INDEPENDENT ACCOUNTANTS' REPORT 105

INDEPENDENT AUDITORS' REPORT

Honorable Mayor and
Members of the City Council
City of Arcadia, Florida

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Arcadia, Florida (City), as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Honorable Mayor and
Members of the City Council
City of Arcadia, Florida

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison for the General Fund, information on pension benefits, and information on other postemployment benefits be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules and schedule of expenditures of federal awards and state financial assistance, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and Chapter 10.550, *Local Governmental Entity Audits*, Rules of the Auditor General of the State of Florida, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual fund financial statements and schedules and schedule of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Honorable Mayor and
Members of the City Council
City of Arcadia, Florida

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 4, 2025, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

CITY OF ARCADIA, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2024
(UNAUDITED)

The City of Arcadia, Florida's (the City) discussion and analysis is designed to: (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the City's financial activity, (c) identify changes in the City's financial position (its ability to address the next and subsequent year challenges), (d) identify any material deviations from the financial plan (the approved budget), and (e) identify individual fund issues or concerns.

Since Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes, and currently known facts, it should be read in conjunction with the City's financial statements.

Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year presentation.

Financial Highlights

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at September 30, 2024 by \$56,147,360 (net position).
- As of September 30, 2024, the City's governmental funds reported combined ending fund balances of \$5,814,941, for an increase of \$957,903 in comparison with the prior year. Of this amount, \$3,851,235 is available for spending at the City's discretion (unassigned fund balance).
- The City's total net position increased \$7,463,098. Net position for governmental activities increased \$2,556,764, while net position for business-type activities increased \$4,906,334.
- Total debt for the City increased \$1,765,289 during the current fiscal year primarily as a result of SRF loan draws for three SRF loans.

USING THIS ANNUAL REPORT

The financial statement's focus is on both the City as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year-to-year or government-to-government), and enhance the City's accountability.

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements, which are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report contains other supplementary information in addition to the basic financial statements themselves.

**CITY OF ARCADIA, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2024
(UNAUDITED)**

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. The focus is on "activities," rather than "fund types."

The Statement of Net Position presents information on all of the City's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the two reported as net position. The focus of the Statement of Net Position is designed to be similar to bottom line results for the City and its governmental and business-type activities. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. This statement combines and consolidates governmental fund current resources (short-term spendable resources) with capital assets and long-term obligations.

The Statement of Activities presents information showing the City's change in net position during the most recent fiscal year, focusing on both the gross and net costs of various activities, both governmental and business-type, that are supported by the government's general tax and other revenues. This is intended to summarize and simplify the user's analysis of the cost of various governmental services and/or subsidy to various business-type activities.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes, licenses and permits, and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The Governmental Activities reflect the City's basic service, including police, highways and streets, sanitation, and parks and recreation. Property taxes, sales and use taxes, utility services, and gas taxes finance the majority of these services. The Business-type Activities reflect private sector type operations such as water and sewer services, solid waste operations, and the airport, where the fee for service typically covers all or most of the cost of operation including depreciation.

The government-wide financial statements, as listed in the table of contents, include only the City (known as the primary government). There are no component units.

Fund Financial Statements

A fund is a self-balancing set of accounts that is used to maintain control over the resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be grouped into three (3) categories: (1) governmental funds, (2) proprietary funds, and (3) fiduciary funds. Traditional users of governmental financial statements will find the fund financial statements presentation more familiar.

CITY OF ARCADIA, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2024
(UNAUDITED)

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in the evaluation of the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Because of the different measurement focus (current financial resources versus economic resources) a reconciliation of both the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances is provided to facilitate the comparison between governmental funds and governmental activities. The flow of current financial resources reflects debt proceeds and the sale of capital assets as other financing sources, and capital outlays and debt principal payments as expenditures. The reconciliation will eliminate these transactions and incorporate the capital assets and long-term obligations (debt and others) into the governmental activities column (in the government-wide statements).

The City maintains two (2) individual governmental funds. Information is presented separately in the governmental funds Balance Sheet and in the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund and Capital Improvement Fund are major funds. There were no nonmajor funds for fiscal year 2024.

For fiscal year 2024, the City adopted annual appropriated budgets for the General Fund. A Budgetary comparison schedule has been provided to demonstrate compliance with the budget.

The basic governmental fund financial statements are listed in the table of contents.

Proprietary Funds. The City maintains only one (1) of the two (2) proprietary fund types. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City reports three (3) enterprise funds to account for its water and sewer services, solid waste operations, and the airport. The Water and Sewer Fund, Solid Waste Fund, and Airport Fund are considered to be major funds.

The proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail.

The basic proprietary fund financial statements are listed in the table of contents.

**CITY OF ARCADIA, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2024
(UNAUDITED)**

Fiduciary Funds. Fiduciary funds are used to account for resources that the City holds as a trustee or agent on behalf of an outside party (e.g., pension beneficiaries). The City uses fiduciary funds to account for the two (2) pension trust funds for the Police Officers' and Firefighters' Retirement System and Employees' Retirement Plan. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements are listed in the table of contents.

Notes to the Basic Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes are listed in the table of contents.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Statement of Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The City's assets and deferred outflows exceeded liabilities and deferred inflows by \$56,147,360 at the close of the most recent fiscal year.

Statement of Position (Continued)

By far, the largest portion of the City's net position (92%) reflects its investment in capital assets (e.g., land, building, infrastructure, equipment, right-to-use equipment, and subscription-based information technology arrangements less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

At the end of the current fiscal year, the City is able to report positive balances in all categories of net position.

For more detailed information see the Statement of Net Position.

Normal Impacts

There are six (6) basic (normal) transactions that will affect the comparability of the Statement of Net Position summary presentation.

Net Results of Activities – will impact (increase/decrease) current assets and unrestricted net position.

Borrowing for Capital – will increase current assets and long-term debt.

Spending Borrowed Proceeds on New Capital – will reduce current assets and increase capital assets. An increase in capital assets and an increase in related net debt will not change the net investment in capital assets.

Spending of Nonborrowed Current Assets on New Capital – will reduce current assets and increase capital assets and reduce unrestricted net position and increase the net investment in capital assets.

Principal Payment on Debt – will: (a) reduce current assets and reduce long-term debt, and (b) reduce unrestricted net position and increase the net investment in capital assets.

Reduction of Capital Assets through Depreciation/Amortization – will reduce capital assets and the net investment in capital assets.

Governmental Activities – For the current year, the City's governmental activities had an increase in net position of \$2,556,764, an increase of \$1,535,176 in comparison with the prior year. This increase is comprised of an increase in revenues of \$128,523 and a decrease in expenses of \$1,408,276. The following graphic reflects the source of revenues for governmental activities.

2024 Revenues by Source – Governmental Activities

The increase in revenues is primarily due to an increase capital grants and contributions by \$772,597 primarily related to COVID-19 Pandemic funding while operating grants and contributions, charges for services, other taxes, and intergovernmental revenues all had increases to help offset the decrease in insurance recoveries from damages related to Hurricane Ian in previous years.

The following graphic reflects the use of expenses for governmental activities.

2024 Expenses by Type - Governmental Activities

The decrease in expenses is primarily attributable to a decrease in public safety of \$2,520,124 which was primarily due to recovery costs related to Hurricane Ian that made landfall in late September 2022 and projects under the Coronavirus State and Local Fiscal Recovery Funds program.

Business-Type Activities & Enterprise Funds – For the current year, the City's business-type activities had an increase in net position of \$4,906,334, a decrease of \$320,433 in comparison with the prior year. This increase is comprised of an increase in revenues of \$2,035,111 and an increase in expenses of \$2,355,544.

Unrestricted net position of the Water and Sewer Fund at the end of the year amounted to \$1,183,678; and the increase in total net position was \$3,395,496 primarily due to an increase in capital grants and contribution in comparison to the prior year. Net position increased in the Solid Waste Fund by \$13,099. Lastly, Airport Fund increased by \$1,497,739 primarily due to an increase in capital grants and contributions.

MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2024
(UNAUDITED)**

Financial Analysis of the City's Funds – As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds – The focus of the City's governmental funds, as noted, is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a City's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$5,814,941, a decrease of \$957,903 over the prior year. Approximately 66% of this total amount, \$3,851,235, constitutes unassigned fund balance which is available for spending at the City's discretion. During the current fiscal year, the fund balance of the General Fund decreased by \$1,047,911.

The General Fund has a fund balance of \$4,307,350 of which \$3,851,235 is unassigned. The Capital Improvement fund has a fund balance of \$1,507,591 of which all assigned for capital projects.

General Fund Budgetary Highlights – The City did amend the budget during the year, increasing original appropriations by \$402,149. Revenues were less than budget by \$276,234 mostly due to the intergovernmental revenues and the timing of recognizing them. More detailed information can be found in the General Fund Statement of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual as listed in the table of contents.

Debt balances increased due to draws on state revolving fund loans. Notes payable and financed purchases also decreased due to regularly scheduled principal payments.

Additional information on the City's long-term debt can be found in Note 7 of the notes to the basic financial statements.

Economic Factors and Next Year's Budget

For the 2024-25 budget year, the City Council adopted a millage rate of 7.9000. It remained the same as 2024, which was equal to the lowest millage rate since 2006. Property value's increased 5% in the 2022-23 year, 9.2% in the 2023-24 year, and 2024-2025 decreased 1.1%. In addition, DeSoto County and Arcadia both, continue to experience a positive growth pattern with new construction throughout. This increase in existing property values along with new construction enabled the millage rate to remain the same in the 2023-24 year.

At present, that growth pattern appears to be continuing. The entire State of Florida is in a pattern of population growth resulting from significant migration from other states. The pattern for the state's growth has seen the greater majority settling in coastal areas. But that pattern is shifting as the coastal areas approach build out and new construction shifts more inland. Smaller less developed areas near the coast are being affected first. If that growth continues, Arcadia/DeSoto County can expect some of that to arrive here. As long as the demand for new homes continues, growth in overall values and revenues should follow.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the City's financial condition and to demonstrate the City's accountability. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Arcadia, Finance Director, and P.O. RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES
IN FUND BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED SEPTEMBER 30, 2024

Amounts reported for governmental activities in the statement of activities are different because:

Net Change in Fund Balances - Total Governmental Funds	\$ 957,903
--	------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount by which capital outlays exceeded depreciation/amortization in the current period.

Capital Outlay	2,657,682
Less: Current Year Depreciation/Amortization	(849,375)
Total	1,808,307

Long-term liabilities are reported in the statement of net position but not in the governmental funds because they are not due and payable in the current period. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Principal Repayments - Leases	6,347
Principal Repayments- SBITAs	9,106
Total	15,453

Some revenues reported in the statement of activities will not be collected for several months after the fiscal year and, therefore, are not reported as revenue in the governmental funds.

Change in Unavailable Revenue - Restitution	(2,885)
---	---------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Change in Net Pension Liability/Asset and Related Pension Amounts	(113,145)
Change in Total OPEB Liability and Related OPEB Amounts	(85,151)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The financial statements of the City of Arcadia, Florida (City) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

The Financial Reporting Entity

The City began as a small ranching and farming settlement on the bluff overlooking the Peace River in 1883. The City was first chartered in 1886 and became the County Seat of DeSoto County in 1888. It was granted its present Charter in 1901, established under the 1901 Laws of Florida, Chapter 5080. It is located in Central Florida near the intersection of U.S. Highway 17 and State Road 70, and is comprised of approximately 4.1 square miles with a population of approximately 7,600. The City operates under an elected Council (five members rotate as Mayor), administrative/legislative form of government, and provides the following services as authorized by its charter: police, waste collection, parks and recreation, certain social services, and general administration. In addition, the City owns and operates a water system, sewer system, and airport.

As required by the GASB, the accompanying financial statements include all funds for which the City is financially accountable. The City has also considered all other potential organizations for which the nature and significance of their relationships with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. The GASB has set forth criteria to be considered in determining financial accountability. A primary government is considered financially accountable if it appoints a voting majority of an organization's governing body and is able to impose its will on that organization. The primary government may also be financially accountable if an organization is fiscally dependent on the primary government and a financial benefit or burden relationship exists, regardless of the authority of the organization's governing board. Based on these criteria, there are no other organizations or agencies which should be included in these basic financial statements.

The Arcadia Housing Authority (AHA) was created by Chapter 421 of the Florida Statutes, 1941, as amended by Chapter 21697 and 21699, Laws of 1943, and approved May 11, 1943. The City and the AHA entered into a cooperative agreement on March 19, 1962. The City Council has the responsibility of ratifying the appointment of AHA Board members. The City's accountability for this organization does not extend beyond this role.

Basis of Presentation

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the City. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

**CITY OF ARCADIA, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2024**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Presentation (Continued)

Government-Wide and Fund Financial Statements (Continued)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period, with the exception of grant revenues, which are considered available when eligible expenditures have been incurred even though they may be collected beyond 60 days. Property taxes, gas taxes, utility taxes, franchise fees, intergovernmental revenues, and interest associated with the current fiscal period are all considered to be susceptible to accrual.

Permits and assessments, fines and forfeitures, charges for services (other than utility), and miscellaneous revenues are generally recorded as revenue when received in cash, because they are generally not measurable until actually received.

Property taxes are recognized as revenue at the time an enforceable legal claim is established. This is determined to occur November 1 of each year. The assessment roll is validated July 1, and the millage resolution is approved by September 30. The City's property taxes become a lien on October 1, and the tax is levied by DeSoto County each November 1, for real and personal property located in the City. Property taxes are due before April 1, with the maximum discount available if payment is made on or before November 30. If payments remain delinquent, a tax certificate for the full amount of any unpaid taxes is sold no later than June 1. Under this arrangement, there are no property tax receivables at the end of the fiscal year on September 30.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The government reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Capital Improvement Fund* is a capital projects fund used to account for the receipt, custody, and expenditure of funds designated for capital improvements.

The government reports the following major proprietary funds:

The *Water and Sewer Fund* accounts for the activities associated with providing water and sewer services to residents of the City. The City operates a sewage treatment plant, sewage pumping stations and collection systems, and a water treatment and distribution system.

The *Solid Waste Fund* accounts for the activities associated with providing solid waste services to residents of the City.

The *Airport Fund* accounts for operations and facilities at the City owned airport. This fund includes rental properties and fuel service.

Additionally, the government reports the following fiduciary fund type:

The *Pension Trust Funds* account for the activities of the City's retirement plans which accumulate resources for pension benefit payments made to qualified pension employees.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and other charges between the government's enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

CITY OF ARCADIA, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2024

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Amounts reported as *program revenues* include: (1) charges to customers or applicants for goods, services or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Assets, Liabilities, and Net Position or Fund Balance

Deposits and Investments

The City maintains a pooled cash account that is available for use by all funds, except the pension trust funds. Each fund's portion of this pool is presented as "cash and cash equivalents" in the financial statements. Interest income earned as a result of pooling is distributed monthly to the appropriate funds based on average daily balances.

In addition, non-pooled cash and cash equivalents are separately held by several of the City's funds. The government's non-pooled cash and cash equivalents are considered to be cash on hand; demand deposits; interest-bearing time deposits; and deposits in the Local Government Surplus Funds Trust Fund investment pool (also known as Florida PRIME) administered by the Florida State Board of Administration and the Florida SAFE Investment Pool administered by PMA Financial Network, both of which are valued at amortized cost, which approximates fair value. Investments are held only in the pension trust funds and consist of debt and equity securities, immediate participation guarantee contracts (IPG), and short-term investments. Securities traded on a national or international exchange are valued at the last reported sales quote at current exchange rates. Investments that do not have an established market are reported at estimated fair value based on market indicators regarded as measures of equity or fixed income performance results. The estimated fair value of IPG investments are based on valuations provided by external investment managers. Management believes the carrying amount of these financial instruments is a reasonable estimate of fair value. Because the IPG investments are not readily marketable, their estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a ready market for such investments existed.

Florida Statutes require state and local governmental units to deposit monies with financial institutions classified as "Qualified Public Depositories," a multiple financial institution pool whereby groups of securities pledged by the various financial institutions provide common collateral for their deposits of public funds.

Assets, Liabilities, and Net Position or Fund Balance (Continued)

Deposits and Investments (Continued)

This pool is provided as additional insurance to the federal depository insurance and allows for additional assessments against the member institutions providing full insurance for public deposits. The City had deposits only with qualifying institutions as of September 30, 2024.

Receivables and Payables

Outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Unbilled service receivables represent the estimated amount of accounts receivable for services that have not yet been billed. The amount represents a timing difference between the end of the financial statement cycle (month-end) and the billing cycle (varying dates each billing period). All receivables are shown net of an allowance for doubtful accounts. The accounts receivable in excess of 90 days for water, sewer, garbage, and utility tax revenues comprises the allowance for doubtful accounts.

Restricted Assets

Restricted assets include customer deposits being held for water and sewer utility accounts where the balance is maintained in a separate bank account.

Capital Assets

Capital assets, which include land, construction in process, building, improvements other than buildings, infrastructure, equipment, right-to-use lease assets, and SBITA assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset life are not capitalized. Donated capital assets are recorded at estimated acquisition value at the date of donation.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, and Net Position or Fund Balance (Continued)

Capital Assets (Continued)

Property, plant, and equipment of the primary government are depreciated/amortized using the straight-line method over the following estimated useful lives:

Buildings	15 to 40 Years
Water and Sewer Systems	15 to 40 Years
Public Domain Infrastructure	15 to 40 Years
Improvements	10 to 15 Years
Equipment	5 to 10 Years
Right-to-Use Leased Assets	Lease Term
Right-to-Use SBITA Assets	Subscription Term

Right-to-use lease assets are initially measured at the present value of payments expected to be made during the lease term, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset.

Subscription-based information technology arrangements (SBITA) assets are initially measured as the sum of the present value of payments expected to be made during the subscription term, payments associated with the SBITA contract made to the SBITA vendor at the commencement of the subscription term, when applicable, and capitalizable implementation costs, less any SBITA vendor incentives received from the SBITA vendor at the commencement of the SBITA term. SBITA assets are amortized in a systematic and rational manner over the shorter of the subscription term or the useful life of the underlying IT assets.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. This separate statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then.

CITY OF ARCADIA, FLORIDA
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2024

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, and Net Position or Fund Balance (Continued)

Deferred Outflows/Inflows of Resources (Continued)

The City has deferred inflows and deferred outflows related to the recording of changes in its net pension liability/asset. Certain changes in the net pension liability/asset are recognized as pension expense over time instead of all being recognized in the year of occurrence. Experience gains or losses result from periodic studies by the City's actuary, which adjust the net pension liability/asset for actual experience for certain trend information that was previously assumed, for example the assumed dates of retirement of plan members. These experience gains or losses are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining service life of plan members. Changes in actuarial assumptions which adjust the net pension liability/asset are also recorded as deferred outflows of resources or deferred inflows of resources and are amortized into pension expense over the expected remaining lives of plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five-year period.

Additionally, any contributions made by the City to the pension plan before year-end but subsequent to the measurement date of the City's net pension liability/asset are reported as deferred outflows of resources.

Likewise, any contributions made by the City to the OPEB plan before year-end but subsequent to the measurement date of the City's total OPEB liability are reported as deferred outflows of resources.

The City also has items which arise only under a modified accrual basis of accounting that qualify for reporting as deferred inflows of resources in the governmental funds balance sheet. The governmental funds report unavailable revenues for revenue collected after the period of availability. The amounts are deferred and recognized as an inflow of resources in the period in which the amounts become available.

Finally, the statement of net position and the proprietary funds report a deferred inflow of resources related to leases.

Compensated Absences

Accumulated unpaid vacation time and sick time amounts, including the related direct and incremental salary related payments, are accrued in the enterprise fund, and appear as increases in salary expenses. In governmental funds, these costs are recognized when payments are made to employees or when the costs mature as a result of employee resignation or retirement. All vacation and sick pay is accrued when earned in the government-wide financial statements.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities and business-type activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued, and premiums are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures when incurred.

Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position."

Fund Balance – Generally, fund balance represents the difference between current assets, current liabilities, and deferred inflows of resources. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

Nonspendable – Fund balances are reported as nonspendable when amounts cannot be spent because they are either: (a) not in spendable form (i.e., items that are not expected to be converted to cash such as prepaid items and advances to other funds), or (b) legally or contractually required to be maintained intact.

Restricted – Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Committed – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council through the adoption of a resolution or ordinance. Only the City Council may modify or rescind the commitment. These self-imposed limitations must be set in place prior to the end of the fiscal year.

Assigned – Fund balances are reported as assigned when they are to be used for specific purposes as established by City Management, that are neither considered restricted or committed.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, and Net Position or Fund Balance (Continued)

Fund Equity (Continued)

Unassigned – Fund balances reported as unassigned are the residual amount of balances that do not meet any of the above criteria. The City reports positive unassigned fund balance only in the General Fund. Negative unassigned fund balance may be reported in other governmental funds.

Net Position – Net position represents the difference between assets and liabilities. The net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. The net investment in capital assets excludes unspent debt proceeds. Net position is reported as restricted when there are limitations imposed on use either through enabling legislation or through external restrictions imposed by creditors, grantors, laws, or regulations of other governments. All net position not reported as net investment in capital assets or restricted net position, is reported as unrestricted net position.

Flow Assumptions – When both restricted and unrestricted amounts of fund balance/net position are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America as applied to governmental units requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from the estimates.

NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information

Annual budgets are adopted for the General Fund, other major governmental funds, and enterprise funds on the modified accrual basis. All budgets presented are adopted on a basis consistent with accounting principles generally accepted in the United States of America (GAAP), except that capital outlays, rather than depreciation expense, and the reduction of principal related to debt are treated as an expense in the year budgeted for the enterprise funds. Budgets are not prepared for the pension trust funds.

No later than two months prior to the end of the fiscal year, the City Administrator submits to the City Council a proposed operating budget for the fiscal year commencing October 1. The operating budget includes proposed expenditures and the means of financing them by fund. The Council holds public hearings to obtain taxpayer comments and a final budget must be prepared and adopted by October 1, through the passage of a resolution.

The appropriated budget is prepared by fund, function, and department. The Finance Director or City Administrator has the authority to approve interdepartmental transfers up to \$15,000. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level for the General Fund, and the fund level for all other funds. The City Council retains the right to amend the budget as necessary throughout the course of the year.

Budget amounts in the accompanying financial statements are as originally adopted, or as amended by the appropriate authority.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

All deposit accounts of the City are placed in banks that qualify as a public depository, as required by law (Florida Security for Public Deposits Act, Chapter 280, Florida Statutes). Chapter 280 of the Florida Statutes provides that qualified public depositories must maintain eligible collateral having a market value equal to 25% of the average daily balance for each month of all public deposits in excess of any applicable deposit insurance held by the depository during the 12 months immediately preceding the date of any computation of the balance. As such, the depository is not required to hold collateral in the City's name, nor specify which collateral is held for the City's benefit.

The Public Deposit Security Trust Fund, as created under the laws of the state of Florida, would be required to pay the City for any deposits not covered by depository insurance or collateral pledged by the depository as previously described. Florida Statutes and the City's investment policy authorize the City to use interest bearing time deposit, savings accounts, and money market accounts in qualified public depositories. All deposits are entirely insured.

Investments in Local Government Investment Pools

The City invests funds throughout the year with Florida PRIME, an investment pool administered by the State Board of Administration (SBA), under the regulatory oversight of the state of Florida. Investments in Florida PRIME are made pursuant to Chapter 125.31, Florida Statutes. The investments are not categorized because they are not evidenced by securities that exist in physical or book entry form. Throughout the year and as of September 30, 2024, Florida PRIME contained certain floating and adjustable-rate securities which were indexed based on the prime rate and/or one- and three-month LIBOR rates. These investments represented 27.90% of the Florida PRIME's portfolio at September 30, 2024.

NOTE 3 DEPOSITS AND INVESTMENTS (CONTINUED)

Investments in Local Government Investment Pools (Continued)

Florida PRIME meets all of the necessary criteria to elect to measure all of the investments in Florida PRIME at amortized cost, which approximates fair value.

The weighted average days to maturity (WAM) of Florida PRIME as of September 30, 2024 was 39 days. Next interest rate reset dates for floating securities are used in the calculation of the WAM. The weighted average life (WAL) of the Florida PRIME at September 30, 2024 was 74 days. Investments in Florida PRIME must carry an "AAAm" rating from Standard and Poor's. On September 30, 2024, Standard and Poor's Ratings Services assigned the Florida PRIME an "AAAm" principal stability funding rating.

With regard to redemption gates, Chapter 218.409(8)(a), Florida Statutes, states that "The principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from the moneys in the trust fund. However, the Executive Director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the Board can invest moneys entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the Trustees, the Joint Legislative Auditing Committee, and the Investment Advisory Council. The Trustees shall convene an emergency meeting as soon as practicable from the time the Executive Director has instituted such measures and review the necessity of those measures. If the Trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the moratorium may be extended by the Executive Director until the Trustees are able to meet to review the necessity for the moratorium. If the Trustees agree with such measures, the Trustees shall vote to continue the measures for up to an additional 15 days. The Trustees must convene and vote to continue any such measures before the expiration of the time limit set, but in no case may the time limit set by the Trustees exceed 15 days."

With regard to liquidity fees, Florida Statute 218.409(4) provides authority for the SBA to impose penalties for early withdrawal, subject to disclosure in the enrollment materials of the amount and purpose of such fees. At present, no such disclosure has been made.

As of September 30, 2024, there were no redemption fees, maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100% of their account value.

The City's investment pool also includes the Florida Surplus Asset Fund Trust (Florida SAFE Investment Pool) is a common law trust organized in 2007 under the laws of the state of Florida. The trust is administered by Prudent Man Advisors, Inc. and an elected five-member Board of Trustees that oversees all actions and decides on general policies. The trust includes a liquid money market-like investment called the "FL SAFE Fund" and one or more Term Series portfolios that have a fixed duration. Participants in the trust may invest in the Fund and any Term Series portfolios and in a value-added program called the "Fixed Income Investment Program," through which the participants may purchase investments for their own portfolio. The Fund is accounted as a Stable Net Position Value investment pool.

As of September 30, 2024, FL SAFE investment pool weighted average maturity in days was 53 days. Florida SAFE meets all of the necessary criteria to elect to measure all of the investments in Florida SAFE at amortized cost, which approximates fair value.

As of September 30, 2024, there were no redemption fees, maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100% of their account value.

Fair Value

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Debt and equity securities classified as Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Securities classified as Level 2 of the fair value hierarchy are valued using quoted prices for similar assets in active markets.

The City had the following fair value measurements as of September 30, 2024:

Real Estate Fund – The ARA Core Property Fund is a diversified open-end commingled fund invested in core real estate properties nationwide providing investors income durability and the potential for long-term appreciation. The American Core Realty Fund invests primarily in core, institutional quality industrial, residential, office, retail, and other properties located throughout the U.S. and is diversified by product type, geographic region, and economic exposure in order to mitigate investment risk.

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits investments of current operating funds to have maturities of no longer than 24 months. Investments of the City's fiduciary funds (pension plans) shall have a term appropriate to the need to fund future retiree benefits and in accordance with each plan's governing board's investment policy. As of September 30, 2024, the City had the following investments in debt securities and related maturities:

Credit Risk

Credit risk is the risk that an insurer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The City's investment policy minimizes credit risk by limiting the maximum percentage that may be invested in any one entity or instrument at any one time.

The City follows the guidelines of Florida Statute 218.415, which allows certain types of investments. The City's investment policy allows investment in government-sponsored agencies such as investment pools, tax-exempt municipal bonds, direct obligations, and bonds guaranteed by the U.S. government, with a minimum AA rating by Standard and Poor's.

Concentration of Credit Risk

Assets are to be diversified to control the risk of loss resulting from concentration of assets in a specific maturity, issue, instruments, deals, or bank through which the investments are bought and sold.

No investments in any one issuer exceeds 5% of the total investments.

Foreign Currency Risk

The City is not exposed to any foreign currency risk.

NOTE 8 INSURANCE COVERAGE

The City is exposed to various risks of loss related to torts; theft of damage to and destruction of assets; errors and omissions; injuries to employees, and natural disasters. The City is a member of Preferred Governmental Insurance Trust (PGIT), a governmental insurance carrier. PGIT administers insurance activities related to property, general liability, public official's, employment practices, and workers' compensation. PGIT meets the GASB Statement No. 10 guidelines for governmental entity pools and provides audited financial statements annually. There were no significant changes in coverage retention or limits during the fiscal year. The General Fund handles property claims for the City and absorbs the loss for any amount below the deductible amounts.

The City has not had any significant reduction in insurance coverage and the amounts of insurance settlements have not exceeded insurance coverage for any of the last three years.

NOTE 9 INTERFUND RECEIVABLES AND PAYABLES, AND TRANSFERS

The composition of interfund balances at September 30, 2024 is as follows:

Receivable Funds	General	Water and Sewer	Solid Waste	Airport	Total
General Fund	\$ -	\$ 667,882	\$ 88,129	\$ 546,354	\$ 1,302,365

The outstanding balances between funds result mainly from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur; transactions are recorded in the accounting system, and payments between funds are made.

Transfers between funds are primarily to move unrestricted revenues collected in funds to finance various programs accounted for in other funds in accordance with budgetary authorizations. For the fiscal year ended September 30, 2024, there were no transfers.

NOTE 10 COMMITMENTS AND CONTINGENCIES

Grants

Amounts received or receivable for grants are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

Lawsuits

The government is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the government's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the government. During the year ended September 30, 2014, the City was awarded restitution in the amount of \$145,000 related to the theft of City funds. The amount receivable as of September 30, 2024 was \$126,143. The City is confident that these funds will be recovered and has recorded a receivable for the full amount owed.

NOTE 11 EMPLOYEE RETIREMENT SYSTEMS

The City maintains two single employer defined benefit public employee retirement systems. One is for police officers and former firefighters, and one is for all other employees of the City. Assets are held separately and may be used only for the payment of benefits to the members of the respective plans.

The Employees' Retirement Plan and Police Officers' and Firefighters' Retirement System financial statements are reported as pension trust funds in the fiduciary fund financial statements. These statements are prepared using the accrual basis of accounting. Employer contributions are recognized as revenues when due and when the employer has made a formal commitment to provide the contributions. State contributions for the Police Officers' and Firefighters' Retirement System are recognized in the period payment is made from the state. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Employees' Retirement Plan

Plan Description

The Employees' Retirement Plan for the City of Arcadia (the Plan) is a single-employer contributory defined benefit plan administered by the City covering all municipal employees except for police officers and firefighters. The Plan does not issue a stand-alone financial report but is included in the pension trust funds of the City's financial statements.

All employees of the City are eligible to participate in the Plan subject to the following requirements:

- Agrees in writing to make member contributions;
- Employed by the City on a full-time basis and is not a police officer or firefighter;
- Completed 60 days of continuous service;
- Attained age 19;
- First day of the month (1/1 prior to 9/20/2011) coinciding with or next following the date the requirements are met.

Employees' Retirement Plan (Continued)

Plan Description (Continued)

Since the Plan is in the form of a life annuity, there is no post-retirement cost of living increases. In addition, the Plan provides a pre-retirement death benefit for those who attain 50 years of age and 15 years of service. These benefit provisions and all other requirements are established by and may be amended by state statute and City ordinances.

Funding Policy

City employees are required to contribute 5% of their basic earnings excluding bonuses, overtime, and commissions. By City resolution, the City is required to contribute actuarially determined amounts which, together with member contributions, are sufficient to fund the System.

Net Pension Liability/Asset of the City

The measurement date for the City's net pension liability/asset is September 30, 2023. The total pension liability used to calculate the net pension liability/asset was determined as of that date. The components of the net pension liability/asset of the City at September 30, 2024 were as follows:

Thereafter	10,667
Total	<u>\$ 234,829</u>

The required schedule of changes in the City's net pension liability/asset and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets are increasing or decreasing over time relative to the total pension liability.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation as of January 1, 2024, with update procedures performed by the actuary to roll forward to the total pension liability measured as of September 30, 2024, using the following actuarial assumptions applied to all periods included in the measurement:

Inflation	2.44%
Salary Increases	4.50
Investment Rate of Return	6.00

The long-term expected rate of return on pension plan investments was determined using a modified building block method because being able to identify historical return premiums of asset classes in the context of varying market environments provides a reasonable basis to estimate the performance of asset classes going forward. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2024 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. Equity - Large Cap	20.00 %	5.67 %
U.S. Equity - Small/Mid Cap	15.00	6.89
Non-U.S. Equity - Developed	15.00	6.48
U.S. Corporate Bonds - Core	10.00	2.54
U.S. Treasuries (Aetna Guaranteed Inv. Acct.)	40.00	0.98
Total	<u>100.00 %</u>	

The Employees' Retirement Plan did not hold investments in any one organization that represents 5% or more of the fiduciary net position.

For the year ended September 30, 2024, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 13.43%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for changing amount actually invested.

Discount Rate: The discount rate used to measure the total pension liability for the Employees' Retirement Plan was 6.00%, which was no change from the discount rate used for the prior measurement.

The projection of cash flows used to determine the discount rate assumes that City contributions will be made according to their established funding policy to contribute the actuarially determined contribution. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Police Officers' and Firefighters' Retirement System Plan

Plan Description

The Police Officers' and Firefighters' Retirement System of the City of Arcadia (the Plan) is a single-employer contributory defined benefit plan administered by the City covering all police officers and former firefighters of the City. The System does not issue a stand-alone financial report but is included in the pension trust funds of the City's financial statements.

All full-time police officers and former paid firefighters are eligible to participate in the Plan. Effective June 1, 2006, the City and County consolidated fire suppression and emergency services, which resulted in the County maintaining these operations. All City firefighters became employees of the County and were given the option to remain in the City's pension plan or be refunded their employee contributions. Several firefighters opted out of the Plan at that time. As of September 30, 2015, there were no remaining former paid firefighters contributing to the Plan.

Benefits

These benefit provisions are established by state statute and City ordinances. The State of Florida, Division of Retirement reviews and accepts or rejects the actuarial valuation reports.

Retirement:

Normal (age 55 or 20 years of credited service) — 3.65% of average final compensation times the number of years of credited service;

Early (age 45 and 6 years of credited service) — Accrued benefits, reduced 3% per year for each year prior to age 55.

Disability:

Service incurred covered from date of employment — Benefit accrued to date of disability but not less than 42% of average final compensation, payable for life (with 120 payments guaranteed) or until recovery (as determined by the board);

Nonservice incurred with 10 years of credited service — Benefit accrued to date of disability but not less than 42% of average final compensation, payable for life (with 120 payments guaranteed) or until recovery (as determined by the board).

Death:

Not Vested – Refund of members' contributions;

Vested – Accrued benefit paid to beneficiary for ten (10) years;

Post-retirement – According to option selected, if any.

Deferred Retirement Option Plan (DROP):

Any member who is eligible for normal retirement under the Plan may elect to defer receipt of such service retirement pension by participating in the DROP, while continuing their employment with the City for a period not to exceed 60 months. The amount of the benefit under the DROP is the same as the participant would have received under the Plan had he or she terminated his or her employment and elected to receive monthly benefit payments. Under the DROP, amounts representing the participant's monthly benefits are maintained within the Plan, earning a 6.5% annual rate of return or actual net rate of return earned by the Plan at the member's election. Amounts in the DROP are then made available to the participant (various payment options are available) at the end of the DROP period. The DROP balance as September 30, 2024 is \$488,652.

Funding Policy

The Plan's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. The Plan requires each participant to contribute 5% of earnings.

Additional funding is provided by the state of Florida on behalf of the City via a 1.85% tax on fire insurance premiums (firefighters), and a .85% tax on casualty insurance premiums (police officers). Any remaining amount necessary for payment of normal cost and amortization of accrued past service liability over a 30-year period is paid by the City. The required City and state contributions to the Plan for the year ended September 30, 2024 was 30.96% of payroll. Contribution requirements for the Plan are established and may be amended by state law and city ordinance. The on-behalf contributions provided by the state of Florida for fiscal year ended September 30, 2024 were \$140,941.

If an employee separates service from the City before achieving six years of credited service, the employee will receive 100% of their contributions. After achieving six years of service, an employee accrues benefits to be payable at member's election, on his otherwise early or normal retirement date, or may receive a refund of member contributions if requested.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation as of October 1, 2022, with update procedures performed by the actuary to roll forward to the total pension liability measured as of September 30, 2023, using the following actuarial assumptions applied to all periods included in the measurement:

Inflation	2.50%
Salary Increases	Service Based
Investment Rate of Return	6.50

NOTE 11 EMPLOYEE RETIREMENT SYSTEMS (CONTINUED)

Net Pension Liability of the City (Continued)

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2023 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	45.00 %	7.50 %
International Equity	15.00	8.50
Domestic Bonds	30.00	2.50
Real Estate	10.00	4.50
Total	100.00 %	

The Plan did not hold investments in any one organization that representant 5% or more of the fiduciary net position.

For the year ended September 30, 2024, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 8.10%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for changing amount actually invested.

Discount Rate: The discount rate used to measure the total pension liability for the Plan was 6.50%, which was no change from the rate used in the prior measurement period.

The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Plan Description

The City is obligated to make available to qualified retired employees the option to maintain coverage with the group health, life, and dental insurance plans. The City of Arcadia Plan (the Plan) is a single employer defined benefit OPEB plan. The Plan is currently being funded on a pay-as-you-go basis. No trust fund has been established for the Plan, and there are no assets accumulated in trust for payment of benefits. The Plan does not issue a publicly available report.

Benefits Provided

The City provides health insurance benefits and health stipends (if applicable) to its eligible retired employees through a single-employer plan administered by the City. Eligible former employees who retire from the City and eligible dependents may continue to participate in the City's fully insured benefit plan for medical and prescription drug coverage. If hired prior to September 12, 2006, the City pays 95% of the cost on behalf of the retiree only. If hired on or after September 12, 2006, the retiree is required to pay 100% of the premium cost. Upon obtaining eligibility for Medicare, the City will discontinue the premium subsidy, and retirees will have to discontinue the coverage under the City Plan. Retired employees hired prior to September 12, 2006 are eligible to receive a lifetime stipend of \$225 per month upon attaining eligibility for Medicare. No form of direct subsidy will be provided to employee hired on or after September 12, 2006.

Employees Covered by Benefit Terms

At September 30, 2024, the following employees were covered by the benefit terms:

Retirees and Beneficiaries	24
Active Plan Members	<u>66</u>
Total	<u><u>90</u></u>

Total OPEB Liability

The City's Total OPEB liability was determined by an actuarial valuation as of September 30, 2023, using the alternative measurement method, and a measurement date of September 30, 2023, with results applicable to the fiscal year ended September 30, 2024. There were less than 100 employees being provided OPEB benefits as of the beginning of the measurement date. Actuarial Assumptions

The total OPEB liability in the September 30, 2023 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.25%
Salary Increases	5.0%
Healthcare Cost Trend Rates	6.25% for FY beginning 2025, and then gradually decreasing to an ultimate trend rate of 4.00%.

The actuarial cost method used was the Entry Age Normal method.

Mortality rates were based on the tables used in the July 1, 2023 actuarial valuation of the Florida Retirement System for non-K-12 Instructional Regular Class members. These rates were taken from adjusted PUB-2010 mortality tables published by the Society of Actuaries with generational mortality improvements using Scale MP-2018. Adjustments to referenced tables are based on the results of a statewide experience study covering the period 2013 through 2018.

The discount rate used to measure the total OPEB liability was 4.63%, based on the daily rate of Fidelity's "20-Year Municipal GO AA Index" closest to but not later than the measurement date.

Since the most recent GASB 75 valuation, the following change has been made:

- The discount rate was changed from 4.40% as of the previous measurement date to 4.63% as of September 30, 2024.

NOTE TO REQUIRED SUPPLEMENTARY INFORMATION

The budget was prepared on the modified accrual basis of accounting. Expenditures were controlled at the department level. All annual appropriations lapse at year-end.

A budget was not prepared or adopted for the disaster assistance activities, reported under Public Safety and Capital Outlay, which are a sub-fund within the General Fund. As such, for General Fund budgetary compliance purposes, those disaster assistance activities are not included.

NOTES:

Valuation Date January 1, 2024

Actuarially determined contribution is calculated on a plan year (calendar year) basis. The numbers displayed represent a blend of the actuarially determined contributions for the current and prior plan years. The blend is 75% of the current plan year (nine months) and 25% of the prior plan year (three months).

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method:	Entry Age Normal
Amortization Method:	Level Percentage of Payroll Closed, with Amortization Bases Created According to Funding Policy
Remaining Amortization Period:	0 years
Asset Valuation Method:	Book Value
Salary Increases:	4.50%
Investment Rate of Return:	6.00%
Retirement Age:	Normal Retirement Age, Age 65
Inflation:	2.47% per Year
Mortality:	PubG-2010(B) Generational Table, Amounts Weighted, with Projections by Scale MP-2018

SCHEDULE OF CONTRIBUTIONS —
POLICE OFFICERS' AND FIREFIGHTERS' RETIREMENT SYSTEM (CONTINUED)
LAST TEN FISCAL YEARS**

Notes to Schedule:

Changes of benefit terms:

For measurement date 09/30/2022, a reduction in the Member Contribution Rate from 7.60% to 5.00%. Effective October 1, 2022.

For measurement date 09/30/2021, each member of the system shall be required to make regular contributions to the fund in the amount of 7.6% of his salary. Previously, 9.6% contributions were required.

Changes of assumptions:

For measurement date 09/30/2021, the investment return assumption was lowered from 6.75% to 6.50% per year compounded annually, net of investment related expenses.

For measurement date 09/30/2020, as mandated by Chapter 2015-157, Laws of Florida, the assumed rates of mortality were changed to the rates used in the July 1, 2019 actuarial valuation for special risk lives, with appropriate risk and collar adjustments made based on plan demographics.

Additionally, the following assumption changes were made as a result of the experience study dated July 15, 2020:

- The investment return assumption was lowered to 6.75%.
- The salary increase assumption was changed to 20.00% for those with less than two years of service, 5.00% for those with 2-4 years of service, and 4.50% for those with five or more years of service.
- The normal retirement rate assumption was changed to 100% upon attaining age 55, 33% each year upon attaining 20 years of service, and 100% upon attaining 23 years of service. In addition, the early retirement rate assumption was removed.
- The termination rate assumption was changed to 20% for those with less than six years of service and 10% for those with six or more years of service.

For measurement date 09/30/2019, amounts reported as changes of assumptions resulted from lowering the investment rate of return from 7.60% to 7.50%.

For measurement date 9/30/2018, amounts reported as changes of assumptions resulted from lowering the investment rate of return from 7.70% to 7.60%.

CITY OF ARCADIA, FLORIDA
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
AND STATE FINANCIAL ASSISTANCE
YEAR ENDED SEPTEMBER 30, 2024

NOTE 1 BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards and State Financial Assistance (Schedule) includes the federal award and state financial assistance activity of City of Arcadia, Florida (City) under programs of the federal government and state of Florida for the year ended September 30, 2024. The information in this Schedule is presented in accordance with the requirements of 2 CFR Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)* and Chapter 69I-5, Rules of the Florida Department of Financial Services. Because the Schedule presents only a selected portion of the operations of the City, it is not intended to, and does not, present the financial position, changes in net position, or cash flows of the City.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting for awards and financial assistance recorded in governmental funds and the accrual basis of accounting for awards and financial assistance recorded in the proprietary funds, which are described in Note 1 to the City's basic financial statements. Such expenditures are recognized following, as applicable, either the cost principles the Uniform Guidance and Chapter 69I-5, Rules of the Florida Department of Financial Services, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Any negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

The City has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE 3 LOANS OUTSTANDING

The City has the following loan balances outstanding at September 30, 2024.

Reimbursements are provided in the form of cost-shared grants. Hurricane Irma (FEMA-4337-DR) made landfall in Arcadia on September 10, 2017. All the \$52,668 reported on the Schedule for grant ZOOOI was incurred in fiscal years 2017 through 2018. Hurricane Ian (FEMA4673-DR) made landfall in Arcadia on September 28, 2022. All the \$2,437,587 reported on the Schedule for grant Z2967 was incurred in fiscal year 2023.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Honorable Mayor and
Members of the City Council
City of Arcadia, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Arcadia, Florida (City), as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated June 4, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified.

Honorable Mayor and
Members of the City Council
City of Arcadia, Florida

We identified a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2024-001 we consider to be material weakness.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City of Arcadia's Response to Finding

Government Auditing Standards requires the auditor to perform limited procedures on the City's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND STATE PROJECT AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND CHAPTER 10.550, RULES OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

Honorable Mayor and
Members of the City Council
City of Arcadia, Florida

Report on Compliance for Each Major Federal Program and State Project

Opinion on Each Major Federal Program and State Project

We have audited the City of Arcadia, Florida's (City), compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* and the requirements identified as subject to audit in the Florida Department of Financial Services' *State Projects Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs and state projects for the year ended September 30, 2024. The City's major federal programs and state projects are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs and state projects for the year ended September 30, 2024.

Basis for Opinion on Each Major Federal Program and State Project

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.550, Rules of the Auditor General for Local Governmental Entity Audits. Our responsibilities under those standards, the Uniform Guidance, and Chapter 10.550 are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program and state project. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance+

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the City's federal programs and state projects.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and Chapter 10.550 will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program and state project as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and Chapter 10.550, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and Chapter 10.550, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Honorable Mayor and
Members of the City Council
City of Arcadia, Florida

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or state project on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or state project will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program or state project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and Chapter 10.550. Accordingly, this report is not suitable for any other purpose.

Section II – Financial Statement Findings

2024-001 – Schedule of Expenditures of Federal Awards and State Financial Assistance

Type of Finding:

- Material Weakness in Internal Control Over Financial Reporting

Condition: Our audit procedures identified errors of \$1,658,274 in the Schedule of Expenditures of Federal Awards and State Financial Assistance (Schedule).

Criteria or Specific Requirement: Section 200.508 Part B, 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) requires an auditee to "prepare appropriate financial statements, including the Schedule of Expenditures of Federal Awards." Chapter 69I-5.003, Rules of the Florida Department of Financial Services, contains a similar requirement. The Schedule, while not part of the basic financial statements, is audited in relation to the basic financial statements, in accordance with the requirements of the Uniform Guidance and Chapter 69I-5.

Effect: The errors resulted in the City underreporting expenditures on the Schedule provided for audit in the amount of \$1,658,274. The change in expenditures required auditors to update the major program planning documentation and include additional documentation over the completeness of the Schedule of Federal Awards and State Financial Assistance (Schedule).

Cause: The Schedule of Expenditures of Federal Awards and State Financial Assistance (Schedule) data is accumulated based on disaggregated data. The City does not have a centralized grant management system.

Repeat Finding: No

Recommendation: We recommend establishing improved tracking procedures for all grants received by the City.

Views of Responsible Officials and Planned Corrective Action: This finding was specifically related to the listing of grants on the Grant Schedule, and did not reflect any misstatements to the financial statements. All grants were recorded appropriately in the financial statements. The two grants not included on the schedule were ARPA and FEMA related. These are both grants that can have a significant difference between when the payments and expenses occur. They were not excluded intentionally, but a misunderstanding on how they are reported for the single audit review. We acknowledge the need for an improved tracking procedure for all grants. We are already in the process of implementing the Project Grant & Contract Management module to go into use October 2025. We have also improved our internal controls over grant tracking to ensure all grants received by the City are included in the Grant Schedule.

MANAGEMENT LETTER

Honorable Mayor and
Members of the City Council
City of Arcadia, Florida

Report on the Financial Statements

We have audited the financial statements of the City of Arcadia, Florida (City), as of and for the fiscal year ended September 30, 2024, and have issued our report thereon dated June 4, 2025.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.550, Rules of the Florida Auditor General.

Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditors' Report on Compliance for Each Major Federal Program and State Project and Report on Internal Control over Compliance; Schedule of Findings and Questioned Costs; and Independent Accountants' Report on an examination conducted in accordance with AICPA Professional Standards, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated June 4, 2025, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. Corrective actions were taken to address findings and recommendations made in the preceding financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. See Note 1 to the financial statements.

Financial Condition and Management

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Section 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the City. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by the same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Property Assessed Clean Energy (PACE) Programs

As required by Section 10.554(1)(i)6.a., Rules of the Auditor General, a statement as to whether a PACE program authorized pursuant to Section 163.081 or Section 163.082, Florida Statutes, operated in the City's geographical boundaries. A PACE program did not operate within the City's geographical boundaries during the fiscal year under audit.

Special District Component Units

Section 10.554(1)(i)5.c., Rules of the Auditor General, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or fraud, waste, or abuse, that has occurred, or is likely to have occurred, that has an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Honorable Mayor and
Members of the City Council
City of Arcadia, Florida

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the City Council, and applicable management, and is not intended to be, and should not be, used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT

Honorable Mayor and
Members of the City Council
and the Florida Auditor General
City of Arcadia, Florida

We have examined the City of Arcadia, Florida's (City) compliance with Section 218.415, Florida Statutes, regarding the investment of public funds, during the year ended September 30, 2024. Management of the City is responsible for the City's compliance with the specified requirements. Our responsibility is to express an opinion on the City's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City, complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City, complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the City's compliance with specified requirements.

In our opinion, the City complied, in all material respects, with Section 218.415, Florida Statutes, regarding the investment of public funds, during the year ended September 30, 2024.

This report is intended solely for the information and use of the City and the Auditor General, state of Florida, and is not intended to be, and should not be, used by anyone other than these specified parties.
