Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Charlotte County District School Board (the District), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the school internal funds, which are reported herein as agency funds, which represent 19 percent of the assets and 52 percent of the liabilities of the aggregate remaining fund information. In addition, we did not audit the financial statements of the Charlotte Local Education Foundation, Inc., the Babcock Neighborhood School, Inc., or the Crossroads Hope Academy; the discretely presented component units, which represent 100 percent of the transactions and account balances of the discretely presented component units' columns. Those financial statements were audited by other auditors, whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for the school internal funds and the discretely presented component units, are based solely on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the school internal funds were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in

the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the other required supplementary information as listed in the table of contents (collectively, the required supplementary information) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 5, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

CHARLOTTE COUNTY DISTRICT SCHOOL BOARD

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management of the District School Board of Charlotte County has prepared the following discussion and analysis to provide an overview of the District's financial activities for the fiscal year ended June 30, 2018. The information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions, it should be considered in conjunction with the District's financial statements found on pages 13-61.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2017-2018 fiscal year are as follows:

- The assets and deferred outflows of the District exceeded its liabilities and deferred inflows at June 30, 2018, by \$337,685,219.35.
- The District's total net position decreased by \$10,024,157.27; a 2.97% decrease from the 2016-2017 fiscal year. Ending net position for the year ended June 30, 2017, increased by \$106,124 due to the implementation of Governmental Accounting Standards Board Statement No. 75.
- General revenues total \$163,062,007.78, or 92.9% of all revenues in the 2017-2018 fiscal year compared to \$156,626,154.71, or 92.5% in the prior year. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions total \$12,426,704.85, or 7.1%, compared to \$12,753,923.33, or 7.5% in the prior year.
- At June 30, 2018, the District's governmental funds reported combined fund balances of \$70,631,318.02, an increase of \$13,202,975.12 for the year.
- The unassigned fund balance of the General Fund, representing the net current financial resources available for future appropriation, totals \$10,825,496.96 at June 30, 2018, or 8.5% of total General Fund expenditures.
- During the current year, General Fund revenues and other financing sources exceeded expenditures and other financing uses by \$2,500,233.09. This may be compared to last year's results in which General Fund revenues and other financing sources exceeded expenditures and other financing uses by \$2,999,983.98.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements consist of three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the financial statements

Government-wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net position and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the District presented on the accrual basis of accounting. The statement of net position provides information about the District's financial position, its assets, liabilities, and deferred outflows/inflows of resources, using an economic resources measurement focus. Assets plus deferred outflows of resources, less liabilities and deferred inflows of resources, equal net position, which is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net position, the results of operations, during the fiscal year. An increase or decrease in net position is an indication of whether the District's financial health is improving or deteriorating.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Government-wide Financial Statements (Concluded)

The government-wide statements present the District's activities in the following categories:

- Governmental activities – This represents most of the District's services including its educational programs: basic, career, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the state's education finance program provide most of the resources that support these activities.
- Component units – The District presents four separate legal entities in this report, which are the Charlotte School Board Leasing Corporation, the Charlotte Local Education Foundation, Inc., Babcock Neighborhood School, Inc., and Crossroads Hope Academy, Inc. Although legally separate organizations, the component units are included in this report because they meet the criteria for inclusion provided by the Governmental Accounting Standards Board. Financial information for the Charlotte Local Education Foundation, Inc. is reported separately from the financial information presented for the District.

Over a period of time, changes in the District's net position are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District's property tax base, student enrollment, and the condition of the District's capital assets, including its school buildings and administrative facilities.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the government-wide statements. All of the District's funds may be classified within one of three broad categories:

- **Governmental Funds** – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, the governmental funds use a spendable financial resources measurement focus rather than the economic resources measurement focus found in the government-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. In particular, the sum of the assigned and unassigned fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the government-wide financial statements. To facilitate this comparison, both the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

The governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds. The District's major funds are the General Fund, Special Revenue Fund—Other Federal Programs, Debt Service—ARRA Economic Stimulus Fund, and the Capital Projects—Local Capital Improvement Fund. Data from other governmental funds are combined into a single, aggregated presentation.

The District adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison schedule has been provided for the General and Major Special Revenue Fund to demonstrate compliance with the budget.

MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

Fund Financial Statements (Concluded)

- **Proprietary Funds** – Proprietary funds may be established to account for activities in which a fee is charged for services. Internal service funds are used to report activities that provide goods and services to support the District’s other programs and functions through user charges. The District uses an internal service fund to account for the Employee Benefits Fund. Since the services predominately benefit governmental rather than business-type functions, the internal service funds have been included within governmental activities in the government-wide financial statements.
- **Fiduciary Funds** – Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District’s own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

The District uses agency funds to account for resources held for student activities and groups.

Notes to Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District’s progress in funding its obligation to provide other postemployment benefits to its employees.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of the District’s financial position. The following is a summary of the District’s net position as of June 30, 2018, compared to net position as of June 30, 2017.

MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

Government-wide Financial Analysis *(Continued)*

The largest portion of the District's net position, \$335,885,413.65 (99.5%), reflects its investment in capital assets (e.g. land, buildings, furniture, fixtures, and equipment), net of any related debt outstanding. The District uses these net capital assets to provide services to students; consequently, these net assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the District's net position, \$56,997,910.95 (16.9%), represents resources that are subject to external restrictions on how they may be used. The remaining deficit net position, (\$55,198,105.25) or (16.4%), is unrestricted and generally is used to meet the government's on-going obligations to citizens and creditors. The unrestricted net position turned negative in 2015 in conjunction with the implementation of Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions*.

MANAGEMENT’S DISCUSSION AND ANALYSIS
(Continued)

Government-wide Financial Analysis (Concluded)
Governmental Activities (Concluded)

Governmental activities decreased the District’s net position by \$10,024,157.27. Key elements are as follows:

- The largest revenue source is property taxes for operational purposes, which increased by \$1,325,872.65, or 1.6%, as a result of an increase in taxable assessed values and a 6.1% decrease in the total millage rate.
- A significant revenue source is the State of Florida (20.6%). Revenues from State sources for current operations are primarily received through the Florida Education Finance Program (FEFP) funding formula. The FEFP formula utilizes student enrollment data, and is designed to maintain equity in funding across all Florida school districts, taking into consideration each District’s funding ability based on the local property tax base.
- Total grants and contributions not restricted to specific program revenues decreased by \$54,882.78, or .1%, primarily due to a decrease in Medicaid and ROTC reimbursements.
- Instruction expenses accounted for approximately 44.8% of total governmental expenses for the 2017-2018 fiscal year. Instruction expenses increased by \$238,337.13, or .3% from the previous year due mainly to staff raises.

The following graph shows total revenues by source:

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Funds

The focus of the governmental funds is to provide information on *near-term* inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. Specifically, unassigned fund balance may serve as a useful measure of a District's net resources available for discretionary use as it represents the portion of fund balance that has not been limited to a particular purpose by an external party, the District, or a group or individual delegated authority by the Board to assign resources for particular purposes.

The total fund balances of governmental funds increased by \$13,202,975.12 during the fiscal year to \$70,631,318.02 at June 30, 2018. Approximately 15.3% of this amount is unassigned \$10,825,496.96 fund balance, which is available for spending at the District's discretion. The remainder of the fund balance is nonspendable, restricted, or assigned to indicate that it is: 1) not in spendable form \$390,107.12, 2) restricted for particular purposes \$56,804,854.97, or 3) assigned for particular purposes \$2,610,858.97.

Major Governmental Funds

General Fund—The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance is \$10,825,496.96, while the total fund balance is \$13,868,838.60. As a measure of the General Fund's liquidity, it may be useful to compare the total unassigned fund balance to General Fund total revenues. The total unassigned fund balance is approximately 8.6% of the total General Fund revenues, while total fund balance represents approximately 11.1% of total General Fund revenues.

The total fund balance increased by \$2,500,233.09 during the fiscal year. Key factors impacting the change are as follows:

- Increases in local property tax values, resulting in increased tax revenues of \$1,325,872.65 (1.6%) and increases in other local revenues of \$605,701.26 (13.0%) accounts for the majority of the increase in revenues for the year.
- Savings in energy expenditures and material and supplies of \$162,331.76 (2.3%) assisted in increasing the fund balance.
- Transfers in from other funds increased by \$100,000.00, or 2.0%.

The Special Revenue—Other Federal Programs Fund has total revenues and expenditures of \$10,778,495.52 each, and the funding was mainly used for instruction and instruction-related services. Because grant revenues and expenditures in this fund are recognized as mentioned in the previous paragraph, this fund generally does not accumulate a fund balance. Activity in this fund increased by .6%, due mainly to a start-up grant for a new charter school.

The Debt Service—ARRA Economic Stimulus Fund has an ending fund balance of \$28,364,169.13. This fund is restricted for the accumulation of resources for, and the payment of, debt principal, interest, and related costs on the Qualified School Construction Bonds. The fund balance increased in the current fiscal year due to scheduled sinking fund deposits.

MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

Major Governmental Funds (Concluded)

The Capital Projects—Local Capital Improvement Fund has an ending fund balance of \$19,695,951.88, all of which is restricted for the acquisition, construction, and maintenance of capital assets. The fund balance increased by \$6,599,223.67 due mainly to the lack of any major building projects.

Proprietary Funds

Unrestricted net position of the Employee Self-Insurance Fund decreased by \$3,756,723.22 during the 2017-2018 fiscal year to \$1,980,067.83 at June 30, 2018. Fund expenses exceeded premium revenues and reimbursements.

BUDGET VARIANCES IN THE GENERAL FUND

During the 2017-2018 fiscal year, the District amended its General Fund budget several times, which resulted in an increase of total budgeted revenues of \$1,532,305.00, or 1.2%. At the same time, final appropriations are higher than the original budgeted amounts by \$5,001,247.00, or 3.9%. Budget revisions occurred primarily from changes in tax revenues received, adjustments to State FEFP revenues, and corresponding adjustments to planned expenditures to ensure maintenance of an adequate fund balance.

Actual revenues exceeded budgeted revenues by \$478,133.91 or .4%, while actual expenditures are \$4,749,560.66, or 3.7% less than final budget amounts. The decrease in expenditures was primarily due to continued cost containment measures implemented by the District. The actual ending fund balance exceeded the estimated fund balance contained in the final amended budget by \$5,249,371.60.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The District's investment in capital assets totaled \$401,091,817.48 at June 30, 2018 (net of accumulated depreciation). This investment in capital assets includes land; improvements other than buildings; buildings and fixed equipment; furniture, fixtures, and equipment; motor vehicles; construction in progress; and computer software. The total decrease in capital assets for the current fiscal year was approximately 3.9%.

Major capital asset events included the following:

- Several school sites had major renovations resulting in \$946,534.30 of added building value.
- Under District policy, school buses are to be replaced every thirteen years. Total cost of new buses for the current year totaled \$1,167,236.

Additional information on the District's capital assets can be found in Note IV.C to the financial statements.

Long-term Debt

At June 30, 2018, the District has total long-term debt outstanding of \$65,179,330.21, comprised of \$5,000,000.00 Qualified Zone Academy Bonds payable, \$60,000,000.00 of Qualified School Construction Bonds payable, and \$179,330.21 of state bonds payable. During the current fiscal year, the net reduction in long-term debt was \$510,852.30.

The District's state bonds outstanding at June 30, 2018, totaling \$179,330.21, were issued by the State Board of Education, and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds.

Additional information on the District's long-term debt can be found in Note IV.I to the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS
(Concluded)

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The latest enrollment projections for the District indicate a decrease of 4 students during the 2018-2019 fiscal year, which will decrease State revenue to some extent.

Employer contributions to the Florida Retirement System increased for regular employees from 7.92% to 8.26% of payroll for the State's 2018-2019 fiscal year.

Housing prices are expected to increase the taxable assessed value for the 2018-2019 fiscal year.

For fiscal year 2018-2019, the District anticipates an overall increase in revenues of approximately \$3.98 million, due mainly to increases in property tax receipts. However, expenditures are budgeted to increase 12.1% over fiscal year 2017-2018 actual expenditures.

REQUESTS FOR INFORMATION

This report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate compliance and accountability for its resources. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chief Financial Officer.

**CHARLOTTE COUNTY DISTRICT SCHOOL BOARD
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF
REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2018**

Net Change in Fund Balances - Governmental Funds \$ 13,202,975.12

Amounts Reported for Governmental Activities in the Statement of Activities
are Different Because:

Capital outlays are reported in the governmental funds as expenditures.
However, in the statement of activities, the cost of those assets is
allocated over their estimated useful lives as depreciation expense.
This is the amount of capital outlays in excess of depreciation expense
in the current period:

| | | |
|----------------------|------------------------|-----------------|
| Capital Outlay | \$ 6,089,163.35 | |
| Depreciation Expense | <u>(22,373,755.88)</u> | (16,284,592.53) |

The statement of activities reflects only the gain/loss on the sale of assets,
whereas the governmental funds include all proceeds from these sales.
Thus, the change in net position differs from the change in fund balances
by the cost of assets sold. (101,985.06)

Certain revenues have not been recognized in governmental funds because
they do not meet the availability criteria for recognition. These "unavailable
revenues" are recognized in the government-wide statements. 208,468.88

Repayment of long-term debt is an expenditure in the governmental funds,
but the repayment reduces long-term liabilities in the statement of net
position. This is the amount of repayments in the current fiscal year. 484,000.00

Premiums and refunding losses are recognized in the governmental
funds in the year debt is issued, but are deferred and amortized over
the life of the debt in the governmental-wide statements:

| | | |
|----------------------------------|-----------------|-----------|
| Amortization of Debt Premiums | 26,852.30 | |
| Amortization of Refunding Losses | <u>(711.14)</u> | 26,141.16 |

Interest on long-term debt is recognized as an expenditure in the
governmental funds when due, but is recognized as interest accrued
in the statement of activities. This is the net change in accrued interest
in the current period. 12,629.00

The change in accrued compensated absences is recorded in the statement of
activities under the full accrual basis of accounting, but is not recorded
in the governmental funds until paid. This is the net decrease
in accrued compensated absences for the current fiscal year. 125,751.38

Certain changes in the items related to the District's participation in a multiple-employer retirement system are reported only at the government-wide level. Following are the changes in these amounts for the current fiscal year:

| | | | | |
|--------------------------|----|----------------|--|-------------------|
| FRS Pension Contribution | \$ | 4,936,190.00 | | |

| HIS Pension Expense | | (1,959,979.00) | | \$ (3,992,717.00) |

Governmental funds report other postemployment benefit contributions as expenditures. However, in the statement of activities, the actuarial cost of benefits earned net of employee contributions is reported as an expense.

51,445.00

Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. This is the net change of internal service funds reported with governmental activities.

**CHARLOTTE COUNTY DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018**

Note I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-wide Financial Statements

The government-wide financial statements (i.e, the statement of net position, and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. Fiduciary activities are reported only in the fund financial statements. Governmental activities are normally supported by taxes, intergovernmental revenues, and other non-exchange transactions. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expense is reported as unallocated.

B. Reporting Entity

The Charlotte County District School Board (the Board) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The Charlotte County School District (the District) is considered part of the Florida system of public education, operates under the general direction of the Florida Department of Education, and is governed by State law and State Board of Education (SBE) rules. The governing body of the District is the Board, which is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Charlotte County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading or incomplete. Based on the application of these criteria, the following component units are included within the District's reporting entity:

- **Blended Component Unit**—A blended component unit is, in substance, part of the primary government's operations, even though it is a legally separate entity.

The Charlotte County School Board Leasing Corporation (Leasing Corporation) was formed to facilitate financing for the acquisition of facilities and equipment. Due to the substantive economic relationship between the District and the Leasing Corporation, the financial activities of the Leasing Corporation are included in the accompanying basic financial statements. Separate financial statements for the Leasing Corporation are not published.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018
(Continued)

Note I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

B. Reporting Entity *(Concluded)*

- **Discretely Presented Component Unit**—The component units column in the government-wide financial statements includes the financial data of the District’s other component units. A separate column is used to emphasize that they are legally separate from the District:
 - Charlotte Local Education Foundation, Inc. (the Foundation) is a separate not-for-profit corporation organized and operated as a direct-support organization to receive, hold, and administer property and to make expenditures for the benefit of the District. Because of the nature and significance of its relationship with the District, the Foundation is considered a discretely presented component unit.
 - Babcock Neighborhood School, Inc. (the Babcock School) is a not-for-profit corporation organized and operated as a charter of the District. Because of the nature and significance of its relationship with the District, the Babcock School is considered a discretely presented component unit.
 - Crossroads Hope Academy, Inc. (the Academy) is a not-for-profit corporation organized and operated as a charter of the District. Because of the nature and significance of its relationship with the District, the Academy is considered a discretely presented component unit.

Financial information for these component units are reported separately from the financial information presented for the primary government.

C. Basis of Presentation—Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The effects of interfund activity have been eliminated from the government-wide financial statements except for interfund services provided or used.

D. Basis of Presentation—Fund Financial Statements

The fund financial statements provide information about the District’s funds including the fiduciary funds and blended component unit. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of fund financial statements is on major funds. Each major governmental fund is displayed in a separate column, and nonmajor governmental funds are aggregated and reported in a single column.

The District reports the following major governmental funds:

- **General Fund**—to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.

CHARLOTTE COUNTY DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018
(Continued)

Note I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

D. Basis of Presentation—Fund Financial Statements *(Concluded)*

- **Special Revenue—Other Federal Programs Fund**—to account for certain Federal program resources.
- **Debt Service—Federal Economic Stimulus Fund**—to account for the accumulation of resources for, and the payment of, debt principal, interest, and related costs on the District's Qualified School Construction Bonds (QSCB).
- **Capital Projects—Local Capital Improvement Fund**—to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, and debt service payments thereon.

Additionally, the District reports the following proprietary and fiduciary fund types:

- **Internal Service Fund**—to account for the District's Employee Benefits Program.
- **Agency Funds**—to account for resources of the school internal funds, which are used to administer monies collected at several schools in connection with school, student athletic, class, and club activities.

During the course of its operations the District has activity between funds for various purposes. Any residual balances outstanding at year-end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, transfers between the funds included in governmental activities are eliminated in the preparation of the government-wide financial statements.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

CHARLOTTE COUNTY DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018
(Continued)

Note I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Measurement Focus and Basis of Accounting (Concluded)

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Generally, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for federal, state, and other grant resources, revenue is recognized at the time the expenditure is made. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditures are generally recognized when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, claims and judgments, Other Postemployment Benefits (OPEB), and compensated absences, are only recorded when payment is due. General capital assets are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources. Allocations of cost, such as depreciation, are not recognized in governmental funds.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The Agency funds have no measurement focus but utilize the accrual basis of accounting for reporting its assets and liabilities.

The discretely presented component unit, the Charlotte Local Education Foundation, Inc., is reported using the economic resources measurement focus and the accrual basis of accounting.

F. Assets, Liabilities, and Net Position/Fund Balance

1. Cash and Cash Equivalents

The District's cash and cash equivalents include cash on hand, demand deposits, and short-term, highly-liquid investments with original maturities of three months or less from the date of acquisition. Investments classified as cash equivalents include amounts placed with the State Board of Administration (SBA) in Florida PRIME and money market funds, except that amounts held in escrow for long-term debt are not considered to be cash equivalents.

Cash deposits are held by banks qualified as public depositories under Florida law. These deposits are insured by federal depository insurance up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

2. Investments

Investments consist of amounts placed in the SBA debt service accounts for investment of debt service moneys, amounts placed with the SBA in Florida PRIME created by Section 218.405, Florida Statutes, and those made locally. These investment pools operate under investment guidelines established by Section 215.47, Florida Statutes.

JUNE 30, 2018
(Continued)

Note I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Assets, Liabilities, and Net Position/Fund Balance (Continued)

2. Investments (Concluded)

The District's investments in Florida PRIME meet all of the necessary criteria to elect to measure all of the investments in Florida PRIME at amortized cost. Like money market funds, a participant's account balance is a share of the investment pool, not the underlying securities. These investments are reported at fair value, which is amortized cost.

Investments made locally include a money market fund and a Federated Home Loan Mortgage Corporation (FHLMC) note and are reported at fair value.

Types and amounts of investments held at fiscal year-end are described in a subsequent note.

3. Receivables/Due from Other Agencies

Accounts receivables and due from other agencies are reported at their gross value, and where appropriate are reduced by the estimated portion that is expected to be uncollectible. The allowance for uncollectible amounts at June 30, 2018, is \$0.00.

4. Inventories and Prepaid Items

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost using the moving average pricing method, except that United States Department of Agriculture donated foods are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when consumed rather than purchased.

Certain prepayments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

5. Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation.

Capital assets are depreciated using group depreciation and the straight-line method over the following original estimated useful lives of the asset group:

| Description | Estimated Lives |
|--|-----------------|
| Improvements Other Than Buildings | 15 Years |
| Buildings and Fixed Equipment | 20-50 Years |
| Furniture, Fixtures, and Equipment | 7 Years |
| Motor Vehicles | 7-10 Years |
| Audio Visual Materials and Computer Software | 5 Years |

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2018
(Continued)

Note I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Assets, Liabilities, and Net Position/Fund Balance (Continued)

6. Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows or resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS and the HIS fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value. The District's retirement plans and related amounts are described in a subsequent note.

7. Long-term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position. Bond premiums, discounts, and refunding losses are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the unamortized bond premium/discount. Unamortized refunding losses are reported as deferred outflows. Issuance costs are expensed in the year incurred.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due.

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability for these amounts is reported in the governmental fund financial statements only if they have matured, such as for occurrences of employee resignations and retirements. The liability for compensated absences includes salary-related benefits, where applicable.

Changes in long-term liabilities for the current year are reported in a subsequent note.

8. Deferred Outflows/Deferred Inflows

In addition to assets, the statement of net position or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense) until then. The District has three items that qualify for reporting in this category. The first item is the deferred charge on refunding reported in the government-wide statement of net position which results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The remaining items are the deferred amounts on pension and OPEB reported in the government-wide statement of net position. The deferred outflows of resources related to pensions and OPEB are discussed in subsequent notes.

Note I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

F. Assets, Liabilities, and Net Position/Fund Balance *(Continued)*

8. Deferred Outflows/Deferred Inflows *(Concluded)*

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting in this category on the statement of net position. The deferred inflows of resources related to pensions and OPEB are discussed in subsequent notes.

9. Net Position Flow Assumptions

The District occasionally funds outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. To calculate the amounts to report as restricted—net position and unrestricted—net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. Consequently, it is the District's policy to consider restricted—net position to have been depleted before unrestricted—net position is applied.

10. Fund Balance Flow Assumption

The District may fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). To calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

11. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation. The District reported no committed fund balance at June 30, 2018.

Note I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

F. Assets, Liabilities, and Net Position/Fund Balance *(Concluded)*

11. Fund Balance Policies *(Concluded)*

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The District may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Also classified as assigned are amounts that are constrained to be used for specific purposes based on actions of the Superintendent. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Board Policy #6233 provides that "to promote and maintain the financial strength and stability of the District, the Board directs that each year's final adopted budget shall include an appropriated (unassigned) projected fund balance of not less than five percent (5%) of the District's general fund revenues." The projected fund balance may be allowed to fall below five percent (5%) only after a super majority vote of the Board.

G. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

2. State Revenue Sources

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of five months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

Note I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(Continued)*

G. Revenues and Expenditures/Expenses *(Continued)*

2. State Revenue Sources *(Concluded)*

The State provides financial assistance to administer certain educational programs. State Board of Education rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same educational programs. The Department generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the unencumbered balance of categorical and earmarked educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the FDOE. Accordingly, the District recognizes the allocation of Public Education Capital Outlay funds as advanced revenue until such time as an encumbrance authorization is received.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

3. District Property Taxes

The School Board is authorized by State law to levy property taxes for District school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Charlotte County Property Appraiser, and property taxes are collected by the Charlotte County Tax Collector.

The Board adopted the 2017 tax levy on September 7, 2017. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to four percent for early payment.

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Charlotte County Tax Collector at fiscal year-end but not yet remitted to the District.

3. District Property Taxes *(Concluded)*

Millages and taxes levied for the current year are presented in a subsequent note.

4. Federal Revenue Sources

The District receives federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

5. Compensated Absences

In the government-wide financial statements, compensated absences (i.e. paid absences for employee vacation and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability of these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations and retirements. The liability for compensated absences included salary-related benefits, where applicable.

6. Proprietary Fund Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for employee health insurance premiums. Operating expenses include insurance claims and excess coverage premiums. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Note II - ACCOUNTING CHANGES

Governmental Accounting Standards Board Statement No. 75

The District implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which replaces GASB Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended. This statement addresses accounting and financial reporting for postemployment benefits other than pensions (OPEB) provided to employees of state and local government employers; established standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expenses on the face of the financial statement for the OPEB that they provide; and requires more extensive note disclosures and supplementary information about a government's OPEB liability. The beginning net position of the District was increased by \$106,124.00 due to implementation of GASB Statement No. 75. The District's total OPEB liability reported at June 30, 2017, decreased by \$30,920.00 to \$3,704,696.00 as of July 1, 2017, due to the transition in the valuation methods under GASB Statement No. 45 to GASB Statement No. 75. Beginning balance of deferred outflows of resources was increased by \$75,204.00 as of July 1, 2017.

Note III - PRIOR PERIOD ADJUSTMENT

The beginning net position of the District, was increased by \$5,451,504.00 due to the adoption of a new GASB Pronouncement, Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. GASB Statement No. 75 requires the District to recognize a liability and operating statement activities related to changes in the OPEB Plan. As a result of this change, beginning net position has been restated as follows.

| | | |
|--|------------------|---------------------------------|
| Beginning Net Position Prior to Restatement | | \$ 347,603,252.62 |
| OPEB Liability | \$ 30,920.00 | |

Note IV - DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

A. Cash Deposits with Financial Institutions

Custodial Credit Risk-Deposits—In the case of deposits, this is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. The District does not have a policy for custodial credit risk. All bank balances of the District are fully insured or collateralized as required by Chapter 280, Florida Statutes.

Cash balances from all funds are combined and invested to the extent available. Earnings are allocated monthly to each fund balance based on average daily balances.

B. Investments

As of June 30, 2018, the District had the following investments and maturities:

| Investments | Maturities | Fair Value |
|---|-------------------|--------------------------------|
| State Board of Administration (SBA): | | |
| Florida PRIME (1) | 30-Day Average | \$ 30,866,528.99 |
| Florida PRIME (1) (3) | 30-Day Average | 28,364,169.13 |
| Debt Service Accounts | 6 Months | 5,243.66 |
| Federal Home Loan Mortgage Corporation (FHLMC): | | |
| Discount Note (2) | October 30, 2018 | <u>3,234,709.50</u> |
| Total Investments | | <u><u>\$ 62,470,651.28</u></u> |

- Notes: (1) Investments that have original maturities of three months or less are considered cash equivalents for financial reporting purposes.
- (2) This investment is held under a paying agent agreement and sinking fund forward delivery agreement in connection with the Qualified Zone Academy Bonds (QZAB) (see Note IV.I.1).
- (3) This investment is held under a master trust agreement and supplemental master trust agreement in connection with the Qualified School Construction Bonds (QSCB) (see Note IV.I.2).

B. Investments *(Continued)*

The Florida PRIME (the SBA) June 30, 2018 report, was the source for of the weighted average maturity and credit rating for Florida PRIME: <https://www.sbafla.com/prime/>.

Fair Value Measurement—The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The SBA debt service account and the FHLMC investment are valued using Level 1 inputs.

Interest Rate Risk—Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Florida PRIME had a weighted average days to maturity (WAM) of 30 days at June 30, 2018. A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes. The weighted average life (WAL) of Florida PRIME at June 30, 2018, is 76 days.

The District's investment in the FHLMC discount note is authorized under a forward delivery agreement (FDA) with the QZAB paying agent. The FDA guarantees an interest rate of 3.21%. The Provider of the FDA bears the interest rate risk.

The District's investments in the State of Florida debt service accounts will be used for debt service payments on bond debt issued by the State Board of Education for the benefit of the District. The District relies on policies developed by the SBA for managing interest rate risk (and credit risk) for this account.

Foreign Currency Risk—Florida PRIME was not exposed to any foreign currency risk during the fiscal year ended June 30, 2018.

Credit Risk—Section 218.415(17), Florida Statutes, limits investments to ones considered to have low credit risks. Money market funds must be Securities and Exchange Commission (SEC) registered money market funds with the highest credit quality rating from a nationally recognized rating agency. Investments in interest-bearing time deposits must be in qualified public depositories, as defined in Section 280.02, Florida Statutes. The District's investment policy does not further limit its investment choices.

As of June 30, 2018, the District's investment in Florida PRIME is rated AAAM by Standard & Poor's.

The FHLMC investment note is rated Aaa by Moody's Investor Services.

B. Investments (Concluded)

Custodial Credit Risk—Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Section 218.415(18), Florida Statutes, requires the District to earmark all investments and: 1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body’s interest in the security; 2) if in governing body book entry form, the investment must be held for the credit of the by a depository chartered by the Federal Government, the state, or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or 3) if physically issued to the holder but not registered with the issuer or its agents, must be immediately placed for safekeeping in a secured vault. The District’s investment policy does not address custodial credit risk. The District’s investment in the FHLMC discount note is held in a custodial account by the paying agent.

D. Florida Retirement System

1. FRS – Defined Benefit Pension Plans

General Information about the Florida Retirement System (FRS)

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any state-administered retirement system in paying the costs of health insurance. Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112 Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer defined-benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' web site (www.dms.myflorida.com).

The District's pension expense totaled \$11,142,578.78 for the fiscal year ended June 30, 2018, (all plans).

Payables to the Pension Plan. At June 30, 2018, the District reported a payable of \$518,540.94 for the outstanding amount of contributions to the Plan required for the fiscal year end June 30, 2018.

FRS Pension Plan

Plan Description. The Florida Retirement System (FRS) Pension Plan (Plan) is a cost-sharing, multiple-employer qualified defined benefit pension plan with a Deferred Retirement Option Program (DROP) available for eligible employees. The FRS was established and is administered in accordance with Chapter 121, Florida Statutes. The Florida Legislature established and amends the contribution requirements and benefit terms of the FRS Plan. The general classes of membership are as follows:

- *Regular Class* – Members of the FRS who do not qualify for membership in the other classes.
- *Elected County Officer Class* – Members who hold specified elective offices in local government.
- *Senior Management Service Class (SMSC)* – Members in senior management level positions.
- *Special Risk Class* – Members who are employed as law enforcement officers and meet the criteria to qualify for this class, (not applicable to the District).

FRS Pension Plan *(Continued)*

Plan Description. (Continued)

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, except for members classified as special risk who are eligible for normal retirement benefits at age 55 or at any age after 25 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service, except for members classified as special risk who are eligible for normal retirement benefits at age 60 or at any age after 30 years of service. Members of the Plan may include up to four years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3% per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3% determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3%. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2017-18 fiscal year were as follows:

The District's contributions to the Plan totaled \$4,936,190.00 for the fiscal year ended June 30, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2018, the District reported a liability of \$52,261,162.00 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017. The District's proportionate share of the net pension liability was based on the District's 2016-17 fiscal year contributions relative to the fiscal year 2016-17 fiscal year contributions of all participating members. At June 30, 2017, the District's proportion was .176681365%, which was a decrease of .012426704 from its proportion measured as of June 30, 2016.

For the fiscal year ended June 30, 2018, the District recognized Plan pension expense of \$8,384,708.00. In addition, the District reported differed outflows of resources and deferred inflows of resources related to pensions from the following sources:

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. (Concluded)

The deferred outflows of resources related to pensions, totaling \$4,936,190.00, resulting from District contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| <u>Fiscal Year Ending</u> | <u>Amount</u> |
|---------------------------|-------------------------|
| 2019 | \$ 2,391,963.00 |
| 2020 | 6,887,737.00 |

| 2023 | 3,032,486.00 |
| Thereafter | 1,183,854.00 |
| Total | \$ 18,342,826.00 |

Actuarial Assumptions. The total pension liability in the July 1, 2017 actuarial valuation, was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| | | |
|---|-------|------------------------------|
| Inflation | 2.60% | |
| Salary Increases | 3.25% | Average, Including Inflation |
| Discount Rate | 7.10% | |
| Long-term Expected Rate of Return, Net of Investment Expense | 7.10% | |

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

The actuarial assumptions used in the July 1, 2017, valuation were based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2013.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Discount Rate. The discount rate used to measure the total pension liability was 7.10%. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. The discount rate was 7.60% in the July 1, 2017 valuation.

Sensitivity of the District's Proportionate Share of the Net Position Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10%) or 1-percentage-point higher (8.10%) than the current rate:

HIS Pension Plan

Plan Description. The Retiree Health Insurance Subsidy (HIS) Program Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with Section 112.363, Florida Statutes. The Florida Legislature established and amends the contribution requirements and benefit terms of the HIS program. The benefit is a monthly payment to assist retirees of the state-administered retirements systems in paying their health care costs.

Benefits Provided. For the fiscal year ended June 30, 2017, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum payment is \$30 and the maximum payment is \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS benefit, a retiree under one of the state-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2017, the contribution rate was 1.66% of payroll pursuant to section 112.363, Florida Statutes. The District contributed 100% of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$1,415,777.00 for the fiscal year ended June 30, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2018, the District reported a net pension liability of \$28,787,787.00 for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017. The District's proportionate share of the net pension liability was based on the District's 2016-17 fiscal year contributions relative to the total 2016-17 fiscal year contributions of all participating members. At June 30, 2017, the District's proportionate share was .269234423%, which was decrease of .00017889097 from its proportionate share measured as of June 30, 2016.

For the fiscal year ended June 30, 2018, the District recognized HIS pension expense of \$1,959,979.00. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Actuarial Assumptions. (Concluded)

While an experience study had not been completed for the HIS Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan.

Discount Rate. The discount rate used to measure the total pension liability was 3.58%. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate increased from 2.85% to 3.58%.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 3.58%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.58%) or 1-percentage-point higher (4.58%) than the current rate:

FRS – Defined Contribution Pension Plan

The District contributes to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the SBA, and is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Retirement benefits are based upon the value of the member's account upon retirement. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and

membership class (Regular Class, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06% of payroll and by forfeited benefits of Investment Plan members. Allocations to the investment member accounts during the 2017-18 fiscal year were as follows:

| Class | Percent of Gross Compensation |
|--------------------------------|-------------------------------------|
| FRS, Regular | 6.30 |
| FRS, Elected County Officers | 11.34 |
| FRS, Senior Management Service | 7.67 |

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five year period, the employee will regain control over their account. If the employee does not return within the five year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2018, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District’s Investment Plan pension expense totaled \$797,891.78 for the fiscal year ended June 30, 2018.

Note IV - DETAILED NOTES ON ALL ACTIVITIES AND FUNDS (Continued)

E. Other Postemployment Benefits (Continued)

Plan Description—The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District, which was established by practice. Pursuant to the provisions of Section 112.0801, Florida Statutes, employees who retire from the District and their eligible dependents are eligible to participate in the District’s health and hospitalization plan for medical and prescription drug coverage. The District subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are generally expected to result in higher costs to the Plan on average than those of active employees. The District does not offer any explicit subsidies for retiree coverage. Retirees are assumed to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. Plan contribution requirements and benefit terms of the district and OPEB Plan members are established and may be amended through recommendation of the Insurance Committee and action from the Board. The District has not advance funded or established a funding methodology for the annual OPEB costs or the net OPEB obligation. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The OPEB Plan does not issue a stand-alone report.

Benefit Provided— The OPEB Plan provides healthcare insurance benefits for retirees and their dependents. The OPEB Plan provides an implicit subsidy as described above.

Employees Covered by Benefit Terms—As of the valuation date, June 30, 2017, the following employees were covered by the benefit terms:

| | |
|--|--------------|
| Inactive Employees or Beneficiaries Currently Receiving Benefits | 56 |
| Inactive Employees Entitled to But Not Yet Receiving Benefits | 0 |
| Active Employees | 1,325 |
| Total | 1,381 |

Total OPEB Liability—The District’s total OPEB liability of \$3,745,395.00 was measured as of June 30, 2017, and was determined by an actuarial valuation as of June 30, 2017. The beginning OPEB liability was decreased by \$30,920.00 due to the adoption of GASB Statement No. 75.

Actuarial Assumptions and Other Inputs—The total OPEB liability with the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

G. Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Board is a member of the Florida School Board Insurance Trust (FSBIT), a protected self-insurance fund for Florida school boards. FSBIT was established under the authority of Section 624.4622, Florida Statutes, for the purpose of pooling property, casualty, and workers' compensation exposure; purchasing and procuring insurance coverage of various types or providing self-insurance; and providing risk management services for the Florida school boards.

The District's health insurance program for its employees is provided on a self-insured basis up to specific limits. The District has entered into an agreement with an insurance company to provide specific excess coverage of claims amounts above \$300,000 on an individual basis, and aggregate excess coverage of \$5 million when total claims minus specific excess coverage exceeds the loss fund established annually by the District. The District has contracted with an insurance administrator to administer these self-insurance programs, including the processing, investigating, and payment of claims.

Settle claims resulting from the risk described above have not exceeded commercial insurance coverage in any of the three fiscal years.

A liability in the amount of \$1,056,730.98 was determined to cover the estimated incurred but not reported, insurance claims payable at June 30, 2018.

The following schedule represents the changes in claim liability for the current and past fiscal year for the District's self-insurance fund:

| <u>Fiscal Year</u> | <u>Beginning Fiscal Year Liability</u> | <u>Current Year Claims and Changes in Estimated Liability</u> | <u>Claims Payments</u> | <u>Balance at Fiscal Year-end</u> |
|--------------------|--|---|------------------------|-----------------------------------|
| 2016-17 | \$1,600,390.50 | \$15,420,707.96 | \$(16,298,004.79) | \$723,093.67 |

I. Long-term Liabilities

1. Qualified Zone Academy Bonds Payable

On November 27, 2006, the District entered into a financing arrangement, characterized as a lease-purchase agreement, with the Charlotte School Board Leasing Corporation, whereby the District secured financing under the Qualified Zone Academy Bonds (QZAB) Program in the amount of \$5,000,000. The QZAB Program provides no interest cost financing to purchase certain goods or services for schools located in eligible District areas (zones). Interest on the debt is “paid” by the United States Government through the issuance of Federal income tax credits to the holder of the QZAB debt (the bank). The rate of return to the lender (Bank of America) was established by the United States Government at the time of the sale.

The financing was accomplished through the issuance of a Series 2006-QZAB Note on November 27, 2006. The \$5,000,000 note proceeds were designated for technology upgrades/replacements, computer laptops, and instructional equipment/materials at the following schools: The Academy at Charlotte Tech Center, Charlotte Harbor Center School, Neil Armstrong Elementary School, Port Charlotte Middle School, and Port Charlotte High School. The Leasing Corporation issued the bonds, purchased the equipment, and then leased the equipment to the District under terms of the lease-purchase agreement.

Repayment of the original \$5,000,000 note is due in full on November 27, 2022. Rent paid by the District to the Leasing Corporation corresponds to the annual debt service requirements on the bonds. Rents are paid from “Available Revenues” of the District, including capital outlay millage revenues. The lease term ends on the date the note is paid in full.

In connection with the financing, the Leasing Corporation assigned its rights to the rent collections to a paying agent (US Bank), and the District entered into a sinking fund forward delivery agreement with the paying agent whereby the District will deposit 16 annual rent payments of \$242,708.40, beginning in 2007, into a sinking fund held by the Custodian (US Bank), as security for the bonds. The Provider of the forward delivery agreement (Bank of America) provides a guaranteed investment return of 3.25 percent per annum, which together with the required annual rent deposits, will be sufficient to repay the debt at maturity. As of June 30, 2018, the market value of the sinking fund account was \$3,234,709.50.

2. Qualified School Construction Bond Payable

In 2010, the District established a master lease-purchase program for the lease-purchase financing of various current and future educational facilities and sites. The general terms of this program were determined pursuant to a Master Lease-Purchase Agreement and Master Trust Agreement between the District and the Leasing Corporation.

2. Qualified School Construction Bond Payable *(Concluded)*

On May 28, 2010, the District entered into a financing arrangement with the Leasing Corporation under this program whereby the District secured financing under the Qualified School Construction Bond (QSCB) Program in the amount of \$60,000,000. The QSCB Program was established by Section 1521 of the *American Recovery and Reinvestment Act* (ARRA) and codified in Section 54A and 54F of the Internal Revenue Code. Among other things, the program provides low interest cost financing to school districts to construct certain education facilities. Interest on the debt is paid by the District, and reimbursed in part by the Federal government.

The financing was accomplished through the issuance of a School Board of Charlotte County, Florida Master Lease Program—Master Lease Certificates, Series 2010A—Qualified School Construction Bond (QSCB) in the principal amount of \$60 million. The certificate proceeds were received from the lender (Bank of America) and designated for the replacement construction of two schools, Meadow Park Elementary School and Lemon Bay High School. Under terms of Lease Schedule 2010A to the Master Lease-Purchase Agreement, and other related agreements, the District provided a ground lease to the Leasing Corporation, then would construct, acquire, install, and lease-purchase the projects from the Leasing Corporation.

Repayment of the original \$60 million certificate proceeds is due in full on May 1, 2027. Interest payments are due semi-annually based on a 5.70% annual interest rate, and a federal interest subsidy reimbursement is available, initially projected at an annual rate of 5.29%. The subsidy was reduced for 2018, pursuant to the requirements of the *Balanced Budget and Emergency Deficit Control Act of 1985*, as amended. Interest payments in 2018 were \$3,420,000 and interest subsidies were \$2,959,755. Rent paid by the District to the Leasing Corporation corresponds to the annual debt service requirements on the bonds. Rents are paid from “Available Revenues” of the District, including capital outlay millage revenues. The lease term ends on the date the certificates are paid in full.

In connection with the financing and pursuant to a Series 2010A Supplemental Master Trust Agreement, the Leasing Corporation assigned its rights to the rent collections to a Trustee (Regions Bank), requiring the District to deposit the 17 annual “basic” rent payments of \$3,529,412 (corresponding to the principal portion of the bond), beginning in 2011, into a sinking fund held by the Trustee, as security for the bond. These amounts will be sufficient to pay the \$60 million principal balance at maturity. Investment income earned in the Sinking Fund can be used to reduce future annual rent payments. At June 30, 2018, the market value of the sinking fund account was \$28,364,169.13.

| Add: Unamortized Premium | <u>49,330.21</u> | | |
| Total Bonds Payable | <u><u>\$ 179,330.21</u></u> | | |

The various bonds were issued by the State Board of Education (SBE) to finance capital outlay projects of the District. The bonds mature serially, and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the SBE and the State Board of Administration.

Annual requirements to amortize all state school bonded debt outstanding as of June 30, 2018, are as follows:

| <u>Fiscal Year Ending June 30, 2018</u> | <u>Total</u> | <u>Principal</u> | <u>Interest</u> |

| State Bonds Payable | 690,182.51 | - | (510,852.30) | 179,330.21 | 74,000.00 |
| Estimated Insurance Claims Payable | 723,093.67 | 16,205,288.48 | (15,871,651.17) | 1,056,730.98 | - |
| Compensated Absences Payable | 11,118,152.58 | 1,626,641.33 | (1,752,392.71) | 10,992,401.20 | 1,606,620.01 |
| Other Postemployment Benefits Payable* | 3,704,696.00 | 40,699.00 | - | 3,745,395.00 | 347,109.00 |
| Net Pension Liability | 81,212,993.00 | - | (164,044.00) | 81,048,949.00 | 774,505.00 |
| Total Governmental Activities | \$ 162,449,117.76 | \$ 17,872,628.81 | \$ (18,298,940.18) | \$ 162,022,806.39 | \$ 2,802,234.01 |

* Due to the Implementation of GASB Statement No. 75, the beginning balance of the other postemployment benefit payable decreased by \$30,920.00 (see Note II for further information).

For the governmental activities, compensated absences and other postemployment benefits are generally liquidated with resources of the General Fund. Estimated insurance claims payable are generally liquidated with resources of the General Fund. Due to the nature of the liability, none of postemployment benefits obligations are considered due in one year.

J. Fund Balance Reporting

In addition to committed and assigned fund balance categories discussed in the Fund Balance Policies note disclosure, fund balances may be classified as follows:

- *Nonspendable Fund Balance.* Nonspendable fund balance is the net current financial resources that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Generally, not in spendable form means that an item is not expected to be converted to cash.
- *Restricted Fund Balance.* Restricted fund balance is the portion of fund balance on which constraints have been placed by creditors, grantors, contributors, laws, or regulations of other governments, constitutional provisions, or enabling legislation. Restricted fund balance places the most binding level of constraint on the use of fund balance.
- *Unassigned Fund Balance.* The unassigned fund balance is the portion of fund balance that is the residual classification for the General Fund. This balance represents amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned for specific purposes.

| Total | <u>\$ 9,009,543.75</u> | <u>\$ 9,009,543.75</u> |

Interfund transfers represent permanent transfers of money between funds. Funds are transferred to the General Fund from the Local Capital Improvement Fund (LCIF) to finance District maintenance projects, equipment purchases, and property insurance. The transfer to the debt service fund is to fund required annual sinking fund payments. The transfer from the internal service fund to the General Fund was a distribution of program surplus.

Note V - CONSORTIUMS

The District is a member of both the Small School District Council Consortium and the Greater Florida Consortium of School Boards. These consortiums are organized to provide educational information, interpretation, and consultation assistance to the affected Districts.

Note VI - NON-FEDERAL SHARE FOR HEAD START PROGRAMS

For the Head Start and Early Head Start grants, the District is required to provide 20% of the total amount expended using non-Federal funds and donated goods and services. Local funds expended were for facilities, equipment, and district support staff, such as therapists, psychologists, and teachers. Donated goods and services were provided by the community and were used for the benefit of the program. During this fiscal year, for grant number 04CH4774/03 with a period ending October 31, 2017, the required amount of non-Federal share is \$214,466.83. For grant number 04CH4774/04 the required amount of non-Federal share during the period November 1, 2017 through June 30, 2018, is \$349,771.07.

Note VII - SUBSEQUENT EVENTS

The Board authorized the issuance of a tax anticipation note (Note) in the amount of \$17,500,000.00. The proceeds will be used for operating expenses for the fiscal year ending June 30, 2019. The closing of the Note took place on September 14, 2018, and the Note was to mature on March 31, 2019. The stated interest rate is 4.00%.

**CHARLOTTE COUNTY DISTRICT SCHOOL BOARD
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2018**

Note 1 - BUDGETARY BASIS OF ACCOUNTING

The Board follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any School Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis of accounting as is used for financial reporting in governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

Note 2 - SCHEDULE OF CHANGES IN THE DISTRICT'S TOTAL OTHER POSTEMPLOYMENT BENEFITS LIABILITY AND RELATED RATIOS

No assets are accumulated in a trust that meets the criteria in paragraph 4 of Governmental Accounting Standards Board Statement No. 75 to pay related benefits. The June 30, 2018, total Other Postemployment Benefits (OPEB) liability increased from the prior fiscal year as a result of change to assumptions as discussed below:

Changes of Assumption

Changes in assumptions and other inputs include the change in the discount rate from 2.92% as of the beginning of the measurement period to 3.56% as of June 30, 2017. This change is reflected in the Schedule of Changes in Total OPEB Liability.

Note 3 - SCHEDULES OF NET PENSION LIABILITY AND SCHEDULES OF CONTRIBUTIONS

Changes of Benefit Terms: No Significant Changes of Benefit Terms.

Changes of Assumptions:

FRS: The long-term expected rate of return was decreased from 7.60% to 7.10%, and the active member mortality assumption was updated.

HIS: The municipal rate used to determine total pension liability was increased from 2.85% to 3.58%.

Notes:

- (1) **Basis of Presentation:** The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the Federal award activity of the Charlotte County District School Board (the District) under programs of the Federal government for the fiscal year ended June 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.
- (2) **Noncash Assistance:** National School Lunch Program - Of the total reported above, \$531,055.04 represents the amount of donated food received during the fiscal year. Donated foods are valued at fair value as determined at the time of donation.
- (3) **Head Start:** Expenditures include \$857,867.32 for grant number/program year 04CH4774/03 and \$1,399,084.27 for grant number/program year 04CH4774/04.
- (4) **Special Education - Grants to States:** Total CFDA 84.027 expenditures: \$3,432,474.40.
- (5) **Indirect Cost Rate Election:** The District has not elected to use the de minimus cost rate allowed under the Uniform Guidance.

Charlotte County District School Board and
Superintendent
Port Charlotte, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Charlotte County District School Board (the District), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated March 5, 2019. Our report includes a reference to other auditors who audited the financial statements of the school internal funds and the discretely presented component units, as described in our report on the District's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of school internal funds were not audited in accordance with *Government Auditing Standards*.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

(Concluded)**

Internal Control over Financial Reporting (Concluded)

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Charlotte County District School Board and
Superintendent
Port Charlotte, Florida

Report on Compliance for Each Major Federal Program

We have audited the Charlotte County District School Board's (the District) compliance with the types of compliance requirements described in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2018. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE
(Concluded)**

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE
WITH FLORIDA STATUTE SECTION 218.415 – INVESTMENTS OF PUBLIC FUNDS**

Charlotte County District School Board and
Superintendent
Port Charlotte, Florida

We have examined the Charlotte County District School Board's (the District) compliance with the Section 218.415, *Florida Statutes*, during the fiscal year ended June 30, 2018. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the requirements referenced above. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements during the fiscal year ended June 30, 2018.

This report is intended solely for the information and use of the Charlotte County District School Board, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

Report on the Financial Statements

We have audited the financial statements of the Charlotte County District School Board (the District), as of and for the fiscal year ended June 30, 2018, and have issued our report thereon dated March 5, 2019. Our report includes a reference to other auditors who audited the financial statements of the school internal funds and the discretely presented component units, as described in our report on the District's financial statements. This report does not include matters related to these separate audits.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.800, *Rules of the Auditor General*.

Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditors' Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance Required by the Uniform Guidance, Schedule of Findings and Questioned Costs, and our Independent Accountants' Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.800, *Rules of the Auditor General*. Disclosures in those reports and schedule, which are dated March 5, 2019, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.804(1)(f)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings or recommendations made in the preceding annual financial audit report.

Financial Condition and Management

Section 10.804(1)(f)2., *Rules of the Auditor General*, requires us to communicate whether or not the District has met one or more of the conditions described in Section 218.503(1), *Florida Statutes*, and to identify the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), *Florida Statutes*.

MANAGEMENT LETTER
(Concluded)

Financial Condition and Management (Concluded)

Pursuant to Sections 10.804(1)(f)5.a. and 10.805(7), *Rules of the Auditor General*, we applied financial condition assessment procedures for the District. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representatives made by management and the review of financial information provided by same.

Section 10.804(1)(f)3., *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Transparency

Section 10.804(1)(f)6., *Rules of the Auditor General*, requires that we communicate the results of our determination as to whether the District maintains on its Web site the information specified in Section 1011.035, *Florida Statutes*, (Section 1011.035, *Florida Statutes*, provides that district school boards shall prominently post on their Web site a plain language version of each proposed, tentative, and official budget that describes each budget item in terms that are easily understandable to the public). In connection with our audit, we determined that the District maintained on its Web site the information specified in Section 1011.035, *Florida Statutes*.

Additional Matters

Section 10.804(1)(f)4., *Rules of the Auditor General*, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that has occurred, or is likely to have occurred, that has an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, District School Board members, and applicable management and is not intended to be and should not be used by anyone other than these specified parties.
