Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Florida SouthWestern State College Financing Corporation, a component unit of Florida SouthWestern State College, as of and for the year ended March 31, 2023, and the related notes to the financial statements, which collectively comprise Florida SouthWestern State College Financing Corporation's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Florida SouthWestern State College Financing Corporation as of March 31, 2023, and the changes in financial position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Florida SouthWestern State College Financing Corporation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Florida SouthWestern State College Financing Corporation's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Florida SouthWestern State College Financing Corporation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Florida SouthWestern State College Financing Corporation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 14, 2023, on our consideration of the Florida SouthWestern State College Financing Corporation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Florida SouthWestern State College Financing Corporation's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Florida SouthWestern State College Financing Corporation's internal control over financial reporting and compliance.

Overview of the Financial Statements and Financial Analysis

This section of the Florida SouthWestern State College Financing Corporation (the Financing Corporation) annual financial report presents a discussion and analysis of the financial performance of the Financing Corporation for the year ended March 31, 2023. The emphasis of discussions about these statements will be on current year activities, resulting change, and current known facts. The discussion should be read in conjunction with the basic financial statements and related notes. Responsibility for the completeness and fairness of this information rests with the Financing Corporation's management.

The annual report consists of a series of financial statements, prepared in accordance with Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, as amended. The Financing Corporation is considered a Business-Type Activity under the provisions and reporting model of GASB Statement No. 34.

Financial Highlights

On December 21, 2017, the Financing Corporation issued the Series 2017A, Series 2017B, and Series 2017C Refunding Bank Loans in the par amounts of \$10,000,000, \$10,000,000, and \$2,879,067, respectively. The final maturity of the refunding notes is October 1, 2040, with interest rates of 3%, 2.96%, and 3%, respectively.

On April 3, 2008, the Florida SouthWestern State College's (the College) District Board of Trustees approved Policy 6Hx6:1.07 which allows the transfer of "legally available auxiliary enterprise funds" to the Financing Corporation in order to operate or administer contracts for the College's auxiliary enterprises on behalf of the College. Legally available funds is defined as all funds that are not: a) derived from tuition revenues; b) appropriated for designated purposes; c) pledged to secure obligations of the College, or if pledged, are in excess of amounts necessary to pay such obligations in the current fiscal year; or d) otherwise legally or contractually restricted as to use.

On November 16, 2007, the College entered into an agreement with Clearwire, Inc. to lease the College's excess capacity on its license to operate an Education Broadband Service (EBS). The College holds a license issued by the Federal Communications Commission to operate Educational Broadband Service Stations in areas surrounding its campuses.

Clearwire, Inc. is in the business of operating, aggregating, and/or managing broadband services and hence has agreed to pay royalties to the College for its excess capacity. A total of \$29,888 and \$358,656 was received from Clearwire, Inc. for the years ended March 31, 2023 and 2022. All revenue earned by the College from this agreement has been contributed to the Financing Corporation, as approved by the College's District Board of Trustees. During the fiscal year ended March 31, 2023 the College sold its's rights to the excess broadband capacity and proceeds in the amount of \$6.3 million were also contributed to the Financing Corporation as approved by the College's District Board of Trustees.

The Financing Corporation maintains an agreement with the College to collect lease revenues from the Florida SouthWestern Collegiate High Schools (the Charter Schools) located on the Lee and Charlotte campuses of the College. The Charter Schools are a component unit of the College. The Financing Corporation records the revenue from this lease agreement as nonoperating revenues from auxiliary operations of the College. A total of \$375,000 and \$295,000 was recognized as nonoperating revenues
