Annual Comprehensive Financial Report for the Fiscal Year Ended September 30, 2024

Snooky Park is dedicated to the young Lady Lake native Atticus "Snooky" Blanton who was lost on the USS Arizona in the attack on Pearl Harbor in 1941.

www.LadyLakeFL.gov

Snooky Park

Address: 120 W. Lady Lake Blvd.

A natural oasis in the heart of historic Lady Lake, Snooky Park boasts a 2,000-foot walking trail surrounded by a canopy of cedar, live oaks, water oaks and palm trees. It features amenities such as picnic shelters, water fountains and restrooms.

-Ribbon cutting celebration held June 29, 2023

-Cassidy and her dog Odin enjoying a walk around the park

- Snooky's great-nephew, Rob Gaulden, came to Town from Maryland alongside his girlfriend and her mother, to tour the beautiful new park and stroll its peaceful walking trail.

Letter of Transmittal

March 3, 2025

Honorable Mayor, Commissioners, and to the Citizens of the Town of Lady Lake, Florida

The Annual Comprehensive Financial Report of the Town of Lady Lake, Florida, (hereinafter referred to as “the Town”), for the fiscal year ended September 30, 2024, pursuant to Article III, Section 3.01 (f) of the Town Charter; *Florida Statutes* Chapters 11.45 and 218.32, and Chapter 10.550 Rules of the Auditor General of the State of Florida is hereby presented to its citizens. The financial statements were prepared in accordance with U.S. Generally Accepted Accounting Principles and audited in accordance with auditing standards generally accepted in the United States by an independent and licensed firm of Certified Public Accountants. We published the Annual Comprehensive Financial Report to provide the Town Commission, Town staff, our citizens, our leaders, and other interested parties with detailed information concerning the financial condition and activities of the Town.

Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the Town. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the Town. All disclosures necessary to enable the reader to gain an understanding of the Town’s financial activities have been included.

Town management and administration are responsible for establishing and maintaining internal controls designed to ensure that the assets of the Town are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements. The internal controls are designed to provide reasonable assurance, not absolute assurance, that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of controls should not exceed the derived benefits; (2) the valuation of costs and benefits requires estimates and judgments from management.

We believe the Town’s internal accounting control adequately safeguards assets and provide reasonable assurance that this financial report is complete and reliable in all material respects.

Carr, Riggs & Ingram L.L.C., a firm of licensed certified public accountants, have audited the Town’s financial statements in accordance with Generally Accepted Auditing Standards. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Town for the fiscal year ended September 30, 2024, are free of material misstatement. The independent audit involved examining on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Town’s financial statements for the fiscal year ended September 30, 2024, are fairly presented in conformity with Generally Accepted Accounting Principles. The independent auditor’s report is presented as the first component of the financial section of this report.

**Honorable Mayor, Commissioners,
and Citizens of the Town of
Lady Lake, Florida**

Federal and State Awards. As a recipient of Federal and State financial assistance, the Town also is responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to these programs. Their internal controls are subject to periodic evaluation by management.

Generally Accepted Accounting Principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis. The letter of transmittal is designed to complement Management's Discussion and Analysis and should be read in conjunction with it. The Town of Lady Lake's Management's Discussion and Analysis can be found immediately following the report of the independent auditor.

This report and other fiscal operating budgets may be accessed via the Town's website at www.ladylake.org.

THE REPORTING ENTITY AND ITS ORGANIZATION

The Town of Lady Lake is in north Lake County, Florida, approximately fifty miles northwest of Orlando on U.S. Highway 27/441. It currently occupies 9.56 square miles and serves a population of 16,224. The Town was incorporated in 1925 and has operated under a Commission/Manager form of government since 1987. The Town Commission consists of five elected officials who are elected from their respective wards on a non-partisan basis and are responsible for enacting ordinances and resolutions that govern the Town. The five commissioners are elected to stagger two-year terms. The commissioners from the even-numbered wards are elected in the even-numbered years and the commissioners from the odd-numbered wards are elected in the odd-numbered years. Each year the Commission elects one of its members to serve as Mayor. The mayor presides over commission meetings and public ceremonies. The Commission appoints the Town Manager and the Town Attorney. As chief executive officer, the Town Manager is charged with the enforcement of all ordinances and resolutions passed by the Commission and appointment of heads of the various departments.

The Town of Lady Lake is a political subdivision of the State of Florida. As such, it is governed by and derives its operating authority from the constitution and laws of the State of Florida. The Town of Lady Lake is empowered to levy a property tax on both real and personal property (millage rate) located within its boundaries. The Fiscal Year 2024 property tax millage rate of \$3.3962 per \$1,000 of taxable value was again the second lowest municipal levy of the fourteen municipalities located within Lake County. It also is empowered by state statutes to extend its corporate limits by annexation, which occurs periodically when deemed appropriate by the Town Commission.

**Honorable Mayor, Commissioners,
and Citizens of the Town of
Lady Lake, Florida**

The Town can, and in future cases predict we will, provide a wide range of governmental services. These services include a library, police protection, the construction and maintenance of highways, streets, and infrastructure; recreational activities and cultural events; building inspections; code enforcement; growth management and administrative services. In addition to general government services, the Town also provides utility services including water, sewer, reuse, and contracted garbage services. The Town Commission has financial accountability and oversight of the Police Officers' and General Employees' Retirement Systems; therefore, these activities are included in this entity's report. There are no component units nor legally separate entities that could be included as component units of the Town within the financial statements,

The Town is primarily a residential community. Commercial activities are restricted primarily to Town-serving establishments including banks, retail shops, hotels and restaurants for the Town's permanent population and seasonal residents. There is no industrial development within the Town. Stringent zoning and land use regulations have limited development and over the long term, will preserve the Town's high quality residential character.

The annual budget serves as the foundation for the Town's financial planning and control. Department heads are required to submit requests for appropriations to the Town Manager, who uses these requests as the basis for developing a proposed budget. The appropriated budget is prepared by fund, function, department, and line item. The Town Commission is required to hold two public hearings on the millage rate and proposed budget in September with adoption no earlier than September 2nd and no later than September 30th, the close of the Town's fiscal year.

The Town's adopted budget establishes budgetary controls at department level. The objective of these budgetary controls is to ensure compliance with the legal provisions embodied in the annual appropriated budget approved by the Town Commission. Authority to adjust at the various department budgets levels is held by the Town Commission. The legally adopted annual operating budgets consist of; (1) the General Fund; (2) Sales Tax Revenue Fund; and (3) the Utility Fund. Adopted budgets for all governmental fund types are adopted on a basis consistent with Generally Accepted Accounting Principles. The Utility Fund budget is adopted on a basis other than Generally Accepted Accounting Principles. Budgets are not adopted for the pension trust funds. The Town maintains an encumbrance accounting system as one technique of accomplishing budgetary control. These encumbrances lapse at year-end.

FACTORS AFFECTING ECONOMIC CONDITION

The information presented in the financial statements is best understood when it is considered from the broader perspective of the specific environment within which the Town operates.

Local economy. Until 1980, the Town was primarily dependent on the local agricultural economy. Since 1980, however, the Town has expanded rapidly due to the development of "The Villages" retirement community. This is reflected in the Town's population, which has increased from a population of 1,193 in 1980 to an estimated 16,352.

**Honorable Mayor, Commissioners,
and Citizens of the Town of
Lady Lake, Florida**

Lake, Sumter, and Marion Counties are still attracting retirees from all over the world resulting in an increase in commercial and residential growth. Estimated Just Value, which is a low-market price estimate, is still at an all-time high and the real estate and construction industries, which were hard hit many years ago by the economic downturn, are finally past where they were in 2008.

Significant commercial construction that was permitted and still under construction include continued expansion of Water Oak Hilltop aka Sun Communities, Green Key Village, Cierra Oaks Subdivision, Hidden Oaks Subdivision, The Groves, Hammock Oaks, the Reserve at Hammock Oaks, the Highlands at Hammock Oaks, Lady Lake Reserve, Rolling Acres Reserve, Boulevard Oaks, Discount RV Storage, Alexandera Apartments, Teague Plaza and Lighthouse Storage among many other projects.

Lake County's September 2024 unemployment rate was 3.8%. This is higher than last year (2.8%) and is .4% higher than the state average (3.4%) and lower than the United States 4.1% for the same period.

Taxable values for real and personal property in calculating 2024 millage have increased by 72.6% from fiscal year 2008 to 2024 (\$941,854,563 to \$1,625,121,294) when the Town of Lady Lake's property value was at its last peak. This is mainly due to the explosion of new growth in Lady Lake. The Florida electorate approved amendment one on January 29, 2008, and its impact contributed to the limited growth in taxable values. Taxable values for Fiscal FY2024 rose 9.5% from FY2023. The Town Commission elected to keep the millage at 3.3962 per \$1,000 of taxable value for FY2024.

The Town keeps 6 month of general operating fund expenses in reserves for emergencies.

Long-term financial planning. The General Fund's unassigned fund balance on September 30, 2024, is \$7,505,599. This balance represents 47.4% of the FY2024 General Fund final budget of \$15,837,475.

Relevant financial policies. The one-cent sales surtax revenue (Sales Tax Revenue Fund) is authorized through December 31, 2032. This revenue can only be used for projects eligible for funding as specified in the infrastructure surtax referendum. The Town received \$1,996,850 of sales tax revenue in Fiscal Year 2024. This was used to pay for five miles of the Paving Management Plan, and Police Vehicles.

**Honorable Mayor, Commissioners,
and Citizens of the Town of
Lady Lake, Florida**

AWARDS AND ACKNOWLEDGEMENTS

Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Lady Lake for its annual comprehensive financial report for the fiscal year ended September 30, 2023. This was the twenty-ninth consecutive year that the Town of Lady Lake has achieved this prestigious award.

To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

Acknowledgements: The preparation of the Annual Comprehensive Financial Report was made possible by the efficient and dedicated services of the entire staff of the Finance Department. Each member of the department has our genuine appreciation for the contributions made in the preparation of this report. Special appreciation is expressed to the Town's Auditor, Carr, Riggs & Ingram, their professional work and assistance in producing this report.

We also are grateful to the Mayor and Town Commission for their leadership and to the Citizens of Lady Lake for their support in ensuring the financial operations of the Town are conducted in a sound and conservative manner, thus assuring the Town a high level of financial security.

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of the Town Commission
Town of Lady Lake, Florida

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Lady Lake, Florida (hereafter the Town) as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town, as of September 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The enterprise fund budgetary comparison schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the enterprise fund budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 3, 2025, on our consideration of the Town of Lady Lake, Florida's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Lady Lake, Florida's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Lady Lake, Florida's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION
&
ANALYSIS (MD&A)**

Town of Lady Lake, Florida Management Discussion and Analysis As of September 30, 2024

As management of the Town of Lady Lake, Florida, we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town of Lady Lake for the fiscal year ended September 30, 2024. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-5 of this report.

As with other sections of this financial report, the information contained within this MD&A should be considered only a part of a greater whole. The reader of this statement should take time to read and evaluate all sections of this report, including the notes to the financial statements and the other required supplementary information that is provided in addition to this MD&A.

FINANCIAL HIGHLIGHTS

- The assets of the Town exceeded its liabilities at the close of the most recent fiscal year by \$79,581,960 (net position). Net position is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. Of this amount, \$13,753,522 (unrestricted net position) may be used to meet the Town's ongoing obligations to citizens and creditors in accordance with the Town's fund designation and fiscal policies each year.
- The Town's total net position increased from fiscal year 2023 to fiscal year 2024 by \$5,805,657. Total Net Position from business-type activities rose by \$2,433,194 from last year's largely because of net investments in capital assets. This was due to a major expansion of Town wells and the wastewater treatment plant.
- As of the close of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$21,201,437 an increase of \$2,420,344 in comparison with the prior year. This increase is largely due to an increase of \$2,115,664 in our sur-tax revenue fund. Impact fees were used for projects instead of sur-tax revenue in fiscal year 2023-24.
- Of the Town's governmental combined fund balances, 35.4% are unassigned funds (\$7,505,599) and are within the Town's fund designation and fiscal policies. The unassigned fund balance for the General Fund in comparison with the prior year's shows a decrease of \$335,320. The total governmental unassigned combined ending fund balance represents 47.4% of total General Fund expenditure (\$15,734,519).
- The Town's total debt has been paid off since October of 2016.

Town of Lady Lake, Florida
Management Discussion and Analysis (Continued)
As of September 30, 2024

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis are intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statement. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner like a private-sector business.

The statement of net position presents information on all of the Town's assets and liabilities. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both government-wide financial statements distinguish the functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government, public safety, growth management, public works (which includes street maintenance), and culture and recreation. The business-type activities of the Town include a utility fund to account for water, sewer and garbage services.

The government-wide financial statements do not include any component units.

The government-wide financial statements can be found on pages 24-26 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the Town can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Town of Lady Lake, Florida
Management Discussion and Analysis (Continued)
As of September 30, 2024

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and the Sales Tax Revenue Fund, which are major funds.

The Town adopts an annual appropriated budget for all governmental funds. Budgetary comparison schedules have been provided for these funds to demonstrate budgetary compliance.

The governmental fund financial statements can be found on pages 27 through 30 of this report.

Proprietary funds. The Town maintains only one type of proprietary fund. It is an enterprise fund used to report the same functions presented as business-type activities in government-wide financial statements. The Town's enterprise fund accounts for its water, sewer, and garbage utility operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The basic proprietary fund financial statements can be found on pages 31 through 35 of this report.

Fiduciary funds. Fiduciary funds account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The fiduciary funds include pension trust funds for police. Deferred Outflows and Deferred Inflows are pension related and refer to the differences between expected and actual experiences, changes of assumptions, and the net difference between projected and actual earnings on Pension Plan Investments as discussed in Note 1 on page 72.

The basic fiduciary fund financial statements can be found on pages 36 and 37 of this report.

Town of Lady Lake, Florida
Management Discussion and Analysis (Continued)
As of September 30, 2024

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 38 through 67 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town’s progress in funding its obligation to provide pension benefits to its police officers. Required supplementary information can be found on page 68 through 75 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Statement of net position. As noted earlier, net position may serve over time as a useful indicator of a government’s financial position. In the case of the Town, assets exceeded liabilities by \$79,581,960 as of September 30, 2024. The following table reflects the condensed statement of net position for the current fiscal year as compared to the prior fiscal year.

TOWN OF LADY LAKE'S NET POSITION

	Governmental activities		Business-type activities		Total	
	2024	2023	2024	2023	2024	2023
Current and other assets	\$ 22,962,422	\$ 19,745,253	\$ 3,339,565	\$ 2,660,178	\$ 26,301,987	\$ 22,405,431
Capital assets	16,335,528	15,267,493	41,608,935	117,142	57,944,463	15,384,635

Town of Lady Lake, Florida
Management Discussion and Analysis (Continued)
As of September 30, 2024

The largest portion of the Town's Statement of Net Position reflects its net investment in capital assets, (\$56,959,583 or 71.6%) (e.g., land, buildings, utility systems, improvements other than buildings, equipment, and infrastructure) less any related debt used to acquire those assets that is still outstanding. The net position is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Town's Statement of Net Position represents resources that are subject to external restrictions on use. This portion is in the amount of \$8,868,855. The unrestricted net position, \$13,753,522, may be used to meet the town's ongoing obligations to citizens and creditors.

As of September 30, 2024, the Town can report positive balances in all three categories of net position, both for the government, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

There was an increase of \$1,698,183 in the restricted net position reported in connection with the Town's governmental activities. The major contribution was due to an increase in capital improvements with well-being and reclaim projects.

The business-type activities had an increase of \$2,433,194 compared to the prior year and is 53.3% of total net position. Its net investment in capital assets also increased by \$2,224,428 or 5% due to advancement on the well and reclaim treatment expansion of \$6,569,684 but a decrease of investments of \$2,693,076 used for these projects. The business-type activities restricted net position further decreased by \$958,785 due to use of impact fees that were also needed for the well and reclaim expansion which should be completed in 2025.

The following table reflects the condensed statement of activities for the current fiscal year as compared to the prior fiscal year.

Town of Lady Lake, Florida
Management Discussion and Analysis (Continued)
As of September 30, 2024

Governmental activities. Governmental activities increased the Town’s net position by \$3,372,463 due to big progress on Town construction projects and due to the value of a large conveyance valued at \$601,082. Government Activities revenues decreased by \$6,851,558 mainly due to a decrease in Intergovernmental Revenue by \$7,944,000.

A comparison of the Town’s functional program revenues and costs of providing program services to its citizens is useful in identifying the programs, and the extent of which each is dependent on taxes and other non-exchange revenues to subsidize their program operations.

Town of Lady Lake, Florida
Management Discussion and Analysis (Continued)
As of September 30, 2024

Business-type activities. Business-type activities increased the Town’s net position by \$2,433,194. The increase is due primarily to the near completion of the well/reclaim water projects. The percentage breakdown of the business-type activities revenues can be seen below.

Town of Lady Lake, Florida
Management Discussion and Analysis (Continued)
As of September 30, 2024

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

Governmental funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, the unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of fiscal year 2024, as previously discussed on page 12, the Town's governmental funds reported combined ending fund balances of \$21,201,437, an increase of \$2,420,344 in comparison with the prior year. Approximately 35% of the combined ending fund balances or \$7,505,599 constitutes the unassigned fund balance that is available for spending at the Town's discretion. The remainder of the fund balance is not available for new spending. The various constraints placed on these funds are as follows: non-spendable \$75,719 for Prepaids and Real Property Held for Resale; Capital projects \$7,139,994; Restricted \$1,649,847 for Education, Police Training & Equipment, Recreation, and other Capital Improvements; Committed \$4,519,627 for certain capital improvements and assigned \$300,205 for Tree Beautification.

As was discussed on page 18 under Governmental Activities, although the millage stayed the same as FY23, new construction and values increased. The funds that are Non-spendable, Restricted, Committed and Assigned increased by \$2,755,664 due to sur-tax fund increasing. Big projects in the enterprise fund used impact fees and reserves instead of sur-tax which will be used in FY25 for a large library remodel.

The General Fund, which is the primary operating fund of the Town, had a fund balance of \$15,837,475 but \$8,331,876 was dedicated for purposes other than general spending. The unassigned fund balance decreased by \$335,320.

Other disclosures on these funds can be found in Note 1 of this report.

The Sales Tax Revenue Fund had a fund balance of \$5,363,962 at the end of the fiscal year, an increase of \$2,115,664 from the prior year. This is due to the town planning on using surtax for a major renovation of the library in FY24-25. Of this amount, 100% is restricted for infrastructure improvements.

Proprietary funds. The Town's proprietary fund statements provide the same type of information found in the government-wide financial statements but in more detail.

As of the end of fiscal year 2024, the Town's Utility Fund reported an unrestricted net position of \$1,686,936, with a decrease of \$2,127,373 from the prior year. The unrestricted net position of the Utility Fund had a decrease due to spending reserves (and impact fees) for two large projects that are nearing completion in FY25.

Management Discussion and Analysis (Continued)
As of September 30, 2024

CAPITAL ASSETS

The Town’s investment in capital assets for its governmental and business-type activities as of September 30, 2024, amounts to \$57,944,463 (net of depreciation and amortization). This investment in capital assets includes land, buildings and utility systems, improvements other than buildings, equipment, infrastructure, and construction in progress. It also includes the Town’s investment in the sewer capacity reservation agreement with the VCCDD. The Town’s net capital assets increased \$12,275,548 from the prior year. The change is primarily due to the investment in capital assets offset by depreciation expense exceeding capital investments. Additional information is addressed in the notes to the financial statements; Note 2 Capital Assets.

Major capital asset events during the current fiscal year included the following:

Government Funds:		
	New Slide Gate at Public Works	\$24,829
	15 Ton Air Conditioning Unit Library	\$46,350
	CCTV System Snooky Park	\$13,093
	Fitness Equipment Snooky Park	\$73,198
	Play Structure for Pyramid Park	\$276,796
	Control Cabinet-IT	\$29,641
	Fuel Management System Town Hall	\$24,010
	PowerEdge Servers	\$41,760

GENERAL FUND BUDGETARY HIGHLIGHTS

The Town did not amend the original appropriations approved by the Town Commission, there were only budget transfers. The budget is approved at Department level and all departments are within their budget.

LONG-TERM LIABILITIES

The balance of \$272,931, represents amounts due to compensated absences.

Additional information on the Town’s long-term liabilities can be found in Note 3 on page 57 of this report.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGETS AND RATES

On January 29, 2008, the Florida electorate approved an amendment to the Florida Constitution related to property taxation. This amendment (referred to as Amendment 1) was placed on the ballot by the Florida Legislature at a special session held in October 2007. With respect to homestead property, Amendment 1 increases the current \$25,000 homestead exemption by another \$25,000 (for property values between \$50,000 - \$75,000), except for school district taxes. Amendment 1 also allows property owners to transfer (make portable) up to \$500,000 of their Save Our Homes benefits to their next homestead when they move. Save Our Homes became effective in 1992 and limits (caps) the annual increase in assessed value for homestead property to three percent (3%) or the percentage change in the Consumer Price Index, whichever is less.

With respect to non-homestead property, Amendment 1 limits (caps) the annual increase in assessed value for non-homestead property (businesses, industrial property, rental property, second homes, etc.) to ten percent (10%), except for school district taxes. The Amendment also provides a \$25,000 exemption for tangible personal property.

Town of Lady Lake, Florida
Management Discussion and Analysis (Continued)
As of September 30, 2024

Amendment 1 became effective on January 1, 2008, (tax year 2008, fiscal year 2009) except for the ten percent (10%) assessment cap on non-homestead property, which became effective on January 1, 2009 (tax year 2009, fiscal year 2010).

The Town's net taxable value of commercial and residential property increased 9.5% in tax year 2024 as compared to tax year 2023. This increase in taxable value (\$140,898,168) was due to an increase in net taxable values of 9.5% (due to an increase in new growth coming onto the tax rolls). With this increase in taxable value, which increased property tax revenue, the Town Commission was able to set the millage rate at 3.3962 mills for fiscal year 2024, which is the same millage rate as fiscal year 2023.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances and for accountability. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Finance Director, 409 Fennell Blvd., Lady Lake, Florida 32159

BASIC FINANCIAL STATEMENTS

The basic financial statements include the government-wide financial statements, fund financial statements and notes to the financial statements. The government-wide financial statements present financial information about the reporting government as a whole. The fund financial statements present financial information about major funds individually and non-major funds in the aggregate, if applicable. The notes to the financial statements present information essential for a fair presentation of the financial statements not displayed on the face of the financial statements.

The notes to the financial statements are an integral part of this statement.

Town of Lady Lake, Florida
Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances –
Governmental Funds to the Statement of Activities

For the year ended September 30, 2024

Net change in fund balances - total governmental funds **\$ 2,420,344**

Amounts reported for governmental activities in the statement of activities
are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay (\$1,699,281) exceeded depreciation (\$1,232,328) capitalized in the current period. **466,953**

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the fund. **601,082**

Some expenses reported in the statement of activities do not provide (or do not require) the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Increase in compensated absences payable **(197,541)**

Pension expense is reported in the Statement of Activities, which differs from pension expenditures as reported in governmental funds.

Change in net pension asset	1,205,448	
Decrease in deferred outflows related to pensions	(1,012,796)	
Increase in deferred inflows related to pensions	(111,027)	81,625

Change in net position of governmental activities **\$ 3,372,463**

The notes to the financial statements are an integral part of this statement.

**NOTES TO THE
FINANCIAL STATEMENTS**

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of Lady Lake, Florida (the Town) was incorporated on May 25, 1925. The Town operates under the Commission/Manager form of government as authorized by its charter and provides the following services: police protection, building inspections and code enforcement, street maintenance, library, parks and recreation, other general governmental activities, and water, sewer, and garbage utilities.

Reporting Entity

The Town is a municipal corporation with a five-member Town Council comprised of the Mayor and four Town commissioners. These financial statements present all fund types of the Town. There are no component units included within these financial statements, and there are no legally separate entities that could be included as component units of the Town.

The Town maintains its accounting in accordance with generally accepted accounting principles (GAAP), as applied to governmental units, which are promulgated by the Governmental Accounting Standards Board (GASB). A summary of the Town's significant accounting policies applied in the preparation of the accompanying financial statements follows.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary fund and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Town of Lady Lake, Florida Notes to Financial Statements

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility and timing requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the Town.

The proprietary and pension funds are reported using the economic resources measurement focus and the accrual basis of accounting.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates governmental funds, while business-type activities incorporate the Town's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. An exception to this general rule is charges between the Town's water and sewer function and various other functions of government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund Financial Statements

The fund financial statements provide information about the Town's funds, including its fiduciary funds. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The Town reports the following major governmental funds:

The *General* fund is the Town's primary operating fund. It accounts for all financial resources except those accounted for in another fund.

The *Sales Tax Revenue* fund accounts for discretionary sales surtax revenues that are legally restricted for expenditure on infrastructure.

The Town reports the following major proprietary funds:

The *Utility* fund accounts for the operating activities related to providing water treatment and distribution services, sewage treatment, and garbage and recycling pick up and disposal activities to all areas within the Town limits.

The Town reports the following fiduciary fund:

The *Police Pension Trust* Fund accounts for funds in the same manner as the proprietary funds, using the same measurement focus and basis of accounting. The trust fund accounts for the accumulation of resources for pension benefit payments to qualified Town police officers.

Town of Lady Lake, Florida Notes to Financial Statements

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Financial Statements (Continued)

During the course of operations, the Town has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements.

Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund and Special Revenue Fund. The Utility Fund is adopted on a basis other than generally accepted accounting principles. Pension trust funds do not have appropriated budgets since other means control the use of these resources (e.g., investments and pension requirements) and sometimes span a period of more than one fiscal year.

The appropriated budget is prepared by fund, function, and department. The Town Manager may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the Town Commission. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level.

Appropriations in all budgeted governmental funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

Town of Lady Lake, Florida Notes to Financial Statements

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity

Cash and Cash Equivalents

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

Investments for the Town are reported at fair value (generally based on quoted market prices) except for the position in the State Treasurer's Investment Pool (Pool). The State Treasurer's Investment Pool meets all of the specified criteria in Section 150: *Investments* to qualify to elect to measure their investments at amortized cost. Accordingly, the fair value of the Town's position in the pool is equal to the value of the pooled shares.

Receivables and Payables

Unbilled receivables – An amount for unbilled revenue is recorded in the Utility funds for services rendered, but not yet billed as of the end of the fiscal year. The receivable is derived from the cycle billings generated subsequent to fiscal year end and prorated for usage in September.

Allowance for doubtful accounts – Accounts receivable have been reported net of the allowance for doubtful accounts. Accounts receivable in excess of 120 days are subject to being considered as uncollectible.

Unearned revenue – Unearned revenue recorded on the governmental fund balance sheet represents amounts received before eligibility requirements are met.

Interfund Activities and Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" within the fund financial statements. Long-term borrowings between funds are classified as "advances to other funds" or "advances from other funds" in the fund financial statements. These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any residual balance outstanding.

Interfund transactions are reflected as services provided, reimbursements, or transfers. Services provided, deemed to be at or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when a fund incurs a cost, charges the appropriate benefitting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or business-type funds are netted as part of the reconciliation to the government-wide presentation.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (Continued)

Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method and consist of expendable supplies and vehicle repair parts. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Restricted Assets

Certain assets of the Town are classified as restricted assets on the statement of net position because their use is limited by law through constitutional provisions or enabling legislation; or by restrictions imposed externally by creditors, grantors, contributors or laws or regulations of other governments. Special restricted asset accounts have been established to account for the sources and uses of these limited use assets as follows:

Customer and developer deposit accounts – Deposited in non-interest bearing accounts and refunded upon termination of service with the Town and satisfaction of all obligations due.

Capital Assets

Capital assets, which include property, plant, and equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$5,000 and an estimated useful life in excess of two years. For infrastructure assets the same estimated minimum useful life is used. Sewer capacity agreement rights purchased from the Village Center Community Development District (VCCDD) are amortized over the respective terms of the agreement for 40 years.

Town of Lady Lake, Florida
Notes to Financial Statements

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (Continued)

Capital Assets (Continued)

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities), the Town chose to include all such items regardless of their acquisition date or amount. The Town was able to estimate the historical cost for the initial reporting of these assets through back trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the Town constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight line method over the following estimated useful lives:

Capital asset classes	Lives
Buildings	25 - 30
Sewer capacity rights	40
Machinery and equipment	5 - 10
Improvements	10 - 30
Infrastructure	30
Water distribution system	10 - 30

Deferred outflows/inflows of resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

The Town has one item that qualifies for reporting as deferred outflows of resources, the *deferred outflows related to pensions*, reported in the government-wide statement of net position. The deferred outflows related to pensions are an aggregate of items related to pensions as calculated in accordance with GASB Codification Section P20: *Pension Activities – Reporting for Benefits Provided through Trusts That Meet Specified Criteria*. The deferred outflows related to pensions will be recognized as either pension expense or a reduction in the net pension liability in future reporting years.

Town of Lady Lake, Florida Notes to Financial Statements

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (Continued)

Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Town has one item that qualifies for reporting as deferred inflows of resources. The *deferred inflows related to pensions* are an aggregate of items related to pensions, reported in the government-wide statement of net position. The deferred inflows related to pensions are an aggregate of items related to pensions as calculated in accordance with GASB Codification Section P20: *Pension Activities – Reporting for Benefits Provided through Trusts That Meet Specified Criteria*. The deferred inflows related to pensions will be recognized as a reduction to pension expense in future reporting years.

Compensated Absences

The Town's policy permits employees to accumulate earned but unused paid time off benefits, which are eligible for payment upon separation from government service. A liability for those amounts is recorded in the governmental funds only if the liability has matured as a result of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable.

Long-term Obligations

In the government-wide financial statements, and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or business-type activities statement of net position.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity (Continued)

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position, and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Categories and Classification of Net Position and Fund Balance

Net position flow assumptions – Sometimes the Town will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

Fund balance flow assumptions – Sometimes the Town will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the Town's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund balance policies – Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The Town itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The provisions of GASB Section 1800, *Classification and Terminology*, specifies the following classifications:

Nonspendable fund balance – Nonspendable fund balances are amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Categories and Classification of Fund Equity (Continued)

Restricted fund balance – Restricted fund balances are restricted when constraints placed on the use of resources are either: (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance – The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Town’s highest level of decision-making authority. Town Commission (Commission) is the highest level of decision-making authority for the Town that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Assigned fund balance – Amounts in the assigned fund balance classification are intended to be used by the Town for specific purposes but do not meet the criteria to be classified as committed. The Commission is the only body that may assign fund balance. The commission may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year’s appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Unassigned fund balance – Unassigned fund balance is the residual classification for the General Fund.

Revenues and Expenditures/Expenses

Program revenues - Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Property taxes - The Town levied a millage rate of \$3.3962 per \$1,000 of assessed value for the fiscal year ended September 30, 2024. Lake County, Florida bills and receives payment for all ad valorem taxes levied by the Town. Payments are then remitted to the Town. All property is assessed according to its fair market value on January 1 of each year, and at that time a lien is placed on the property for the taxes. The tax levy of the Town is established by the Town Commission prior to October 1 of each year.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenues and Expenditures/Expenses (Continued)

All taxes are billed on November 1 of each year or as soon thereafter as the assessment roll is certified and delivered to the Tax Collector. All unpaid taxes become delinquent on April 1 following the year in which they are assessed. Discounts are allowed for early payment at the rate of 4% in the month of November, 3% in the month of December, 2% in the month of January and 1% in the month of February. The taxes paid in March are not discounted.

Proprietary funds operating and nonoperating revenues and expenses – Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Utility Fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for expenditure of monies are recorded as reservations of budget, is employed as an extension of the statutory required budgetary process. At year-end, outstanding encumbrances represent material purchase commitments for goods and services which were ordered, budgeted, and appropriated, but had not been received or completed at date. Although encumbrances lapse at year-end, it is the intention to substantially honor these encumbrances under authority provided in the subsequent year's budget. The Town had no encumbrances outstanding as of September 30, 2024.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make various estimates. Actual results could differ from those estimates. Estimates that are particularly susceptible to significant change in the near term are related to allowance for doubtful accounts, depreciable lives and estimated residual value of capital assets, fair value of investments, actuarial valuations, compensated absences, and pension liability.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued, March 3, 2025, and determined that there were no events that occurred that required disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.

Recently Issued and Implemented Accounting Pronouncements

GASB Statement No. 100, Accounting Changes and Error Corrections. This Statement establishes accounting and financial reporting requirements for (a) accounting changes and (b) the correction of an error in previously issued financial statements (error correction). This Statement defines accounting changes as changes in accounting principles, changes in accounting estimates, and changes to or within the financial reporting entity and describes the transactions or other events that constitute those changes. This Statement prescribes the accounting and financial reporting for (1) each type of accounting change and (2) error corrections. This Statement requires that (a) changes in accounting principles and error corrections be reported retroactively by restating prior periods, (b) changes to or within the financial reporting entity be reported by adjusting beginning balances of the current period, and (c) changes in accounting estimates be reported prospectively by recognizing the change in the current period. This Statement requires disclosure in notes to financial statements of descriptive information about accounting changes and error corrections, such as their nature. In addition, information about the quantitative effects on beginning balances of each accounting change and error correction should be disclosed by reporting unit in a tabular format to reconcile beginning balances as previously reported to beginning balances as restated. Furthermore, this Statement addresses how information that is affected by a change in accounting principle or error correction should be presented in required supplementary information (RSI) and supplementary information (SI). There were no significant impacts of implementing this Statement.

The Government Accounting Standards Board has issued statements that will become effective in future years. These statements are as follows:

GASB Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter.

The Town is currently evaluating the requirements of the above statements and the impact on reporting.

Note 2: DETAILED NOTES ON ALL FUNDS

Deposits and Investments

The cash deposits are held by a bank that qualifies as a public depository under the Florida Security and Public Deposits Act, as required by Chapter 280, Florida Statutes, and are considered fully insured.

Florida Statutes authorize the Town to invest in the Local Government Surplus Funds Trust Fund administered by the State Board of Administration, obligations of the U.S. Treasury, and interest-bearing time deposits and savings accounts held in Federal or State chartered banks and savings and loan associations doing business in Florida provided that such deposits are secured by collateral as may be prescribed. It is the Town's policy to only invest funds in vehicles specifically authorized by Florida Statutes. The Town does not have formal policies relating to credit risk or interest rate risk aside from the policy of only investing in funds administered by the State Board of Administration and obligations of the U.S. government.

The Florida Cooperative Liquid Assets Securities System (FLCLASS) is an independent LGIP designed to meet the cash management and short-term investment needs of Florida governmental entities and was created by an interlocal agreement by and among State public agencies under FS 163 and is administered under FS 218. FLCLASS is governed by a Board of Trustees (the Board). The Board supervises the Trust and its affairs and acts as the liaison between the Participants, the Custodian, the Administrator and all service providers.

The fair values of the LGIP's are equal to the value of the pool shares. The investments in the LGIP's are not insured by FDIC or any other governmental agency. The LGIP's follow GASB Statement No. 79 and value all securities at amortized cost, which approximate fair value, in an attempt to maintain a constant net asset value (NAV) of \$1 per share.

Deposits available within various funds, except pension trust funds, were consolidated for investment purposes. Interest earned was allocated to the various funds based on their average cash and investment balances. The pension trust funds are authorized to invest in corporate bonds and stocks, money markets funds, and mortgages and notes.

Note 2: DETAILED NOTES ON ALL FUNDS (Continued)

Deposits and Investments (Continued)

Custodial credit risk – Custodial credit risk for deposits is the risk in the event of the failure of a depository financial institution a government may not be able to recover deposits. Monies placed on deposit with financial institutions in the form of demand deposits, time deposits or certificate of deposits are defined as public deposits. The financial institutions in which the Town places its deposits are certified as “qualified public depositories,” as required under the Florida Security for Public Deposits Act. For an investment, this is the risk that, in the event of the failure of the counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

As of September 30, 2024, the Town’s pension investments are held in street name in the form of stock, debt securities and U.S. government bonds through a financial brokerage firms segregated out from the assets and investments held by other clients of the investment firm and their own assets.

Interest rate risk – Interest rate risk is the possibility that interest rates will rise and reduce the fair value of an investment. The Town manages its exposure to fair value losses arising from increasing interest rates through its adopted investment policies. The Town limits the effective duration of its investment portfolio through the adoption of nationally recognized risk measure benchmarks.

Credit risk – Section 150: *Investments* of the GASB Codification requires that governments provide information about credit risk associated with their investments by disclosing the credit rating of investments in debt securities as described by nationally recognized statistical rating organizations. The Town has limited its credit risk by limiting investments to the safest types of securities, primarily government investment pools. The Town’s investment objectives are prioritized by safety, liquidity and yield. Time Deposits, including Certificates of Deposit, are collateralized under the State of Florida Qualified Public Depository Program, whereby member institutions are collectively responsible for any individual member’s default.

Concentration risk – Section 150: *Investments* of the GASB Codification requires disclosures of investments in any one issuer that represents five percent or more of total investments, excluding investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds, external investments pools and other pooled investments. The Town’s investment policy does not address concentration risk.

Foreign current risk – The Town’s pension trust funds’ investments are not exposed to foreign currency risk. The Town’s investment policy of the Town’s pension trust funds do not address foreign currency risk.

Town of Lady Lake, Florida Notes to Financial Statements

Note 2: DETAILED NOTES ON ALL FUNDS (Continued)

Deposits and Investments (Continued)

Fair Value – GASB Codification Section 3100: *Fair Value Measurements* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under the codification are described as follows:

Level 1 (L1): Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Town has the ability to access.

Level 2 (L2): Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 (L3): Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investment Type	Credit Quality Rating	Carrying Amount	Less Than 1	Maturities (in years)		
				1 to 5	5 to 10	More Than 10
Primary government

Notes to Financial Statements

Note 2: DETAILED NOTES ON ALL FUNDS (Continued)

Deposits and Investments (Continued)

The following table sets forth by level, within the fair value hierarchy, the Town’s assets at fair value as of September 30, 2024:

	Fair Value	Level 1	Level 2	Level 3
Investments by fair value level				
Fiduciary fund				
Short term investments	\$ 202,720	\$ 202,720	\$ -	\$ -
Corporate Bonds	3,407,173	3,424,177	-	-
Mutual Funds	7,734,796	7,717,790	-	-
Real Estate (Alternative)	954,860	-	954,860	-
Total investments measured by fair value level	\$ 12,299,549	\$ 11,344,687	\$ 954,860	\$ -
Investments measured at the net asset value				
Primary government				
Local government investment pool	2,942,841			
Total investments	\$ 15,242,390			

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2024.

Short term investments – Short term investments classified in Level 1 of the fair value hierarchy are valued using quoted market prices for those investments.

Corporate bonds – Corporate bonds classified in Level 1 of the fair value hierarchy are valued using quoted market prices for those securities.

Mutual funds – Mutual funds classified in Level 1 of the fair value hierarchy are valued using quoted market prices for those investments.

Real estate – Real estate classified in Level 2 of the fair value hierarchy are valued using pricing models maximizing the use of observable inputs for similar assets. This includes basing value on yields currently available on comparable on comparable real estate assets.

Town of Lady Lake, Florida
Notes to Financial Statements

Note 2: DETAILED NOTES ON ALL FUNDS (Continued)

Deposits and Investments (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Town believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value of Investments in Entities that Use Net Asset Value (NAV) – The following table summarizes investments measured at fair value based on NAV per share as of September 30, 2024:

Primary government

	Fair Value	Unfunded Commitments	Redemption Notice Period
FL CLASS	\$ 2,942,841	N/A	1 day

Accounts Receivable

For the Utility Fund, operating revenues are generally recognized on the basis of cycle billings rendered monthly. The amount of services delivered for the period from the last billing date to September 30, 2024 (unbilled receivable), is estimated and accrued at year end. The Town deems all amounts over 120 days uncollectable therefore an allowance for doubtful accounts has been established equivalent to the last four months of billing. If payments are not received from customers, services are shut off and deposits are applied against negative balances.

All account receivables are shown net of allowances for uncollectible accounts for governmental funds. The accounts receivable and allowance for uncollectible accounts at September 30, 2024, were as follows:

	General Fund	Utility Fund	Total
Accounts receivables and unbilled revenues	\$ 355,296	\$ 590,705	\$ 946,001
Less allowance for uncollectibles	-	(76,200)	(76,200)
Total receivables, net	\$ 355,296	\$ 514,505	\$ 869,801

Town of Lady Lake, Florida
Notes to Financial Statements

Note 2: DETAILED NOTES ON ALL FUNDS (Continued)

Accounts Receivable (Continued)

Property taxes are considered fully collected during and prior to the end of the fiscal year. Therefore, no material amounts of property taxes are receivable as of September 30, 2024. There are no other reserves for receivables recorded by the Town as of September 30, 2024.

Capital Assets

The following is a summary of changes in capital assets during the year ended September 30, 2024:

	Beginning Balance	Additions	Deletions	Ending Balance
Governmental activities				
Capital assets not being depreciated				
Land	\$ 2,157,154	\$ -	\$ -	\$ 2,157,154
Construction in progress	623,784	186,880	-	810,664

Total accumulated depreciation	(16,275,468)	(1,232,328)	183,857	(17,323,939)
Total capital assets being depreciated, net	12,486,555	881,155	-	13,367,710
Governmental activities capital assets, net	\$ 15,267,493	\$ 1,068,035	\$ -	\$ 16,335,528

During the fiscal year ended September 30, 2024, the Town received a conveyance of infrastructure from an entity. This conveyance was made to promote the public health, safety and welfare of the community. The asset was recorded at its estimated fair value of \$601,082, based on independent appraisal. The Town did not provide consideration for the conveyance and it has been recognized as a contribution of a nonfinancial asset.

Net Investment In Capital Assets

The elements of this calculation are as follows:

	Governmental Activities	Business-Type Activities	Total
Capital assets (net)	\$ 16,335,528	\$ 41,608,935	\$ 57,944,463
Less construction payable related to capital assets	-	(984,880)	(984,880)
Net investment in capital assets	\$ 16,335,528	\$ 40,624,055	\$ 56,959,583

Note 3: RETIREMENT PLANS

Employee Retirement Plans and Pension Plans

The Town participates in three public employee retirement plans. These plans are a single-employer defined benefit police officer’s pension plan for its sworn police officers (Town of Lady Lake Municipal Police Officers’ Retirement Trust Fund) (the Plan), a defined contribution plan for Management (the Management plan) and a defined contribution plan for all other Town employees (the General Employees plan) meeting certain age and length of service requirements.

Defined Contribution Plans

The Town’s Money Purchase Plan and Trust (the General Employees plan) is an adoption of the Mission Square Retirement Corporation 401-a Governmental Money Purchase Plan and Trust, which is administered by the Mission Square Retirement Corporation. The General Employees plan was established effective October 8, 2001, with an amendment on May 6, 2024 to change normal retirement age to 62. All general employees at least 18 years of age, except police officers and certain senior Town executives, are eligible to participate in the General Employees plan.

The Town’s Money Purchase Plan and Trust (the Management plan) is an adoption of the Mission Square Retirement Corporation 401-a Governmental Money Purchase Plan and Trust, which is administered by the Mission Square Retirement Corporation. The General Employees plan was established effective June 30, 1999, with an amendment on May 6, 2024 to change normal retirement age to 62 and in-service distributions age to 59.5. Only certain senior Town executives are eligible to participate in the Management plan.

Since these plans qualify as defined contribution plans, the assets, liabilities, net position and operations are not recorded within the Town’s financial statements.

Note 3: RETIREMENT PLANS (Continued)

Contributions

General Employees

The Town contributes six (6%) to eight percent (8%) of eligible compensation, depending on length of service. There are no mandatory employee contributions to the plan. Under the provisions of the defined contribution plan, employees are eligible for normal retirement at age 62.

An employee who leaves the employment of the Town is entitled to a portion of the Town’s contributions based on the following vesting schedule:

Years of Service	Percentage of Balance Vested
1	50%
2	75%
3	100%

Management

The Town contributes seven (7%) to eight percent (8%) of eligible compensation, depending on length of service. There are no mandatory employee contributions to the plan. Under the provisions of the defined contribution plan, employees are eligible for normal retirement between age 55-62, depending on hire date. Employees are immediately 100% vested in account balances.

The employer’s contributions for both plans was \$246,689 for the year ended September 30, 2024.

Pension Plan

The Plan is maintained as a pension trust fund and included as part of the Town’s reporting entity. The Plan does not issue a stand-alone financial report.

The Police Pension Board hired a third party for administrative oversight of the Police Officers’ Pension Trust Fund. The Plan was established on August 20, 1990, providing for pension, death and disability benefits. It is subject to Provisions of Chapter 185, Florida Statutes.

The Plan, in accordance with the above Statute, is governed by a five-member pension Board. Two police officers who are elected by a majority of the members of the Plan, two current residents of the Town who are appointed by the Town Commission, and a fifth member who is elected by the other four members constitute the Pension Board. The Town and the Plan participants are obligated to fund all plan costs based upon actuarial valuations. The Town is authorized to establish benefit levels, and the Board of Trustees approves the actuarial assumptions used in determination of contribution levels.

Town of Lady Lake, Florida
Notes to Financial Statements

Note 3: RETIREMENT PLANS (Continued)

Pension Plan (Continued)

Benefits under the Plan are computed on the basis of age, years of service, average final compensation, and credited service. Effective October 1, 2021, the Town approved changes to the Lady Lake Police Officers’ Retirement Trust Fund per Ordinance 2021-20. Retirement age was reduced from age 55 and 10 years to age 55 and 8 years. Non-vested members are entitled to 100% refund of their accumulated contributions, without interest, if they discontinue employment prior to the 8 year vesting period.

The makeup of plan participants as of September 30, 2024 valuation was as follows:

Plan Membership	Police Employees
Inactive plan members or beneficiaries currently receiving benefits	17
Inactive plan members entitled to, but not yet receiving benefits	22
Active plan members	24
Total plan membership	63

The Town has established a defined contribution plan component (the “Share Plan”) as part of the Town’s Police Officer’s Pension Plan, in accordance with section 185.35, Florida Statutes. The Share Plan provides special benefits to police officers who are members of the defined benefit plan. The Share Plan is funded solely and entirely by insurance premium tax monies (as set forth in Chapter 185, Florida Statute) that have been allocated to the Share Plan by mutual consent of the Town and the Plan members’ collective bargaining representative. The balance of the Share Plan is \$152,307 as of September 30, 2024.

Town of Lady Lake, Florida
Notes to Financial Statements

Note 3: RETIREMENT PLANS (Continued)

Pension Plan (Continued)

The plan provides retirement, termination, disability, and death benefits. A summary of those benefits, by plan, is outlined below.

		Police Employees
Normal Retirement	3.3% times credited service earned prior to 10/1/21 plus 3.5% times credited service earned on or after 10/1/21 times average final compensation.	
Early Retirement	Benefit reduced 3% for each year that Early Retirement precedes the otherwise Normal Retirement Date.	
Termination of Employment	Vested employees receive full benefits upon retirement age. Nonvested are entitled to return of accumulated contributions.	
Disability Benefits	Regular retirement to date of disability but not less than 42% of Average Final Compensation. Payable for life with 10 years certain or until recovery.	
Death Benefits	Survivor benefit is 10 years certain amount adjusted for vesting of plan member.	

Plan participants contribute 5% of earnings. The Town contributes the remaining amount necessary for payment of normal costs and amortization of the accrued past service liability as provided for in Part VII of Chapter 112, Florida Statutes. The current required employer contribution rate is 21.58% of annual covered payroll for police officers.

Plan members vest after eight years of service and are eligible for distribution of accrued benefits upon age 55 with eight years of credited service, or after twenty years regardless of age, effective October 1, 2021 through Ordinance 2021-20.

Annual Money-Weighted Rate of Return

For the fiscal year ended September 30, 2024, the annual money-weighted rate of return, net of investment expense on Plan investments was 20.17%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Pension Plan (Continued)

Net Pension Asset (Liability)

The following schedule displays the components of the net pension asset as of the Town's measurement date of September 30, 2024.

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balances as of September 30, 2023	\$ 10,617,245	\$ 10,259,654	\$ 357,591
Changes for the year:			
Service cost	407,563	-	407,563
Interest	752,138	-	752,138
Share Plan Allocation	40,403	-	40,403
Difference between expected and actual experience	183,910	-	183,910
Changes of assumptions	-	-	-
Contributions - Employer	-	308,215	(308,215)
Contributions - State	-	190,806	(190,806)
Contributions - Employee	-	106,281	(106,281)
Net investment income	-	2,054,668	(2,054,668)
Benefit payments, including refunds of employee contributions	(559,938)	(559,938)	-
Administrative expense	-	(70,514)	70,514
Net changes	824,076	2,029,518	(1,205,442)
Balance at September 30, 2024	\$ 11,441,321	\$ 12,289,172	\$ (847,851)

Plan fiduciary net position as a percentage of the total
pension liability at September 30, 2024 107.41%

Note 3: RETIREMENT PLANS (Continued)

Pension Plan (Continued)

Actuarial Assumptions

The pension liability was determined by an actuarial valuation as of October 1, 2023 updated to September 30, 2024 using the following actuarial assumptions:

Actuarial method and assumptions:

Inflation	2.50%
Salary Increases	Service based
Discount Rate	7.00%
Investment Rate of Return	7.00%

Mortality rates were based on the July 1, 2021 FRS valuation report for special risk employees.

Investments

The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of Plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of September 30, 2024 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	45.00%	7.50%
International Equity	15.00%	8.50%
Broad Market Fixed Income	25.00%	2.50%
Global Fixed Income	5.00%	3.50%
Private Real Estate	10.00%	4.50%
Total	100.00%	

Town of Lady Lake, Florida
Notes to Financial Statements

Note 3: RETIREMENT PLANS (Continued)

Pension Plan (Continued)

Discount Rate

The discount rate used to measure the total pension asset was 7%. The projection of cash flows used to determine this discount rate assumed that plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the net pension asset calculated using the discount rate of 7% as well as what it would be if it were calculated using a discount rate that is 1% lower (6%) and 1% higher (8%) than the current rate:

	1 % Decrease (6.0%)	Current Discount Rate (7.0%)	1 % Increase (8.0%)
Net pension liability (asset)	\$ 508,196	\$ (847,851)	\$ (1,974,833)

Pension Expense and Deferred Inflows and Outflows of Resources Related to Pension

For the year ended September 30, 2024, the Town recognized a pension expense of \$308,215. On September 30, 2024, the Town reported deferred outflows of resources and deferred inflows of resources from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between Expected and Actual Experience	\$ 122,606	\$ 19,507
Changes of assumptions	-	101,578
Net difference between Projected and Actual Earnings on Pension Plan investments	-	274,166
Total	\$ 122,606	\$ 395,251

Town of Lady Lake, Florida
Notes to Financial Statements

Note 3: RETIREMENT PLANS (Continued)

Pension Expense and Deferred Inflows and Outflows of Resources Related to Pension (Continued)

Deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended September 30:	
2025	\$ (46,967)
2026	330,564
2027	(288,768)
2028	(267,474)
2029	-
Thereafter	-

Post-Employment Benefits Other than Pensions (OPEB)

The OPEB plan is a single-employer benefit plan administered by the Town. Medical and dental insurance benefits are provided to employees and their eligible dependents through an employee group medical and dental insurance plan. In accordance with Section 112.0801 of the Florida Statutes, because the Town provides a medical plan to active employees and their eligible dependents, the Town is also required to provide retirees with the opportunity to participate in this insurance. Benefit provisions for the insurance are established and may be amended by the Town Commission. The retirees pay the full group premium amount for health insurance with no explicit subsidy from the Town. On September 30, 2024, the Town had one retiree continuing to participate in group medical and two retirees participating in group dental. Based on an actuary assessment, management does not anticipate a significant number of future retirees to request continued coverage, therefore, no material liability is recognized.

Note 4: RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of property and other assets; errors and omissions by employees; and natural disasters, particularly during the hurricane season of June through November. The Town has purchased various types of insurance to protect itself. There have been no changes in insurance coverage during the current or previous fiscal year. The Town does not participate in a risk pool and does not retain any of the risks of loss.

Town of Lady Lake, Florida
Notes to Financial Statements

Note 5: COMMITMENTS AND CONTINGENCIES

During the ordinary course of its operation, the Town is party to various claims, legal actions, and complaints. While the ultimate effect of such litigation cannot be ascertained at this time, in the opinion of counsel for the Town, the liabilities which may arise from such actions would not result in losses which would exceed the liability insurance limits in effect at the time the claim arose or otherwise materially affect the financial condition of the Town or results of activities.

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable fund(s). The amount, if any, of expenditures from current or prior years which may be disallowed by the grantor cannot be determined at this time although the Town expects such amounts not recorded, if any, to be immaterial.

The Town has active construction projects as of September 30, 2024. At year-end, the Town's commitments by project are as follows:

CDBG Skyline Drainage Grant	\$	39,545
Fiber Project		1,654,684
Library Renovation		4,520,789
Springbrook Software Connection		155,041
WRF Plant		838,503
<hr/>		
Total commitments	\$	7,208,562
<hr/>		

The commitments are being financed by governmental and enterprise revenues and from awarded grants.

Budgetary Notes to Required Supplementary Information

Note 1: BUDGETARY INFORMATION

The Town adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- a) Prior to the end of the fiscal year, the department heads and Finance Director prepare a proposed budget for the next succeeding fiscal year and the Town Manager submits it to the Commission. The recommended budget includes proposed expenditures and the sources of receipts to finance them.
- b) Complete copies of the proposed budget are made available for public inspection. Public hearings are conducted to obtain taxpayers' comments.
- c) The budget is enacted through passage of an ordinance and becomes the basis for the millage levied by the council.
- d) The Town Manager is authorized to transfer budgeted amounts between line items within a department; however, any revisions that alter the total expenditures of any department must be approved by the Commission. Expenditures may not exceed legal appropriations at the department level. All appropriations lapse at year end.
- e) Formal budgetary integration is employed as a management control device during the year for the General Fund and all major, special revenue funds (if any).
- f) Budgets are legally adopted on a basis consistent with GAAP except for certain transfers, debt service, and certain intragovernment amounts.
- g) The budgetary comparison schedule shown in the accompanying required supplementary information presents comparisons of the legally adopted budget, as amended, with actual results. The originally adopted budget is presented for purposes of comparison to the final, amended budget.

Miscellaneous	2,500	-	(2,500)
<hr/>			
Total nonoperating revenues	262,500	112,600	(149,900)
<hr/>			
Operating income before contributions and transfers	697,058	1,376,467	679,409
<hr/>			
Transfers out	(464,515)	(464,515)	-
<hr/>			
Change in net position	\$ 232,543	\$ 911,952	\$ 679,409

Note: Depreciation expense of \$1,238,310, impact fees revenue of \$2,409,502, and capital contributions of \$350,050 are not budgeted and, therefore, are not included on this schedule.

STATISTICAL SECTION

STATISTICAL SECTION

This part of the Town of Lady Lake, Florida's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Town's overall financial health.

Table of Contents

A. Financial Trends

These schedules contain trend information to help the reader understand how the Town's financial performance and well-being have changed over time.

Schedule A1 Net Position by Component

Schedule A2 Changes in Net Position – Governmental Funds

Schedule A3 Fund Balances – Governmental Funds

Schedule A4 Changes in Fund Balances – Governmental Funds

B. Revenue Capacity

These schedules contain information to help the reader assess the Town's most significant local own-source revenues - ad valorem property taxes, occupational license taxes, and building permits revenues.

Schedule B1 Tax Revenues by Source Governmental Funds

Schedule B2 Assessed Value and Estimated Actual Value of Taxable Property

Schedule B3 Direct and Overlapping Property Tax Rates

Schedule B4 Principal Property Taxpayers

Schedule B5 Property Tax Levies and Collections

Statistical Section (Continued)

C. Debt Capacity

These schedules present information to help the reader assess the affordability of the Town's current levels of debt outstanding and the Town's ability to issue additional debt in the future, as necessary.

Schedule C1 Ratios of Outstanding Debt by Type

Schedule C2 Pledged Revenue Coverage

D. Demographic and Economic Information Financial Trends

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Town's financial activities take place.

Schedule D1 Demographic Statistics

Schedule D2 Demographic and Economic Statistics

Schedule D3 Principal Employers

E. Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the Town's financial report relates to the services the Town provides and the activities it performs.

Schedule E1 Employees by Function/Program

Schedule E2 Operating Indicators by Function/Program

Schedule E3 Capital Asset Statistics by Function/Program

Additional Notes

Unless otherwise noted, the information in these schedules is derived from the Town's Annual Comprehensive Financial Report (ACFR) for the relevant year.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Mayor and Members of the Town Commission
Town of Lady Lake, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Lady Lake, Florida (the Town), as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements and have issued our report thereon dated March 3, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

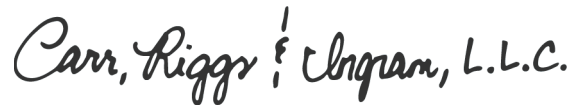

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER REQUIRED BY CHAPTER 10.550, RULES OF THE AUDITOR GENERAL

Honorable Mayor and Members of the Town Commission
Town of Lady Lake, Florida

Report on the Financial Statements

We have audited the financial statements of the Town of Lady Lake, Florida (the Town) as of and for the fiscal year ended September 30, 2024, and have issued our report thereon dated April 15, 2024.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*, and Independent Accountants' Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated September 30, 2024, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The legal authority of the Town of Lady Lake, Florida and its component unit are disclosed in the footnotes.

Financial Condition and Management

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the Town has met one of more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific conditions met. In connection with our audit, we determined that the Town did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the Town's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANT’S REPORT ON COMPLIANCE WITH LOCAL GOVERNMENT INVESTMENT POLICIES

The Honorable Mayor and Members of the Town Commission
Town of Lady Lake, Florida

We have examined the Town of Lady Lake, Florida’s (the Town) compliance with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, during the year ended September 30, 2024. Management of the Town is responsible for the Town’s compliance with the specified requirements. Our responsibility is to express an opinion on the Town’s compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Town complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the Town complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our ethical responsibilities in accordance with relevant ethical requirements relating to the examination engagement.

Our examination does not provide a legal determination on the Town’s compliance with specified requirements.

In our opinion, the Town complied, in all material respects, with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, for the year ended September 30, 2024.

This report is intended solely for the information and use of the Town’s Commission, management and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.
