 days as of June 30, 2017. A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating-rate instruments. WAM measures the sensitivity of the Florida PRIME investment pool to interest rate changes. The investments in the Florida PRIME investment pool are reported at amortized cost. Section 218.409(8)(a), Florida Statutes, states that "the principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from the moneys in the trust fund. However, the executive director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the Board [State Board of Administration] can invest moneys entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the trustees, the Joint Legislative Auditing Committee, the Investment Advisory Council, and the Participant Local Government Advisory Council. The trustees shall convene an emergency meeting as soon as practicable from the time the executive director has instituted such measures and review the necessity of those measures. If the trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the moratorium may be extended by the executive director until the trustees are able to meet to review the necessity for the moratorium. If the trustees agree with such measures, the trustees shall vote to continue the measures for up to an additional 15 days. The trustees must convene and vote to continue any such measures before the expiration of the time limit set, but in no case may the time limit set by the trustees exceed 15 days." As of June 30, 2017, there were no redemption fees or maximum transaction

amounts, or any other requirements that serve to limit a participant's daily access to 100 percent of their account value.

Capital Assets. College capital assets consist of land, artwork/artifacts, computer software, buildings, other structures and improvements, and furniture, machinery, and equipment. These assets are capitalized and recorded at cost at the date of acquisition or at acquisition value at the date received in the case of gifts and purchases of State surplus property. Additions, improvements, and other outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. The College has a capitalization threshold of $5,000 for tangible personal property and $25,000 for buildings and $65,000 for other structures and improvements. Depreciation is computed on the straight-line basis over the following estimated useful lives:

- Buildings – 40 years
- Other Structures and Improvements:
  - Non Technological Other Structures and Improvements – 10 years
  - Technological Other Structures and Improvements – 5 years
- Furniture, Machinery, and Equipment:
  - Computer Equipment – 3 years
  - Vehicles, Office Machines, and Educational Equipment – 5 years
  - Furniture – 7 years
- Computer Software – 5 years

Land, buildings, and equipment of the College's component unit are stated at cost except for donated property which is stated at acquisition value at the date of the donation and is net of accumulated depreciation of $1,006,507. The College's component unit depreciates buildings and equipment using the straight-line method.

Noncurrent Liabilities. Noncurrent liabilities include compensated absences payable, other postemployment benefits payable, and net pension liabilities that are not scheduled to be paid within the next fiscal year.

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net positions of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS and HIS fiduciary net positions have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

2. Deficit Net Position in Individual Funds

The College reported an unrestricted net position which included a deficit in the current funds - unrestricted, as shown below. This deficit can be attributed to the full recognition of long-term liabilities (i.e., compensated absences payable, other postemployment benefits payable, and net pension liabilities) in the current unrestricted funds.

Fund	Net Position
Current Funds - Unrestricted	$ (8,494,293)
Auxiliary Funds	2,320,314
Total	$ (6,173,979)

The College had a deficit unrestricted net position of $6,173,979 at June 30, 2017. This deficit can be attributed primarily to full recognition of net pension liabilities.

3. Investments

Fair Value Measurement. The College's component unit (Foundation) categorizes its fair value measurements within the fair value hierarchy established by general accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of an asset. Level 1 inputs are quoted on the valuation inputs used to measure the fair value of an asset; Level 2 inputs are significant observable inputs; and Level 3 input are significant unobservable inputs.

Investments held by the Foundation totaled $10,541,160 at December 31, 2016. The investments are reported at fair value, using Level 1 inputs, and consist of equity investments, money market funds, and United States government securities, corporate bonds, common stocks, real estate, the cash value of life insurance policies, and mutual funds.

4. Accounts Receivable

Accounts receivable of $334,588 represent amounts for student fee deferments, various student services provided by the College, and contract and grant reimbursements due from third parties. The accounts receivable are expected to be collected in full.

5. Due From Other Governmental Agencies

The amount due from other governmental agencies primarily consists of $666,002 of Public Education Capital Outlay allocations due from the State for equipment and maintenance of College facilities.

6. Due From Component Unit

The College reported a due from component unit of $93,005, which represents expenses made by the College that will be reimbursed by the Foundation. The College's financial statements are reported for the fiscal year ended June 30, 2017. The component unit's financial statements are reported for the fiscal year ended December 31, 2016. Accordingly, although the College reported an amount due from component unit on the statement of net position, the component unit did not report an amount due to the College.

7. Inventories

Inventories totaling $41,012 consist of items for resale by the Hotel Jacaranda, the cafeteria, the Museum of Florida Art and Culture store, and the purchasing department, and are valued using the last invoice cost, which approximates the first-in, first-out method of inventory valuation. Consumable laboratory supplies, teaching materials, and office supplies on hand in College departments are expensed when

purchased, and are not considered material. Accordingly, these items are not included in the reported inventory.

8. Capital Assets

Capital assets activity for the fiscal year ended June 30, 2017, is shown in the following table:

Description	Beginning Balance	Additions	Reductions	Ending Balance
Nondepreciable Capital Assets:				
Land	$ 2,477,518	$ -	$ -	$ 2,477,518
Artwork/Artifacts	535,443	-	-	535,443
Computer Software	579,029	-	-	579,029
Total Nondepreciable Capital Assets	$ 3,591,990	$ -	$ -	$ 3,591,990
Depreciable Capital Assets:				
Buildings	$ 83,881,310	$ -	$ -	$ 83,881,310
Other Structures and Improvements	12,905,098	-	-	12,905,098
Furniture, Machinery, and Equipment	3,001,790	583,908	154,860	3,430,838
Computer Software	757,467	-	-	757,467
Total Depreciable Capital Assets	100,545,665	583,908	154,860	100,974,713
Less, Accumulated Depreciation:				
Buildings	29,723,651	1,823,907	-	31,547,558
Other Structures and Improvements	12,345,343	338,008	-	12,683,351
Furniture, Machinery, and Equipment	2,512,513	160,540	154,860	2,518,193
Computer Software	652,564	46,166	-	698,730
Total Accumulated Depreciation	45,234,071	2,368,621	154,860	47,447,832
Total Depreciable Capital Assets, Net	$ 55,311,594	$ (1,784,713)	$ -	$ 53,526,881

9. Art and Artifact Collections

In addition to the Museum of Florida Art and Culture (MOFAC) collection, which is capitalized and not depreciated, the College has the McDearman collection that it does not capitalize. The MOFAC collection adheres to the College's policy to: (a) maintain them for public exhibition, education, or research; (b) protect, keep unencumbered, care for, and preserve them; and (c) require proceeds from their sale to be used to acquire other collection items. Generally accepted accounting principles permit noncapitalized collections like the McDearman collection to be charged to operations at the time of purchase rather than capitalized.

10. Unearned Revenue

Unearned revenue at June 30, 2017, includes prepayments of cultural program sales and donations, grant moneys for which expenses have yet to be incurred, and moneys for services yet to be rendered at the Hotel Jacaranda. As of June 30, 2017, the College reported the following amounts as unearned revenue:

Description	Amount
Cultural Programs - Advanced Sales and Donations	$ 203,385
Grant Related	1,854
Hotel Jacaranda - Prepaid Sales	1,322
Total Unearned Revenue	$ 206,561

11. Long-Term Liabilities

Long-term liabilities activity for the fiscal year ended June 30, 2017, is shown below:

Description	Beginning Balance	Additions	Reductions	Ending Balance	Current Portion
Compensated Absences Payable	$ 2,219,819	$ 152,583	$ 10,735	$ 2,361,667	$ 155,448
Other Postemployment Benefits Payable	290,332	36,954	17,649	309,637	-
Net Pension Liability	9,280,216	5,695,417	1,228,368	13,747,265	137,671
Total Long-Term Liabilities	$ 11,790,367	$ 5,884,954	$ 1,256,752	$ 16,418,569	$ 293,119

Compensated Absences Payable. College employees may accrue annual and sick leave based on length of service, subject to certain limitations regarding the amount that will be paid upon termination. The College reports a liability for the accrued leave; however, State noncapital appropriations fund only the portion of accrued leave that is used or paid in the current fiscal year. Although the College expects the liability to be funded primarily from future appropriations, generally accepted accounting principles do not permit the recording of a receivable in anticipation of future appropriations. At June 30, 2017, the estimated liability for compensated absences, which includes the College's share of the Florida Retirement System and FICA contributions, totaled $2,361,667. The current portion of the compensated absences liability, $155,448, is the amount expected to be paid in the coming fiscal year.

Other Postemployment Benefits Payable. The College follows GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, for other postemployment benefits administered by the Florida College System Risk Management Consortium (Consortium).

Plan Description. The College contributes to an agent multiple-employer defined benefit plan administered by the Consortium for postemployment benefits. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the College are eligible to participate in the College's healthcare and life insurance benefits. The College subsidizes the premium rates paid by retirees by allowing them to participate in the Other Postemployment Benefit Plan (OPEB Plan) at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the OPEB Plan on average than those of active employees. The College does not offer any explicit subsidies for retiree coverage. Retirees are required to enroll in the Federal Medicare (Medicare) program for their primary coverage as soon as they are eligible. Neither the College nor the Consortium issue a stand-alone report for the OPEB Plan and OPEB Plan is not included in the annual report of a public employee retirement system or another entity.

Funding Policy. OPEB Plan benefits are pursuant to the provisions of Section 112.0801, Florida Statutes, and the Board of Trustees can amend OPEB plan benefits and contribution rates. The College has not advance-funded or established a funding methodology for the annual other postemployment benefit (OPEB) costs or the net OPEB obligation, and the OPEB Plan is financed on a pay-as-you-go basis. For the 2016-17 fiscal year, 25 retirees received postemployment healthcare benefits, and 28 retirees received postemployment life insurance benefits. The College provided required contributions of $17,649 toward the annual OPEB cost, composed of benefit payments made on behalf of retirees for claims expenses (net of reinsurance), administrative expenses, and reinsurance premiums. Retiree contributions totaled $126,563, which represents 1 percent of covered payroll.

Annual OPEB Cost and Net OPEB Obligation. The College's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the College's annual OPEB cost for the fiscal year, the amount actually contributed to the OPEB Plan, and changes in the College's net OPEB obligation:

Description	Amount
Normal Cost (Service Cost for One Year)	$ 20,964
Amortization of Unfunded Actuarial Accrued Liability	14,055
Annual Required Contribution	35,019
Interest on Net OPEB Obligation	11,613
Adjustment to Annual Required Contribution	(9,678)
Annual OPEB Cost (Expense)	36,954
Contribution Toward the OPEB Cost	(17,649)
Increase in Net OPEB Obligation	19,305
Net OPEB Obligation, Beginning of Year	290,332
Net OPEB Obligation, End of Year	$ 309,637

The College's annual OPEB cost, the percentage of annual OPEB cost contributed to the OPEB Plan, and the net OPEB obligation as of June 30, 2017, and for the 2 preceding fiscal years were as follows:

Fiscal Year	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2014-15	$ 49,049	31.4%	$ 273,139
2015-16	34,385	50.0%	290,332
2016-17	36,954	47.8%	309,637

Funded Status and Funding Progress. As of July 1, 2015, the most recent valuation date, the actuarial accrued liability for benefits was $362,461, and the actuarial value of assets was $0, resulting in an unfunded actuarial accrued liability of $362,461 and a funded ratio of 0 percent. The covered payroll

(annual payroll of active participating employees) was $12,420,042 for the 2016-17 fiscal year, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 2.9 percent.

Actuarial valuations for an OPEB Plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and healthcare cost trends. Actuarially determined amounts regarding the funded status of the OPEB Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as required supplementary information following the notes to financial statements, presents multiyear trend information that shows whether the actuarial value of OPEB Plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive OPEB Plan provisions, as understood by the employer and participating members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

The College's OPEB actuarial valuation as of July 1, 2015, used entry age normal actuarial cost method to estimate the actuarial accrued liability as of June 30, 2017, and the College's 2016-17 fiscal year ARC. This method was selected in anticipation of the changes outlined in GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension* Plans and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Because the OPEB liability is currently unfunded, the actuarial assumptions included a 4 percent rate of return on invested assets, which is based upon the likely return of the assets if placed in trust to pay benefits. The actuarial assumptions also included a payroll growth rate of 3.25 percent per year, an inflation rate of 2.6 percent, and an annual healthcare cost trend rate of 5.25 percent for Medicare eligible participants and 6.75 percent for pre-Medicare eligible participants for the 2016-17 fiscal year, reduced by decrements to an ultimate rate of 5 percent in the 2020-21 fiscal year for pre-Medicare and 5 percent for Medicare in the 2017-18 fiscal year. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll amortized over 30 years on an open basis. The remaining amortization period at June 30, 2017, was 20 years.

Net Pension Liability. As a participating employer in the Florida Retirement System, the College recognizes its proportionate share of the collective net pension liabilities of the FRS cost-sharing multiple-employer defined benefit plans. As of June 30, 2017, the College's proportionate share of the net pension liabilities totaled $13,747,265. Note 12. includes a complete discussion of defined benefit pension plans.

12. Retirement Plans – Defined Benefit Pension Plans

General Information about the Florida Retirement System (FRS)

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option

Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the HIS Program, a cost-sharing multiple-employer defined benefit pension plan to assist retired members of any State-administered retirement system in paying the costs of health insurance. Chapter 121, Florida Statutes, also provides for nonintegrated, optional retirement programs in lieu of the FRS to certain members of the Senior Management Service Class employed by the State and faculty and specified employees of State colleges.

Essentially all regular employees of the College are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of two cost-sharing multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services Web site (www.dms.myflorida.com).

The College's FRS and HIS pension expense totaled $1,834,518 for the fiscal year ended June 30, 2017.

FRS Pension Plan

Plan Description. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are as follows:

- *Regular Class* – Members of the FRS who do not qualify for membership in the other classes.
- *Senior Management Service Class* (SMSC) – Members in senior management level positions.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS-participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include

amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the 5 highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on retirement plan and/or the class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following table shows the percentage value for each year of service credit earned:

Class, Initial Enrollment, and Retirement Age/Years of Service	**% Value**
Regular Class members initially enrolled before July 1, 2011	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
Regular Class members initially enrolled on or after July 1, 2011	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 or more years of service	1.68
Senior Management Service Class	2.00

As provided in Section 121.101, Florida Statutes, if the member was initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member was initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2016-17 fiscal year were:

Class	Percent of Gross Salary	
	Employee	Employer (1)
FRS, Regular	3.00	7.52
FRS, Senior Management Service	3.00	21.77
Deferred Retirement Option Program (applicable to members from all of the above classes)	0.00	12.99
FRS, Reemployed Retiree	(2)	(2)

Notes: (1) Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

(2) Contribution rates are dependent upon retirement class in which reemployed.

The College's contributions to the Plan totaled $771,608 for the fiscal year ended June 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2017, the College reported a liability of $8,972,023 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The College's proportionate share of the net pension liability was based on the College's 2015-16 fiscal year contributions relative to the total 2015-16 fiscal year contributions of all participating members. At June 30, 2016, the College's proportionate share was 0.035532654 percent, which was a decrease of 0.00277945 from its proportionate share measured as of June 30, 2015.

For the fiscal year ended June 30, 2017, the College recognized pension expense of $1,466,907. In addition, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 686,967	$ 83,536
Change of assumptions	542,781	-
Net difference between projected and actual earnings on FRS Plan investments	2,319,159	-
Changes in proportion and differences between College FRS contributions and proportionate share of contributions	564,711	330,339
College FRS contributions subsequent to the measurement date	771,608	-
Total	$ 4,885,226	$ 413,875

The deferred outflows of resources of $771,608, resulting from College contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30	Amount
2018	$ 576,202
2019	576,202
2020	1,480,353
2021	957,930
2022	88,870
Thereafter	20,186
Total	$ 3,699,743

Actuarial Assumptions. The total pension liability in the July 1, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary increases	3.25 percent, average, including inflation
Investment rate of return	7.60 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

The actuarial assumptions used in the July 1, 2016, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (1)	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1%	3.0%	3.0%	1.7%
Fixed Income	18%	4.7%	4.6%	4.6%
Global Equity	53%	8.1%	6.8%	17.2%
Real Estate (Property)	10%	6.4%	5.8%	12.0%
Private Equity	6%	11.5%	7.8%	30.0%
Strategic Investments	12%	6.1%	5.6%	11.1%
Total	100%			
Assumed inflation - Mean			2.6%	1.9%

Note: (1) As outlined in the Plan's investment policy.

Discount Rate. The discount rate used to measure the total pension liability was 7.60 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

Sensitivity of the College's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the College's proportionate share of the net pension liability calculated using the discount rate of 7.60 percent, as well as what the College's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.60 percent) or 1 percentage point higher (8.60 percent) than the current rate:

	1% Decrease (6.60%)	Current Discount Rate (7.60%)	1% Increase (8.60%)
College's proportionate share of the net pension liability	$16,518,102	$8,972,023	$2,690,909

Pension Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

Payables to the Pension Plan. At June 30, 2017, the College reported a payable of $120,230 for the outstanding amount of contributions to the Plan required for the fiscal year ended June 30, 2017.

HIS Pension Plan

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided. For the fiscal year ended June 30, 2017, eligible retirees and beneficiaries received a monthly HIS payment of $5 for each year of creditable service completed at the time of retirement with a minimum HIS payment of $30 and a maximum HIS payment of $150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which can include Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2017, the contribution rate was 1.66 percent of payroll pursuant to Section 112.363, Florida Statutes. The College contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which HIS payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The College's contributions to the HIS Plan totaled $174,163 for the fiscal year ended June 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2017, the College reported a net pension liability of $4,775,242 for its proportionate share of the net pension liability. The current portion of the net pension

liability is the College's proportionate share of benefit payments expected to be paid within one year, net of the College's proportionate share of the HIS Plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The College's proportionate share of the net pension liability was based on the College's 2015-16 fiscal year contributions relative to the total 2015-16 fiscal year contributions of all participating members. At June 30, 2016, the College's proportionate share was 0.040973071 percent, which was a decrease of 0.001501074 from its proportionate share measured as of June 30, 2015.

For the fiscal year ended June 30, 2017, the College recognized pension expense of $367,611. In addition, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ -	$ 10,876
Change of assumptions	749,357	-
Net difference between projected and actual earnings on HIS Plan investments	2,414	-
Changes in proportion and differences between College HIS contributions and proportionate share of HIS contributions	-	168,775
College contributions subsequent to the measurement date	174,163	-
Total	$ 925,934	$ 179,651

The deferred outflows of resources totaling $174,163, resulting from College contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30	Amount
2018	$ 103,520
2019	103,520
2020	103,060
2021	102,840
2022	86,944
Thereafter	72,236
Total	$ 572,120

Actuarial Assumptions. The total pension liability at July 1, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary increases	3.25 percent, average, including inflation
Municipal bond rate	2.85 percent

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

While an experience study had not been completed for the HIS Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan.

Discount Rate. The discount rate used to measure the total pension liability was 2.85 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate used to determine the total pension liability decreased from 3.80 percent from the prior measurement date.

Sensitivity of the College's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the College's proportionate share of the net pension liability calculated using the discount rate of 2.85 percent, as well as what the College's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.85 percent) or 1 percentage point higher (3.85 percent) than the current rate:

	1% Decrease (1.85%)	Current Discount Rate (2.85%)	1% Increase (3.85%)
College's proportionate share of the net pension liability	$5,478,287	$4,775,242	$4,191,752

Pension Plan Fiduciary Net Position. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

Payables to the Pension Plan. At June 30, 2017, the College reported a payable of $3,257 for the outstanding amount of contributions to the HIS Plan required for the fiscal year ended June 30, 2017.

13. Retirement Plans – Defined Contribution Pension Plans

FRS Investment Plan. The SBA administers the defined contribution plan officially titled the FRS Investment Plan (Investment Plan). The Investment Plan is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. College employees already participating in the State College System Optional Retirement Program or DROP are not eligible to participate in the Investment Plan. Employer and employee contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Service retirement benefits are based upon the value of the member's account upon retirement. Benefit terms, including contribution requirements, are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contributions rates, that are based on salary and membership class

(Regular Class, Senior Management Service Class, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. Allocations to the Investment Plan member accounts during the 2016-17 fiscal year were as follows:

Class	Percent of Gross Compensation
FRS, Regular	6.30
FRS, Senior Management Service	7.67

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS-covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2017, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the College.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided in which the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The College's Investment Plan pension expense totaled $161,042 for the fiscal year ended June 30, 2017.

State College System Optional Retirement Program. Section 1012.875, Florida Statutes, provides for an Optional Retirement Program (Program) for eligible college instructors and administrators. The Program is designed to aid colleges in recruiting employees by offering more portability to employees not expected to remain in the FRS for 8 or more years.

The Program is a defined contribution plan, which provides full and immediate vesting of all contributions submitted to the participating companies on behalf of the participant. Employees in eligible positions can make an irrevocable election to participate in the Program, rather than the FRS, and purchase retirement and death benefits through contracts provided by certain insurance carriers. The employing college contributes 5.15 percent of the participant's salary to the participant's account, 2.83 percent to cover the unfunded actuarial liability of the FRS pension plan, and 0.01 percent to cover the administrative costs,

for a total of 7.99 percent, and employees contribute 3 percent of the employee's salary. Additionally, the employee may contribute, by payroll deduction, an amount not to exceed the percentage contributed by the college to the participant's annuity account. The contributions are invested in the company or companies selected by the participant to create a fund for the purchase of annuities at retirement.

The College's contributions to the Program totaled $37,320 and employee contributions totaled $14,110 for the 2016-17 fiscal year.

14. Risk Management Programs

The College is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The College provided coverage for these risks primarily through the Florida College System Risk Management Consortium (Consortium), which was created under authority of Section 1001.64(27), Florida Statutes, by the boards of trustees of the Florida public colleges for the purpose of joining a cooperative effort to develop, implement, and participate in a coordinated Statewide college risk management program. The Consortium is self-sustaining through member assessments (premiums) and purchases excess insurance through commercial companies for claims in excess of specified amounts. Excess insurance from commercial companies provided coverage of up to $200 million for property insurance. Insurance coverage obtained through the Consortium included fire and extended property, general and automobile liability, workers' compensation, health, life, and other liability coverage. Settled claims resulting from these risks have not exceeded commercial coverage in any of the past 3 fiscal years.

Board member bonds, coverage for student drivers in the truck driving classes, bonds for employees who are notaries and professional liability policies are being provided through purchased commercial insurance with minimum deductibles for each line of coverage. Settled claims resulting from these risks have not exceeded coverage in any of the past 3 fiscal years.

15. Functional Distribution of Operating Expenses

The functional classification of an operating expense (instruction, academic support, etc.) is assigned to a department based on the nature of the activity, which represents the material portion of the activity attributable to the department. For example, activities of an academic department for which the primary departmental function is instruction may include some activities other than direct instruction such as public service. However, when the primary mission of the department consists of instructional program elements, all expenses of the department are reported under the instruction classification. The operating expenses on the statement of revenues, expenses, and changes in net position are presented by natural classifications. The following are those same expenses presented in functional classifications as recommended by NACUBO:

Functional Classification	Amount
Instruction	$ 9,116,175
Academic Support	3,342,659
Student Services	3,621,747
Institutional Support	4,639,928
Operation and Maintenance of Plant	5,204,888
Scholarships and Waivers	3,025,084
Depreciation	2,368,621
Auxiliary Enterprises	1,457,114
Total Operating Expenses	$ 32,776,216

Schedule of Funding Progress – Other Postemployment Benefits Plan

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) (1) (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll [(b-a)/c]
7/1/2011	$ -	$ 629,875	$ 629,875	0%	$ 12,829,820	4.9%
7/1/2013	-	389,487	389,487	0%	11,822,197	3.3%
7/1/2015	-	362,461	362,461	0%	11,466,899	3.2%

Note: (1) The OPEB actuarial valuation used the projected unit credit method for 7/1/2011 and 7/1/2013, and the entry age normal actuarial cost method for 7/1/2015, to estimate the actuarial accrued liability.

Schedule of the College's Proportionate Share of the Net Pension Liability – Florida Retirement System Pension Plan—

	2016 (1)	**2015** (1)	**2014** (1)	**2013** (1)
College's proportion of the FRS net pension liability	0.035532654%	0.038312104%	0.036834566%	0.032316671%
College's proportionate share of the FRS net pension liability	$ 8,972,023	$ 4,948,521	$ 2,247,450	$ 5,563,137
College's covered payroll (2)	$ 13,109,698	$ 13,474,073	$ 13,144,837	$ 13,104,533
College's proportionate share of the FRS net pension liability as a percentage of its covered payroll	68.44%	36.73%	17.10%	42.45%
FRS Plan fiduciary net position as a percentage of the total pension liability	84.88%	92.00%	96.09%	88.54%

Notes: (1) The amounts presented for each fiscal year were determined as of June 30.

(2) Covered payroll includes defined benefit plan actives, investment plan members, State college system optional retirement plan members, and members in DROP because total employer contributions are determined on a uniform basis (blended rate) as required by Part III of Chapter 121, Florida Statutes.

Schedule of College Contributions – Florida Retirement System Pension Plan

	2017 (1)	**2016** (1)	**2015** (1)	**2014** (1)
Contractually required FRS contribution	$ 771,608	$ 875,057	$ 934,082	$ 806,833
FRS contributions in relation to the contractually required contribution	(771,608)	(875,057)	(934,082)	(806,833)
FRS contribution deficiency (excess)	$ -	$ -	$ -	$ -
College's covered payroll (2)	$ 12,862,774	$ 13,109,698	$ 13,474,073	$ 13,144,837
FRS contributions as a percentage of covered payroll	6.00%	6.67%	6.93%	6.14%

Notes: (1) The amounts presented for each fiscal year were determined as of June 30.

(2) Covered payroll includes defined benefit plan actives, investment plan members, State college system optional retirement plan members, and members in DROP because total employer contributions are determined on a uniform basis (blended rate) as required by Part III of Chapter 121, Florida Statutes.

Schedule of the College's Proportionate Share of the Net Pension Liability – Health Insurance Subsidy Pension Plan

	2016 (1)	**2015** (1)	**2014** (1)	**2013** (1)
College's proportion of the HIS net pension liability	0.040973071%	0.042474145%	0.043048678%	0.043245473%
College's proportionate share of the HIS net pension liability	$ 4,775,242	$ 4,331,695	$ 4,025,156	$ 3,765,087
College's covered payroll (2)	$ 12,675,722	$ 13,054,381	$ 12,911,193	$ 12,687,571
College's proportionate share of the HIS net pension liability as a percentage of its covered payroll	37.67%	33.18%	31.18%	29.68%
HIS Plan fiduciary net position as a percentage of the total pension liability	0.97%	0.50%	0.99%	1.78%

Notes: (1) The amounts presented for each fiscal year were determined as of June 30.

(2) Covered payroll includes defined benefit plan actives, investment plan members, and members in DROP.

Schedule of College Contributions – Health Insurance Subsidy Pension Plan

	2017 (1)	**2016** (1)	**2015** (1)	**2014** (1)
Contractually required HIS contribution	$ 174,163	$ 210,417	$ 162,363	$ 147,470
HIS contributions in relation to the contractually required HIS contribution	(174,163)	(210,417)	(162,363)	(147,470)
HIS contribution deficiency (excess)	$ -	$ -	$ -	$ -
College's covered payroll (2)	$ 12,380,590	$ 12,675,722	$ 13,054,381	$ 12,911,193
HIS contributions as a percentage of covered payroll	1.41%	1.66%	1.24%	1.14%

Notes: (1) The amounts presented for each fiscal year were determined as of June 30.

(2) Covered payroll includes defined benefit plan actives, investment plan members, and members in DROP.

1. Schedule of Funding Progress – Other Postemployment Benefit Plan

The July 1, 2015, unfunded actuarial accrued liability of $362,461 was lower than the July 1, 2013, liability of $389,487 as a result of the following:

- Demographic assumptions (rates of termination, retirement, disability, and mortality) were revised to be consistent with those used for the Florida Retirement System.
- The assumed per capita costs of healthcare were updated.
- The rates of healthcare inflation used to project the per capita healthcare costs were revised.
- The rates of participation in the Plan were adjusted to reflect current experience.
- The actuarial cost method was changed from the projected unit credit method to the entry age normal cost method.

2. Schedule of Net Pension Liability and Schedule of Contributions – Florida Retirement System Pension Plan

Changes of Assumptions. The long-term expected rate of return was decreased from 7.65 percent to 7.60 percent, and the active member mortality assumption was updated.

3. Schedule of Net Pension Liability and Schedule of Contributions – Health Insurance Subsidy Pension Plan

Changes of Assumptions. The municipal rate used to determine total pension liability decreased from 3.80 percent to 2.85 percent.

Legislative Auditing Committee

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the South Florida State College, a component unit of the State of Florida, and its discretely presented component unit as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated March 19, 2018, included under the heading **INDEPENDENT AUDITOR'S REPORT**. Our report includes a reference to other auditors who audited the financial statements of the discretely presented component unit, as described in our report on the College's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) to determine audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the College's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control

that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

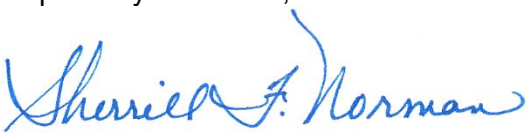

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

Sherrill F. Norman, CPA
