Report on the Financial Statements

We have audited the accompanying financial statements of Northwest Florida State College Foundation, Inc. (the "Foundation"), a direct support organization and component unit of the Northwest Florida State College as of and for the years ended June 30, 2019 and 2018, and the related notes to the financial statements, which collectively comprise the Foundation's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Foundation as of June 30, 2019 and 2018, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated February 6, 2020, on our consideration of the Foundation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Foundation's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Foundation's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2019
(Unaudited)

INTRODUCTION

The following discussion and analysis provides an overview of the financial position and activities of the Northwest Florida State College Foundation, Inc. (the "Foundation") for the fiscal year ended June 30, 2019, with comparative information for fiscal years ending 2018 and 2017, and should be read in conjunction with the financial statements and notes thereto. This report includes financial statements presented and prepared with the accounting principles and reporting guidelines established by the Governmental Accounting Standards Board (GASB) as this is the presentation used in the Northwest Florida State College (the "College") Annual Financial Report. Foundation management has prepared the financial statements and related note disclosures along with the discussion and analysis. The responsibility for the completeness and fairness of this information rests with Foundation management.

The Foundation is a Florida not-for-profit corporation formed in 1988 to encourage, solicit, receive and administer gifts and bequests of property and funds to support the College and advance its mission and objectives. The Foundation is a direct support organization of the College.

FINANCIAL HIGHLIGHTS

The Foundation's financial position remained strong at June 30, 2019, with total assets of \$53,634,509 and liabilities of \$107,936, resulting in a net position of \$53,526,573 at June 30, 2019. Net position increased from July 1, 2018 to June 30, 2019, by 4.2%.

The Foundation's investments showed a return (net of fees) of approximately 11.73% from July 1, 2018 to June 30, 2019.

USING THIS ANNUAL REPORT

The financial statements consist of three basic financial statements: (1) the statement of net position; (2) the statement of revenues, expenses and changes in net position; and (3) the statement of cash flows. These financial statements are prepared in accordance with GASB accounting principles and guidelines, which establish standards for external financial reporting for public colleges, universities and other governmental entities. The Foundation is required to prepare its annual report in accordance with GASB due to its formation under Florida Statute 1004.70 and the component unit relationship with the College. These statements present a long-term view of the Foundation's finances.

THE STATEMENT OF NET POSITION

The statement of net position presents the financial position of the Foundation at the end of the fiscal year and includes all assets and liabilities of the Foundation. The difference between total assets and total liabilities – net position – is an indicator of the current financial condition of the Foundation. The change in net position is an indicator of whether the overall financial condition has improved or worsened during the year. Assets and liabilities are generally measured using current values. One notable exception is capital assets, which are stated at historical costs less an allowance for depreciation.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2019
(Unaudited)

The following is a graphical presentation of Foundation revenues for fiscal year ended June 30, 2019, as compared to fiscal years ended June 30, 2018 and June 30, 2017:

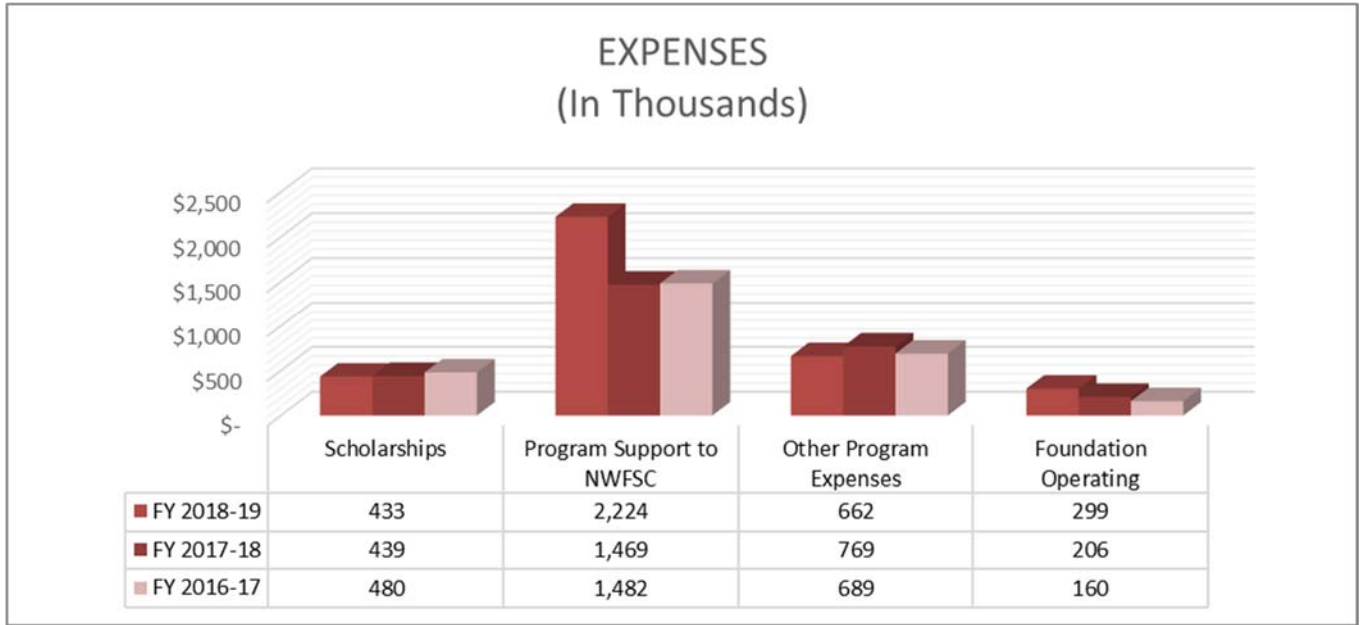

Operating revenue remained fairly consistent from fiscal year 2018 to 2019 increasing by \$18 thousand dollars. Total gifts, contributions, grants and other income increased \$320 thousand. Additions to permanent endowments increased by over \$1.4 million from the prior year, due for the most part to the receipt of a large bequest. Investment income showed a significant decrease of almost \$1.4 million from 2018 to 2019, which is attributed to a leveling off of market returns during the year.

In fiscal year 2019 the Foundation received pledges in the amount of \$523,193 due to the launch of a major gifts campaign. The increases in gifts and additions to permanent endowments reflect the accounting of additional revenue from pledges receivable.

In addition to presenting expenses by natural classification, as shown on the statement of revenues, expenses and changes in net position, it is also informative to review operating expenses by functional activity. A comparative summary of Foundation expenses by functional classification for fiscal years 2019, 2018, and 2017, are shown in the following table:

Overall expenses increased \$735 thousand from 2018 to 2019. In total, program support increased \$755 thousand and scholarship expenses paid to the College remained almost flat, decreasing by only \$6 thousand from fiscal year 2018 to 2019. Both types of expense allocations, program support and scholarships, are funded primarily by endowment earnings in accordance with the Foundation’s spending policy – awards of up to 4%, calculated by using the average of the prior three year-end balances for each endowment when earnings are available.

Other program expenses, not transferred to the College but expended through the Foundation for program initiatives, including those associated with managing the College Courtyard apartment complex, decreased \$107 thousand.

Foundation operating expenses increased \$93 thousand from 2018 to 2019. Major gifts campaign initiatives remain a focus of the Foundation, which saw an increase in consulting expenses with the addition of a fundraising consultant in fiscal year 2019.

THE STATEMENT OF CASH FLOWS

The statement of cash flows provides additional information about the Foundation's financial results by reporting the major sources and uses of cash. Its primary purpose is to provide relevant information about the cash receipts and cash payments of an entity during a period. The statement of cash flows also helps users assess:

- An entity's ability to generate future net cash flows.
- Its ability to meet its obligations as they come due.
- Its need for external financing.

A comparative summary of the statement of cash flows for the Foundation for the fiscal years ended June 30, 2019, June 30, 2018, and June 30, 2017, is shown in the following table:

CASH FLOWS
(In Thousands)

	Foundation		
	June 2019	June 2018	June 2017
Cash Provided (Used) by:			
Operating Activities	\$ (2,813)	\$ (2,053)	\$ (2,011)
Noncapital Financing Activities	2,134	924	739
Investing Activities	533	946	1,223
Net Decrease in Cash and Cash Equivalents	(146)	(183)	(49)
Cash and Cash Equivalents, Beginning of the Year	338	521	570
Cash and Cash Equivalents, End of Year	\$ 192	\$ 338	\$ 521

The Foundation's liquidity remained stable during the reporting year. For the purpose of cash flows, the Foundation considers cash equivalents to include time deposits, certificates of deposit and all highly liquid debt instruments with original maturities of three months or less. The following discussion presents an overview of cash flows:

During the fiscal year ended June 30, 2019, cash and cash equivalents decreased \$146 thousand. The Foundation has adequate funds on hand to pay invoices upon demand and approval.

ECONOMIC FACTORS THAT WILL AFFECT THE FUTURE

The economic position of the Northwest Florida State College Foundation is closely tied to Okaloosa and Walton Counties and the State of Florida.

The Dr. Philip Benjamin Matching Program for Community Colleges was implemented to leverage private donations to community colleges by providing state matching funds. As of June 29, 2011, the Philip Benjamin Matching program has been suspended per Florida Statute 1011.85.

Investment income plays a key role in generating revenues for the Foundation. Also tied to investment earnings is the ability to provide scholarships and program support to Northwest Florida State College through various endowments. Foundation investment accounts remain well-diversified and moderately invested, targeting 55% equity and 30% fixed income, with the remainder in alternative investments and cash.

The Foundation's Board of Directors and management carefully monitor the status of all endowed funds, particularly those underwater funds in which the total fund balance is less than the corpus, or principal. Foundation policy states that endowments with a fair market value below corpus will receive no spending allocation. This deficit can only be overcome through positive investment earnings. From fiscal year 2016 to 2018, the number of underwater funds dropped from 15 to 2. As of June 30, 2019, the Foundation held 301 endowed funds. Of these funds, zero were in an underwater status.

In December 2018, a motion to engage in a major gifts campaign was unanimously passed in a joint meeting of the Foundation Board and College Board of Trustees. The campaign will span two-years with The Armistead Group providing direction and consultant services to support the fundraising effort. The campaign priorities are focused on scholarships, student achievement, and workforce development, as aligned with the College's strategic plan and direction from the College President, Dr. Devin Stephenson. This multi-million dollar campaign effort will ensure the College continues to meet the ever-changing demands of the region, corporate community, and a diverse student population.

NORTHWEST FLORIDA STATE COLLEGE FOUNDATION, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity: The governing body of the Northwest Florida State College Foundation, Inc. (the "Foundation") is a 28 member Board of Directors that constitutes a corporation. The Board of Directors is directly responsible for the day-to-day operations and control of the Foundation within the framework of applicable state law and State Board of Education rules. The Foundation is a component unit and direct support organization of Northwest Florida State College (the "College") as defined in Section 1004.70, *Florida Statutes*. The Foundation is legally separate from the College, but is financially accountable to the College. The Foundation receives, holds, invests, and administers property and makes expenditures to or for the benefit of the College.

Basis of Presentation: The Foundation's accounting policies conform to accounting principles generally accepted in the United States of America applicable to colleges and universities as prescribed by the Governmental Accounting Standards Board (GASB).

Basis of Accounting: The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The Foundation's financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange activities are generally recognized when all applicable eligibility requirements, including time requirements, are met.

The statement of net position is presented in a classified format to distinguish between current and noncurrent assets and liabilities. When both restricted and unrestricted resources are available to fund certain programs, it is the Foundation's policy to first apply the restricted resources to such programs followed by the use of the unrestricted resources.

The Foundation's principal operating activity is College program support and student scholarships. Operating revenues include rental income and expenses and all fiscal transactions related to College support, Foundation management, fund raising, and depreciation of capital assets. Nonoperating revenues include state appropriations, grants, individual gifts, investment income, and capital funding.

Cash and Cash Equivalents: The amount reported as cash and cash equivalents consists of cash on hand and cash in demand accounts. Cash placed in money market accounts with Merrill Lynch are reported as investments. Cash deposits of the Foundation are held by banks qualified as public depositories under Florida Statute, Chapter 280. Therefore all such deposits are covered by the FDIC limit of \$250,000 or were fully collateralized with securities held by the Foundation's financial institution.

**NORTHWEST FLORIDA STATE COLLEGE FOUNDATION, INC.
NOTES TO FINANCIAL STATEMENTS**

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accounts Receivable: The Foundation records accounts receivable at their net realizable value. An allowance for doubtful accounts is established based on specific assessment of all amounts that remain unpaid following normal payment periods. All amounts deemed to be uncollectible are charged against the allowance for doubtful accounts in the period the determination is made. For the years ended June 30, 2019 and 2018, all accounts receivable are considered fully collectible.

Investments: Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of net position. Realized and unrealized gains and losses are included in the statement of revenues, expenses and changes in net position. Investment income includes interest and dividend income and is included in the statement of revenues, expenses and changes in net position separate from gains and losses.

Capital Assets: The Foundation's capital assets consist of land, buildings, furniture, and equipment and are stated at historical cost or estimated fair value if donated or acquired at nominal cost. The Foundation has a capitalization threshold of \$5,000 for capital assets. Depreciation is computed on the straight-line basis over the following estimated useful lives:

Buildings	38 Years
Building improvements and equipment	7 Years

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual amounts could differ from the estimates.

Investments are managed in accordance with an investment policy. The investment policy sets target allocations of investments of 25% to 45% for fixed income, 45% to 65% for equities, 5% to 15% for alternative investments and 2% to 8% for cash and cash equivalents, in order to reduce risk by investing in a diversified portfolio of financial assets, primarily stock funds, bonds or bond funds, and cash equivalents.

NORTHWEST FLORIDA STATE COLLEGE FOUNDATION, INC.
NOTES TO FINANCIAL STATEMENTS

NOTE B. CASH AND INVESTMENTS (CONTINUED)

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The investment policy for the Foundation states at least 50% of the short-term funds shall be invested in instruments having maturities no greater than two years. No more than 25% may be invested in instruments that have maturities greater than two years and less than five years and no more than 25% may be invested in instruments that have maturities greater than five years. The short-term funds are required to be invested in any of the following: obligations of the U.S. Government or agencies, obligations of agencies with implied federal sponsorship and guarantees, certificates of deposit, deposits that are insured by the FDIC, repurchase agreements, money market accounts, or government security mutual funds. The investments meet the Foundation's investment policy restrictions.

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Common stocks should be held in seasoned, quality, well-managed, and highly marketable companies whose prospects appear good for growth of earnings, dividends and appreciation. Fixed income securities should be of the four highest bond ratings or the two highest commercial paper ratings. Corporate bonds held by the Foundation were rated as follows at June 30:

	2019	2018	Rating
Corporate bonds	\$ 4,351,042	\$ 3,812,404	AAA to A-
	3,004,287	2,545,379	BBB+ to BBB -
Total corporate bonds	\$ 7,355,329	\$ 6,357,783	

Concentration of Credit Risk: Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Foundation's investment policy requires that investments are to be diversified to the extent that no more than 4% of the funds may be invested in any one security, no more than 30% in any one industry and the Foundation should not control more than 10% of the debt or stock in any one company. These restrictions do not apply to obligations of the federal government. As of June 30, 2019, the Foundation does not have a concentration of credit risk.

Custodial Credit Risk: Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Foundation will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Foundation does have a policy on custodial credit risk.

Foreign Currency Risk: Foreign currency risk is the risk that the changes in exchange rates will adversely affect the fair value of an investment or a deposit. The Foundation's investment policy permits the hedging of non U.S. dollar investments as long as the methods used to do such do not place the investments in a leveraged position, use investment securities purchased or a margin or result in open-hedge positions.

Fair Value Measurements: The Foundation categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The Foundation has the following recurring fair value measurements as of June 30, 2019:

NOTE E. RELATIONSHIP WITH THE COLLEGE

The Foundation made contributions and payments to the College for the following purposes as of June 30:

	2019	2018
Scholarships and waivers	\$ 433,118	\$ 439,000
Gifts and contributions	2,223,626	1,468,795
	\$ 2,656,744	\$ 1,907,795

Of the amounts above, the Foundation had an outstanding balance payable to the College of \$90,645 and \$53,157 for the years ended June 30, 2019 and 2018, respectively. The Foundation had an outstanding receivable from the College in the amount of \$10,467 and \$16,152 for the years ended June 30, 2019 and 2018, respectively. The above related-party transactions are not necessarily indicative of the terms and amounts that would have been incurred had a comparable transaction been entered into with independent parties.

NOTE F. RESTRICTED NET POSITION

Expendable restricted net position is restricted for scholarships or other similar purposes and totaled \$14,420,396 and \$14,293,879 for the years ended June 30, 2019 and 2018, respectively.

Nonexpendable restricted net position (endowments) is donor-directed contributions restricted in perpetuity for scholarships, program instruction, the Arts Center, and other similar purposes. Nonexpendable restricted net position totaled \$36,934,077 and \$35,369,318 for the years ended June 30, 2019 and 2018, respectively.

The Board of Trustees of the Foundation has interpreted the Florida Uniform Prudent Management of Institutional Funds Act (FUPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment fund, absent donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as nonexpendable restricted net position: (a) the original value of the gift donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

The Foundation has adopted investment and spending policies for endowment assets that attempt to protect the principal of the fund, provide consistent long-term income returns and protect the Foundation against long-term inflation trends. To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

The Foundation limits spending on endowments to a maximum of 4% of the average of the three most recent prior year-end endowment fund balances provided net earnings are available.

NOTE G. RENTAL INCOME

The Foundation rents apartments in a 62 apartment unit complex which is owned by the Foundation. The apartments are rented to either students with athletic scholarships, which are financed by the College, or members of the local community. The historical cost of the apartments of \$5,640,738 net of accumulated depreciation of \$2,149,714 has a carrying value of \$3,491,023. Rentals are commonly under agreements for one year or less. Rental income earned by the Foundation for the year ended June 30, 2019, for the apartment rentals totaled \$582,062, of which \$264,600 was paid to the Foundation by the College for units rented by students with athletic scholarships. For the year ended June 30, 2018, rental income for the apartments totaled \$575,105, of which \$261,900 was paid by the College for units rented by students with athletic scholarships.

The Foundation owns rights to broadband waves which are leased to a telecommunication entity. The initial five year lease agreement became effective October 2, 2006, and has five automatic additional five year renewals, for a maximum of thirty years, unless the telecommunication entity notifies the Foundation in writing at least six months prior to the end of any renewal term that it declines to renew the agreement. The Foundation has not recognized the broadband waves as an asset since there was no cost incurred by the Foundation for its rights. Rental income earned by the Foundation for the years ended June 30, 2019 and 2018, under this rental agreement totaled \$36,000. Minimum future rental income is as follows:

2020	\$	36,000
2021		36,000
2022		42,000
2023		42,000

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

Board of Directors
Northwest Florida State College Foundation, Inc.
Niceville, Florida

We have audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Northwest Florida State College Foundation, Inc. (the "Foundation"), a direct support organization and component unit of the Northwest Florida State College, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Foundation's basic financial statements, and have issued our report thereon dated February 6, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Foundation's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Foundation's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Foundation's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Foundation's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
