Sacred Heart Health System, Inc. and Subsidiaries

Notes to Schedule of Expenditures of Federal Awards
and Schedule of State Financial Assistance Projects

Year Ended June 30, 2011

1. Summary of Significant Accounting Policies

The accounting policies and presentation of the schedule of expenditures of federal awards and schedule of state financial assistance projects of Sacred Heart Health System, Inc. and subsidiaries (the Health System) have been designed to conform to accounting principles generally accepted in the United States, including the reporting and compliance requirements of the Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, Section 215.97, *Florida Statutes*, and Chapter 10.650, *Rules of the Auditor General*.

Reporting Entity

OMB Circular A-133 sets forth the audit and reporting requirements for federal financial assistance. Section 215.97, *Florida Statutes*, and Chapter 10.650, *Rules of the Auditor General*, set forth the audit and reporting requirements for state financial assistance. The schedule of expenditures of federal awards and schedule of state financial assistance projects include all federal and state financial assistance expended by the Health System.

Basis of Accounting

The schedule of expenditures of federal awards and schedule of state financial assistance projects have been prepared using the accrual basis of accounting. The accrual basis of accounting recognizes revenues when they are earned and expenditures when the related liability is incurred.

2. Contingencies

Grant monies received and disbursed by the Health System are for specific purposes and are subject to audit by the grantor agencies. Such audits may result in requests for reimbursement due to disallowed expenditures. Based on prior experience, the Health System does not believe that such disallowances, if any, would have a material effect on the financial position of the Health System.

**Report of Independent Certified Public Accountants on Internal Control Over
Financial Reporting and on Compliance and
Other Matters Based on an Audit of Financial Statements
Performed in Accordance With *Government Auditing Standards***

The Board of Directors
Sacred Heart Health System, Inc. and Subsidiaries

We have audited the consolidated financial statements of Sacred Heart Health System, Inc. and subsidiaries (the Health System) as of and for the year ended June 30, 2011, and have issued our report thereon dated August 24, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the Health System's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Health System's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Health System's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Health System's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Audit Committee, Board of Directors, management, federal and state awarding agencies and pass-through entities, the Florida Auditor General, and the state of Florida and is not intended to be, and should not be, used by anyone other than these specified parties.

Ernst + Young LLP

August 24, 2011

Report of Independent Certified Public Accountants on Compliance With Requirements That Could Have a Direct and Material Effect on Each Major Federal Awards Program and State Financial Assistance Project and on Internal Control Over Compliance in Accordance With OMB Circular A-133, Section 215.97, *Florida Statutes*, and Chapter 10.650, *Rules of the Auditor General*, and on Schedule of Expenditures of Federal Awards and Schedule of State Financial Assistance Projects

The Board of Directors
Sacred Heart Health System, Inc. and Subsidiaries

Compliance

We have audited Sacred Heart Health System, Inc. and subsidiaries (the Health System) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, *Compliance Supplement*, and the requirements described in the Executive Office of the Governor's State Projects Compliance Supplement that could have a direct and material effect on each of the Health System's major federal programs and state financial assistance projects for the year ended June 30, 2010. The Health System's major federal programs and state financial assistance projects are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs and state financial assistance projects is the responsibility of the Health System's management. Our responsibility is to express an opinion on the Health System's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; Section 215.97, *Florida Statutes*; and Chapter 10.650, *Rules of the Auditor General*. Those standards, OMB Circular A-133, Section 215.97, *Florida Statutes*, and Chapter 10.650, *Rules of the Auditor General*, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program or state financial assistance project occurred. An audit includes examining, on a test basis, evidence about the Health System's compliance with those requirements and performing such other procedures as we considered

necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Health System's compliance with those requirements.

In our opinion, the Health System complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs and state financial assistance projects for the year ended June 30, 2011.

Internal Control Over Compliance

The management of the Health System is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs and state projects. In planning and performing our audit, we considered the Health System's internal control over compliance with the requirements that could have a direct and material effect on a major federal program or state project to determine auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, Section 215.97, *Florida Statutes*, and Chapter 10.650, *Rules of the Auditor General*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Health System's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or state project on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or state project will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedules of Expenditures of Federal and State Financial Assistance Projects

We have audited the basic consolidated financial statements of the Health System as of and for the year ended June 30, 2010, and have issued our report thereon dated August 24, 2011. Our audit was performed for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The accompanying schedule of expenditures of federal awards and schedule of state financial assistance projects are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, Section 215.97, *Florida Statutes*, and Chapter 10.650, *Rules of the Auditor General*, and are not a required part of the basic consolidated financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic consolidated financial statements taken as a whole.

This report is intended solely for the information and use of the Audit Committee, Board of Directors, management, federal and state awarding agencies and pass-through entities, the Florida Auditor General and the state of Florida and is not intended to be, and should not be, used by anyone other than these specified parties.

CSFA Number(s)	Name of State Financial Assistance Project
CSFA 64.009	Area Health Education Center (AHEC) Network

Dollar threshold used to determine Type A federal programs \$ 300,000

Dollar threshold used to determine Type A programs for state financial assistance projects \$ 300,000

Auditee qualified as low-risk auditee for federal purposes? X Yes No

Sacred Heart Health System, Inc. and Subsidiaries

Schedule of Findings and Questioned Costs (continued)

Part II – Financial Statements Findings Section

This section identifies the significant deficiencies, material weaknesses, fraud, illegal acts, violations of provisions of contracts and grant agreements, and abuse related to the consolidated financial statements for which *Government Auditing Standards* require reporting in a Circular A-133, Section 215.97, *Florida Statutes*, and Chapter 10.650, *Rules of the Auditor General* audit.

No matters were reported.

**Part III – Federal Award Programs and State Financial Assistance
Projects Findings and Questioned Costs Section**

This section identifies the audit findings required to be reported by Circular A-133 section .510(a), Section 215.97, *Florida Statutes*, and Chapter 10.650, *Rules of the Auditor General* (for example, significant deficiencies, material weaknesses, and material instances of noncompliance, including questioned costs), as well as any abuse findings involving federal awards that are material to a major program. Where practical, findings should be organized by federal agency or pass-through entity.

No findings were noted.
