Dear Chairman, School Board Members, and Citizens of Monroe County:

We are pleased to submit to you the Comprehensive Annual Financial Report (the "CAFR") of the District School Board of Monroe County (the "District"). State law requires that all school districts publish, after the close of each fiscal year, a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (GAAP), and audited in accordance with governmental auditing standards generally accepted in the United States of America by a license certified public accountant. Responsibility for the accuracy, completeness and fairness of the information presented, including all disclosures, rests with the District's management. This report will provide the stakeholders of the school district with comprehensive financial data in a format enabling them to gain an understanding of the financial affairs and standing of the District.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect District assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The State of Florida Auditor General has independently audited the District's financial statements. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2019, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded that there was a reasonable basis for rendering an unmodified opinion that the District's basic financial statements for the fiscal year ended June 30, 2019, are fairly presented in conformity with GAAP. The State of Florida Auditor General's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, Federally mandated “Single Audit” designed to meet the special needs of Federal grantor agencies. The District is required to undergo an annual Single Audit in conformity with the provisions of the Single Audit Act of 1996 and Title 2 U.S. *Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the basic financial statements, but also on the audited government’s internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of Federal awards. Information related to this Single Audit, including the Schedule of Expenditures of Federal Awards, Schedule of Findings and Questioned costs, Summary Schedule of Prior Audit Findings, and the independent auditor’s reports on internal control over financial reporting and on compliance with applicable requirements, are included in the Single Audit section.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District’s MD&A can be found immediately following the independent auditor’s report.

Profile of the School District

The District and its governing body (School Board) were created pursuant to Section 4, Article IX of the Constitution of the State of Florida. The District is an independent taxing and reporting entity managed, controlled, operated, administered, and supervised by District school officials in accordance with Chapter 1001.30, Florida Statutes. The District consists of five elected officials responsible for the adoption of policies, which govern the operation of public schools in Monroe County. The Superintendent of Schools (Superintendent) is responsible for the administration and management of the schools within the applicable parameters of Florida Statutes, State Board of Education (SBE) rules, and School Board policies. The Superintendent is also specifically delegated the responsibility of maintaining a uniform system of records and accounts in the District by SBE Rule 6A-1.001, Florida Administrative Code.

The geographic boundaries of the District are those of Monroe County. The County is comprised of a string of subtropical islands that stretch more than one hundred miles into the Atlantic Ocean covering approximately 983 square miles of land mass. These islands are connected in a chain-like fashion to the mainland by a series of 42 bridges. The County seat, Key West, is approximately 150 miles southwest of Miami and 90 miles north of Cuba. The County operates under a constitution adopted in 1823 and has a current estimated population of 75,997 persons. Within its borders are five municipalities: Islamorada, Key Colony Beach, Key West, Layton, and Marathon.

This report contains the audited financial statements of all operations over which the School Board is financially accountable. Various component units were evaluated to determine whether they should be considered as part of the District’s reporting entity. Accordingly, included are all funds of the District, the Monroe School Board Leasing Corporation, and six charter schools. The Monroe School Board Leasing Corporation was formed by the School Board to be lessor in connection with financing the acquisition and/or construction of certain educational facilities. The charter schools are public schools operating under performance contracts with the District.

During the 2018-19 fiscal year, the District operated 10 schools, including 3 elementary schools, 4 K-8 schools, a combination middle high school, 2 high schools; sponsored 6 charter schools that are component units of the District and reported serving approximately 8,154 unweighted full-time equivalent students. For the 2019-20 fiscal year, no significant increase of unweighted full-time equivalent students is expected.

The District receives the majority of its operating funds through a State funding formula that is intended to equalize funding received from the State and local property tax between districts within the State. Charter schools operating through a contract with the District are provided with their proportionate share of these funds, based on the number of reported full-time equivalent students enrolled at the charter school.

The District serves students from infants through adults. Students in the District represent a diverse community of learners, including a variety of ethnic and cultural backgrounds. The student population breaks down as follows: 45.7 percent White Non-Hispanic, 38.7 percent Hispanic, 10.5 percent Black Non-Hispanic and 5 percent are Asian/ Pacific Islander or other. In addition to the various educational programs offered to K-12 students, the District offers pre-kindergarten services including: programs for babies of teen parents who are progressing toward achieving high school diplomas; pre-kindergarten programs for three and four year old disabled students; programs for eligible low income and at risk students; and voluntary pre-kindergarten services for four year-old students.

The District also offers programs for adults to learn the necessary skills in order to enter the workforce or increase opportunities for advancement in current positions. Also, students from foreign countries have the opportunity to learn communication skills through the District's English For Speakers of Other Languages (ESOL) programs, and all citizens can take fee supported courses to increase personal development in various subjects.

The annual budget serves as the foundation for the District's financial planning and control. The District establishes and maintains budgetary controls, the objective of which is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the District. Activities of all governmental fund types are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the object level for all funds.

Budgetary information is integrated into the accounting system; and, to facilitate budgetary control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at year-end and encumbrances outstanding are honored in the subsequent year's appropriations.

In order to provide budgetary control for salaries the District utilizes a centralized position control system. On an annual basis, the District adopts a District staffing plan that establishes teaching positions based generally on student populations served. Additionally, support and administrative positions are created based on established criteria.

Economic Condition and Outlook

The population of Monroe County increased from approximately 73,209 in 2010 to a population of 75,997 in 2019 or 3.8 percent. The Florida Price Level Index prepared for the Florida Department of Education (FDOE)

now ranks Monroe County 1st out of 67 counties in the State. In the 2017-18 fiscal year, Monroe County ranked 2nd in the State.

Due to the County's unique geography, tourism is significant part of the local economy making the Florida Keys and Key West a major domestic and international tourist destination. Five of the ten top taxpayers are in the hospitality industry. Sales tax collections increased approximately 12.3 percent in the 2018-19 fiscal year showing recovery from the effects of Hurricane Irma. The assessed tax roll increased by \$1.3 billion or 4.8 percent. Unemployment in Monroe County is 2.4 percent which is less than the State average of 3.4 percent.

The District recognizes that continued enhancement of the local economy is of mutual benefit to both the District and Monroe County and an excellent system of public education is a significant factor in attracting new business and industry to the county. The District is one of the county's largest employers, employing approximately 1,500 full and part-time employees, mostly teachers.

Major Initiatives

Charting the Course to Excellence – The School Board approved the adoption of a Strategic Plan, Charting the Course of Excellence, in October of 2013. During the 2018-19 fiscal year, District personnel updated the strategic plan naming it "Continuing the Course to Excellence". As a part of the renewal of the strategic plan, District staff updated the goals for the next three years. While the mission and vision statements remained the same, four "Wildly Important Goals" were identified by the School Board and focus areas established as necessary to carry out the mission. Metrics were established to measure the attainment of those goals.

"Wildly Important Goals" were identified as necessary steps to achieve our mission and vision. These goals were identified as: 1) Student Success; 2) The Whole Child; 3) Human Capital Advantage; and 4) Safety/Security. From these goals, several focus areas were established and action plans created to achieve those goal areas. Progress as it relates to these "Wildly Important Goals" will be measured on an annual basis.

Accomplishments – One of the ways to judge a school district is to compare the results of its students on national and statewide testing and the accomplishments of its staff. The District believes that its students and staff have performed well based on various tests and accomplishments. All sixteen Monroe County Schools (including charters) received an "A" or "B". Of those sixteen, ten schools earned an "A". The District received district-wide accreditation from AdvancEd Accreditation Commission in the 2014-15 fiscal year. The District recently went through the re-accreditation process and is now accredited through June 30, 2024. This honor was the result of a lot of hard work by the school board and staff to ensure a quality education for all students.

Long-Term Financial Planning

Providing adequate facilities to all students is fundamental to maintaining an effective education system. It speaks to a range of standards, including safety, class size, and equity. The District's school building ages,

including major additions, range from 1971 to 2013. The District has a facilities plan to rebuild, remodel, and renovate schools and sites, which shall take place over a number of years.

The District follows procedures established by State Law and the State Board of Education rules in establishing and adopting annual budgets for each of the governmental fund types. Budgets are prepared using the same modified accrual basis as is used to account for governmental funds. Appropriations are controlled at the object level (e.g. salaries, benefits, capital outlay and purchased services) within each functional activity (e.g. instruction, student transportation services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.

Unassigned fund balance in the General Fund is 5.3 percent of total General Fund expenditures and assigned and unassigned fund balance in the General Fund (5.6 percent of the General Fund expenditures) exceeds the District policy of 5 percent of General Fund annual expenditures, as described below. During the initial planning of the budget each year, the District budgets the amount of unassigned fund balance from the previous year as the budgeted beginning fund balance in the subsequent fiscal year.

Relevant Financial Policies

The policy of the Board is to contain costs so that annual expenditures do not exceed the annual resources. Furthermore, the Board shall maintain a fund balance in its operating funds that are not classified as restricted, committed, or non-spendable at a minimum of 5 percent of the annual General Fund expenditures. However, it is the Board's intent to be in the upper quartile of Florida school districts in fund balance annually. This will be achieved through prudent fiscal management.

Acknowledgements

The Association of School Business Officials International (ASBO) awarded *The Certificate of Excellence in Financial Reporting* to the Monroe County School District for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2018. This was the fifth year that the District received this prestigious award. In order to be awarded *The Certificate of Excellence in Financial Reporting* from ASBO, the District must publish an easily readable and efficiently organized CAFR. This report satisfies both GAAP and applicable legal requirements. The Certificate of Excellence is valid for a period of one year only. We believe that our CAFR continues to meet the Certificate of Excellence program requirements and we are submitting it to ASBO to determine its eligibility for award of the certificate.

The preparation of the CAFR was made possible by the dedicated service of the entire staff of the District's Finance Department, whose hard work and excellence once more prevails. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, we would like to thank the members of the School Board for their leadership and support in planning and conducting the financial operations of the District, in an accountable and progressive manner. We also thank the citizens of Monroe County, whose cooperation; support and assistance have contributed greatly to the operation of this innovative school system.

Sincerely yours,

INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Monroe County District School Board, as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statement of the school internal funds, which represents 8 percent of the assets and 24 percent of the liabilities of the aggregate remaining fund information. In addition, we did not audit the financial statements of the aggregate discretely presented component units, which represent 100 percent of the transactions and account balances of the aggregate discretely presented component units columns. Those statements were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for the school internal funds and the aggregate discretely presented component units, are based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Monroe County District School Board, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the general and major special revenue funds for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that **MANAGEMENT'S DISCUSSION AND ANALYSIS**, the **Schedule of Changes in the District's Total OPEB Liability and Related Ratios**, **Schedule of Changes in Net Pension Liability and Related Ratios – Early Retirement Plan**, **Schedule of Employer Contributions – Early Retirement Plan**, **Schedule of Investment Returns – Early Retirement Plan**, **Schedule of the District's Proportionate Share of the Net Pension Liability – Florida Retirement System Pension Plan**, **Schedule of District Contributions – Florida Retirement System Pension Plan**, **Schedule of the District's Proportionate Share of the Net Pension Liability – Health Insurance Subsidy Pension Plan**, and **Schedule of District Contributions – Health Insurance Subsidy Pension Plan**, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund statements and schedules, and the introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Also, the accompanying **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The combining and individual fund statements and schedules, and the accompanying **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the combining and individual fund statements and schedules, and the accompanying **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**, are fairly stated in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements and other matters included under the heading **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Respectfully submitted,

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the Monroe County District School Board has prepared the following discussion and analysis to provide an overview of the District's financial activities for the fiscal year ended June 30, 2019. The information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions and should be considered in conjunction with the District's financial statements and notes to financial statements found immediately following the MD&A.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2018-19 fiscal year are as follows:

- As of June 30, 2019, the assets and deferred outflows of resources exceed the liabilities and deferred inflows of resources by \$267.8 million.
- In total, net position increased \$5.9 million, which represents a 2.3 percent increase over the 2017-18 fiscal year.
- General revenues total \$144.6 million, or 96.8 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions total \$4.8 million, or 3.2 percent of all revenues.
- Expenses total \$143.4 million. Only \$4.8 million of these expenses was offset by program specific charges, with the remainder paid from general revenues.
- At the end of the current fiscal year, the fund balance of the General Fund totals \$6.7 million, which is \$1 million less than the prior fiscal year balance. The General Fund total assigned and unassigned fund balances was \$6.1 million, or 6.1 percent of total General Fund revenues.
- Capital-related debt increased by \$14.5 million, or approximately 10 percent, due to the issuance of sales tax revenue bonds.

OVERVIEW OF FINANCIAL STATEMENTS

The basic financial statements consist of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to financial statements. This report also includes supplementary information intended to furnish additional details to support the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net position and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the District presented on the accrual basis of accounting. The statement of net position provides information about the District's financial position, its assets, liabilities, and deferred

inflows/outflows of resources, using an economic resources measurement focus. Assets plus deferred outflows of resources, less liabilities and deferred inflows of resources, equals net position, which is a measure of the District's financial health. The statement of activities presents information about the change in the District's net position, the results of operations, during the fiscal year. An increase or decrease in net position is an indication of whether the District's financial health is improving or deteriorating.

All of the District's activities and services are reported in the government-wide financial statements as governmental activities. The District's governmental activities include instruction, student support services, instructional support services, administrative support services, facility maintenance, transportation, and food services. Property taxes and State revenues finance most of these activities. Additionally, all capital and debt financing activities are reported as governmental activities.

The government-wide statements present the District's activities in the following categories:

- Governmental activities – This represents most of the District's services, including its educational programs: basic, vocational, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the State's education finance program provide most of the resources that support these activities.
- Component units – The District presents six separate legal entities in this report. The Big Pine Elementary Academy, Inc.; Key West Independent Education, Inc. d/b/a Key West Collegiate School; Key West Montessori Elementary Charter School; Montessori Island Charter School, Inc. d/b/a Treasure Village Montessori School; Ocean Studies Charter School, Inc.; and Sigsbee Charter School, Inc. are legally separate organizations and component units that are included in this report because they meet the criteria for inclusion provided by generally accepted accounting principles. Financial information for these component units is reported separately from the financial information presented for the primary government.
- The Monroe School Board Leasing Corporation (Leasing Corporation), although also a legally separate entity, was formed to facilitate financing for the acquisition of facilities and equipment for the District. Due to the substantive economic relationship between the District and the Leasing Corporation, the Leasing Corporation has been included as an integral part of the primary government.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the government-wide statements. All of the District's funds may be classified within one of the broad categories discussed below.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds. The District's major funds are the General Fund; Special Revenue – Other Fund; Debt Service – ARRA Economic Stimulus Fund; Capital Projects – Section 1011.71(2), F.S., Local Capital Improvement Tax Fund; and Capital Projects – Other Fund. Data from the other governmental funds are combined into a single, aggregated presentation.

The District adopts an annual appropriated budget for its governmental funds. Budgetary to actual comparisons have been provided for these funds to demonstrate compliance with the budget.

Proprietary Funds: Proprietary funds, such as internal service funds, are established to account for activities in which a fee is charged for services. Internal service funds are used to report activities that provide goods and services to support the District's other programs and functions through user charges. The District uses the internal service funds to account for self-insurance programs, which are supported, in part, through user charges. Since these services predominantly benefit governmental functions, the internal service funds have been included within governmental activities in the government-wide financial statements. Proprietary funds provide the same type of information as the government-wide financial statements. The internal service funds are combined into a single, aggregated column in the proprietary fund financial statements.

Fiduciary Funds: Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

The District uses a pension trust fund to account for the resources used to finance the early retirement plan.

The District uses agency funds to account for resources held for student activities and groups.

Notes to Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's net pension liability; its progress in funding its early retirement plan obligation; and its obligation to provide other postemployment benefits to its employees.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position over time may serve as a useful indicator of a government's financial health. The following is a summary of the District's net position as of June 30, 2019, compared to net position as of June 30, 2018:

The largest portion of the District's net position is investment in capital assets (e.g., land; buildings; furniture, fixtures, and equipment; motor vehicles; and audio visual materials and computer software), net of related debt and unspent proceeds. The District uses these capital assets to

Monroe County School District, Florida
For the Fiscal Year Ended June 30, 2019

provide services to students; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of related debt and unspent proceeds, the resources used to repay the debt must be provided from other sources, since the capital assets cannot be used to liquidate these liabilities.

The restricted portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The deficit unrestricted net position was the result, in part, of accruing \$6.3 million in compensated absences payable, \$8.7 million in other postemployment benefit obligations, and \$58 million in net pension liability.

The key elements of the changes in the District's net position for the fiscal years ended June 30, 2019, and June 30, 2018, are as follows:

The largest revenue source is local property taxes (62.7 percent). Revenues from State and local sources for current operations are primarily received through the Florida Education Finance Program (FEFP) funding formula. The FEFP formula utilizes student enrollment data, and is designed to maintain equity in funding across all Florida school districts, taking into consideration the District's funding ability based on the local property tax base.

Property tax revenues increased by \$4.1 million, or 4.5 percent, as a result of an increase in taxable assessed values.

Local sales tax revenues increased by \$2.1 million, or 12.3 percent, as a result of an increase in taxable sales in the County.

Grants and contributions not restricted to specific programs revenues increased by \$1.5 million, or 5.9 percent, primarily due to an increase in FEFP revenues from the State. FEFP revenues increased, in part, due to an increase in State funding.

Instruction expenses represent 52.7 percent of total governmental expenses in the 2018-19 fiscal year. Instruction expenses increased by \$2.5 million, or 3.5 percent, from the previous fiscal year due mainly from an increase in staffing levels, resulting in an increase in salaries and related benefits.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. Specifically, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as it represents the portion of fund balance that has not been limited to a particular purpose by an external party, the District, or a group or individual delegated authority by the Board to assign resources for particular purposes.

The total fund balances of governmental funds decreased by \$29.7 million during the fiscal year to \$107.2 million at June 30, 2019. Approximately 5.4 percent of this amount is unassigned fund balance (\$5.8 million), which is available for spending at the District's discretion. The remainder of the fund balance is nonspendable, restricted, or assigned to indicate that it is 1) not in spendable form (\$0.8 million), 2) restricted for particular purposes (\$98.4 million), or 3) assigned for particular purposes (\$2.2 million).

Major Governmental Funds

The General Fund is the District's chief operating fund. At the end of the current fiscal year, unassigned fund balance is \$5.8 million, while the total fund balance is \$6.7 million. As a measure of the General Fund's liquidity, it may be useful to compare the total assigned and unassigned fund balances to General Fund total revenues. The total assigned and unassigned fund balance

is approximately 6.1 percent of the total General Fund revenues, while total fund balance represents approximately 6.6 percent of total General Fund revenues.

Total fund balance decreased by \$1 million during the fiscal year. Key factors impacting the change in fund balance are as follows:

- Increase in the local property values resulted in increased tax revenues of \$3.5 million.
- Total expenditures increased by \$4.7 million, or 4.5 percent, due mainly to an increase in salaries and related benefits.

The Special Revenue – Other Fund accounts for the financial resources of certain Federal grant programs. Revenues and expenditures totaled \$5.8 million each, which were mainly used for instructional salaries and benefits for the 2018-19 fiscal year. Because grant revenues attributed to the grants accounted for in this fund are not recognized until expenditures are incurred, this fund generally does not accumulate a fund balance.

The Debt Service – ARRA Economic Stimulus Fund had a total fund balance of \$18.2 million, which is restricted for debt service. The significant activity during the fiscal year was qualified school construction bond (QSCB) certificates of participation sinking fund payments. Proceeds to fund these payments were transferred in from various capital projects funds and received from a 5.49 percent interest subsidy which is paid directly to the District by the United States Treasury.

The Capital Projects – Section 1011.71(2), F.S., Local Capital Improvement Tax Fund had a total fund balance of \$6 million. These funds are restricted for the acquisition, construction, and maintenance of capital assets. The significant activity during the fiscal year was the construction and maintenance of capital assets. Of the total fund balance, \$1.4 million has been encumbered for specific projects.

The Capital Projects – Other Fund has a total fund balance of \$68.1 million. The restricted fund balance of \$66.2 million is restricted for the acquisition, construction, and maintenance of capital assets. The assigned fund balance of \$1.9 million was assigned by the Board for capital projects. The fund balance decreased \$30.6 million in the current fiscal year primarily due to facilities acquisition and construction expenses of \$56.7 million related to the construction of Plantation Key School, Gerald Adams Elementary School, Marathon High School Athletic Complex, and Stanley Switlick Elementary, offset, in part, by proceeds of \$22.4 million received from the issuance of Sales Tax Revenue Bonds, Series 2019. Of the total fund balance, \$17.3 million has been encumbered for specific projects.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the 2018-19 fiscal year, the District amended its General Fund budget primarily to adjust planned expenditures between functional categories. There were no significant variances between the original and final budgeted amounts.

Actual revenues were equal to the final budgeted amounts. There were also no significant variances between actual expenditures and final budgeted amounts and the actual ending fund balance exceeded the estimated fund balance by \$0.6 million.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The District's investment in capital assets for its governmental activities as of June 30, 2019, is \$366.2 million (net of accumulated depreciation). This investment in capital assets includes land; construction in progress; improvements other than buildings; buildings and fixed equipment; furniture, fixtures, and equipment; motor vehicles; and audio visual materials and computer software. The total increase in capital assets for the current fiscal year was 17.1 percent. The increase in capital assets is attributable to the increase in construction in progress for the two replacement schools and the major renovation and remodeling project at Stanley Switlik Elementary during the fiscal year.

Additional information on the District's capital assets can be found in notes I.G.4. and II.C. to the financial statements.

Long-Term Debt

At June 30, 2019, the District has total long-term debt outstanding of \$158.7 million, comprised of \$78.1 million and \$5.1 million of Sales Tax Revenue bonds and unamortized premiums, respectively, and \$71.7 million and \$3.8 million of COPs and unamortized premiums, respectively. During the current fiscal year, retirement of debt was \$7 million.

During the current fiscal year, the District issued Sales Tax Revenue Bonds, Series 2019, in the amount of \$22.5 million, which are secured by a pledge of the District's sales tax revenues. The pledged sales tax revenues are committed until final maturity of the debt, or October 1, 2025. The remainder of the District's long-term debt is secured solely by specified revenue sources.

Additional information on the District's long-term debt can be found in notes II.H.1. through II.H.3. to the financial statements.

OTHER MATTERS OF SIGNIFICANCE

The latest enrollment projections for the District indicate an increase of approximately 110 students during the 2019-20 fiscal year, which will increase future State revenue.

Employer contributions to the Florida Retirement System increased for regular employees from 8.26 to 8.47 percent of payroll for the 2019-20 fiscal year.

Housing prices are expected to increase the taxable assessed value for the 2019-20 fiscal year.

Contract settlements with both of the District's unions, the teachers' union and school-related personnel union, have been reached for the 2019-20 fiscal year.

REQUESTS FOR INFORMATION

This report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning information provided in the MD&A or other required supplementary information, and financial statements and notes thereto, or requests for additional financial information should be addressed to the Executive Director of Finance and Performance, Monroe County District School Board, 241 Trumbo Road, Key West, FL 33040.

TO THE STATEMENT OF NET POSITION
June 30, 2019

Total Fund Balances - Governmental Funds **\$ 107,179,198**

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.

Capital Asset Not Being Depreciated	\$	109,726,045	
Capital Asset Being Depreciated		353,106,148	
Accumulated Depreciation		<u>(96,596,560)</u>	366,235,633

Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. 5,540,860

Long-term liabilities are not due and payable in the current fiscal year and, therefore, are not reported as liabilities in the governmental funds. Long-term liabilities at fiscal year-end consist of:

Bonds from Direct Borrowings and Direct Placements, Net	\$	83,183,083	
Certificates of Participation from Direct Borrowings and Direct Placements, Net		75,559,786	
Compensated Absences Payable		6,337,541	
Net Pension Liability		57,995,979	
Other Postemployment Benefits Payable		<u>8,716,605</u>	(231,792,994)

The deferred outflows and deferred inflows related to pensions and other postemployment benefits (OPEB) are applicable to future periods and, therefore, are not reported in the governmental funds.

Deferred Outflows Related to Pension	\$	25,986,246	
Deferred Outflows Related to OPEB		228,302	
Deferred Inflows Related to Pension		(5,307,425)	
Deferred Inflows Related to OPEB		<u>(256,116)</u>	<u>20,651,007</u>

MONROE COUNTY SCHOOL DISTRICT, FLORIDA
RECONCILIATION OF THE GOVERNMENTAL FUNDS
STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2019

Net Change in Fund Balances - Governmental Funds **\$ (29,656,761)**

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period. 53,488,319

In the statement of activities, the loss on disposal or sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the undepreciated cost of the capital assets disposed or sold. (61,184)

Issuing long-term bonded debt is an other financing source in the governmental funds, but issuing new debt increases long-term liabilities in the statement of net position. This is the long-term debt that was issued in the current period.

Sales Tax Revenue Bonds (22,500,000)

Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. The following details the amount of long-term debt principal repaid in the current period. 6,985,000

Governmental funds report the effect of premiums, discounts, and prepaid insurance in the year debt is issued, but these amounts are deferred and amortized over the life of the debt in the statement of activities. The following details the effects of premiums in the current period:

Amortization of Premium on Certificates of Participation	\$ 223,613	
Amortization of Premium on Bonds	813,293	1,036,906

In the statement of activities, the cost of compensated absences is measured by the amounts earned during the fiscal year, while in the governmental funds, expenditures are recognized based on the amounts actually paid for compensated absences. This is the net amount of compensated absences paid in excess of the amount earned in the current fiscal year. 436,724

Governmental funds report District OPEB contributions as expenditures. However, in the statement of activities, the cost of OPEB benefits earned net of employee contributions, as determined through an actuarial valuation, is reported as an OPEB expense.

Increase in OPEB Liability	\$ (184,179)	
Increase in Deferred Outflows of Resources - OPEB	228,302	
Decrease in Deferred Inflows of Resources - OPEB	14,229	58,352

Governmental funds report District contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned net of employee contributions is reported as a pension expense.

FRS Pension Contribution	\$ 3,960,316	
HIS Pension Contribution	1,037,329	
FRS Pension Expense	(6,960,615)	
HIS Pension Expense	(1,891,408)	(3,854,378)

Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The net revenue of internal service funds is reported with governmental activities. 13,830

Change in Net Position - Governmental Activities **\$ 5,946,808**

**MONROE COUNTY
SCHOOL DISTRICT, FLORIDA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019**

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Governmental activities are normally supported by taxes, intergovernmental revenues, and other nonexchange transactions. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the Monroe County School District's (District) governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expense associated with the District's transportation department is allocated to the student transportation services function, while remaining depreciation expense is not readily associated with a particular function and is reported as unallocated.

B. Reporting Entity

The Monroe County District School Board (Board) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The District is considered part of the Florida system of public education, operates under the general direction of the Florida Department of Education (FDOE), and is governed by State law and State Board of Education (SBE) rules. The governing body of the District is the Board, which is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Monroe County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any legally separate entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading.

Based on the application of these criteria, the following component units are included within the District's reporting entity:

MONROE COUNTY
SCHOOL DISTRICT, FLORIDA
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2019

Blended Component Unit. Blended component units are, in substance, part of the District's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the District. The Monroe County School Board Leasing Corporation (Leasing Corporation) was formed to facilitate financing for the acquisition of facilities and equipment as further discussed in Note II.H.1. Due to the substantive economic relationship between the District and the Leasing Corporation, the financial activities of the Leasing Corporation are included in the accompanying basic financial statements. Separate financial statements for the Leasing Corporation are not published.

Discretely Presented Component Units. The component units columns in the government-wide financial statements include the financial data of the District's other component units. A separate column is used to emphasize that they are legally separate from the District.

The District's charter schools, Big Pine Elementary Academy, Inc.; Key West Independent Education, Inc. d/b/a Key West Collegiate School; Key West Montessori Elementary Charter School, Inc.; Montessori Island Charter School, Inc. d/b/a Treasure Village Montessori; Ocean Studies Charter School, Inc.; and Sigsbee Charter School, Inc. are not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and Section 1002.33, Florida Statutes. The charter schools operate under a charter approved by their sponsor, the Monroe County District School Board. The charter schools are considered to be component units of the District because the District is financially accountable for the charter schools as the District established the charter schools by approval of the charter, which is tantamount to the initial appointment of the charter schools, and there is the potential for the charter schools to impose specific financial burdens on the District. In addition, pursuant to the Florida Constitution, the charter schools are public schools and the District is responsible for the operation, control, and supervision of public schools within the District.

The financial data reported on the accompanying statements was derived from the charter schools' audited financial statements for the fiscal year ended June 30, 2019. The audit reports are filed in the District's administrative offices at 241 Trumbo Road, Key West, Florida, 33040.

C. Basis of Presentation: Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

**MONROE COUNTY
SCHOOL DISTRICT, FLORIDA
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2019**

The effects of interfund activity have been eliminated from the government-wide financial statements, except for interfund services provided and used.

D. Basis of Presentation: Fund Financial Statements

The fund financial statements provide information about the District's funds, including the fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

- General Fund – to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Special Revenue – Other Fund – to account for certain Federal grant program resources.
- Debt Service – ARRA Economic Stimulus Fund – to account for principal and interest payments related to the ARRA Qualified School Construction Bonds.
- Capital Projects – Section 1011.71(2), F.S., Local Capital Improvement Tax Fund – to account for financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects.
- Capital Projects – Other Fund – to account for financial resources earmarked for capital projects, generated by all sources not required to be reported in any other fund, such as local sales tax, certificates of participation, and Federal Emergency Management Agency proceeds.

Additionally, the District reports the following proprietary and fiduciary fund types:

- Internal Service Funds – to account for the District's individual self-insurance programs.
- Pension Trust Fund – to account for resources used to finance the early retirement program.
- Agency Funds – to account for resources of the school internal funds, which are used to administer moneys collected at several schools in connection with school, student athletic, class, and club activities.

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding at fiscal year-end are reported as due from/to other funds.

**MONROE COUNTY
SCHOOL DISTRICT, FLORIDA
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2019**

While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in and out. While reported in fund financial statements, transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 45 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 45 days of year-end). Expenditures are generally recognized when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, claims and judgments, pension benefits, other postemployment benefits, and compensated absences, are only recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are

reported as other financing sources. Allocations of cost, such as depreciation, are not recognized in governmental funds.

The proprietary and pension benefit trust funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency funds have no measurement focus but utilize the accrual basis of accounting for reporting its assets and liabilities.

The charter schools are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

F. Budgetary Basis of Accounting. The Board follows procedures established by State law and SBE rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by State law and SBE rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, student transportation services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash and Cash Equivalents

The District's cash and cash equivalents include cash on hand, demand deposits, and certificates of deposit. Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

**MONROE COUNTY
SCHOOL DISTRICT, FLORIDA
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

2. Investments

Investments consist of amounts placed with the SBA for participation in the Florida PRIME investment pool created by Section 218.405, Florida Statutes, and those made locally. The investment pool operates under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in Florida PRIME, which the SBA indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. These investments are reported at fair value, which is amortized cost.

Investments made locally consist of amounts in United States (US) Treasury Notes, US Treasury Bills, Federal Home Loan Discount Note and money market funds and are reported at fair value.

Types and amounts of investments held at fiscal year-end are described in a subsequent note.

3. Inventories and Prepaid Items

Inventories consist of purchased foods for the food service program and fuel for the District's vehicles which are held for consumption in the course of District operations. Inventories are stated at cost. The weighted-average method is used in pricing the fuel inventory. The first-in, first-out method is used in pricing the purchased foods inventories. The costs of inventories are recorded as expenditures when used rather than purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

4. Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at acquisition value at the date of donation.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Improvements Other Than Buildings	15 years
Buildings and Fixed Equipment	50 years
Furniture, Fixtures, and Equipment	3 - 15 years
Motor Vehicles	7 - 10 years
Audio Visual Materials and Computer Software	3 - 5 years

Current year information relative to changes in capital assets is described in a subsequent note.

5. Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS and the HIS fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

The District's retirement plans and related amounts are described in a subsequent note.

6. Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position. Debt premiums are deferred and amortized over the life of the debt using the straight-line method which approximates the effective interest methods. Debt payable are reported net of the applicable premium.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize debt premiums during the current period. The face amount of debt issued is reported as other financing sources.

Changes in long-term liabilities for the current year are reported in a subsequent note.

**MONROE COUNTY
SCHOOL DISTRICT, FLORIDA
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2019**

7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until then. The District has two types of items that qualify for reporting in this category. The deferred outflows of resources related to pensions and OPEB are discussed in subsequent notes.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has two types of items that qualify for reporting in this category. The deferred inflows of resources related to pensions and OPEB are discussed in subsequent notes.

8. Net Position Flow Assumption

The District occasionally funds outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. To calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. Consequently, it is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

9. Fund Balance Flow Assumptions

The District may fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). To calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

10. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself

**MONROE COUNTY
SCHOOL DISTRICT, FLORIDA
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2019**

can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification may include amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation. The District reported no committed balances at June 30, 2019.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board classifies amounts as assigned based on actions of the Superintendent, as authorized by Board Policy 6320. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

The District has adopted Board Policy 6235, which provides that the Board shall maintain a fund balance in its operating fund that are not classified as restricted, committed, or nonspendable at a minimum of 5 percent of the General Fund's annual expenditures. At June 30, 2019, the District met this policy with unassigned and assigned fund balances totaling 5.64 percent of General Fund expenditures.

H. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

SCHOOL DISTRICT, FLORIDA

2. State Revenue Sources

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the FDOE under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the FDOE. The FDOE performs certain edit checks on the reported number of FTE and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting during specified periods following the date of the original reporting. Such amendments may impact funding allocations for subsequent fiscal years. The FDOE may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the fiscal year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. SBE rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following fiscal year to be expended for the same educational programs. The FDOE generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the balance of categorical and earmarked educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the FDOE.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

3. District Property Taxes

The Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Monroe County Property Appraiser, and property taxes are collected by the Monroe County Tax Collector.

The Board adopted the 2018 tax levy on September 11, 2018. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

**MONROE COUNTY
SCHOOL DISTRICT, FLORIDA
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2019**

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Monroe County Tax Collector at fiscal year-end but not yet remitted to the District.

Millages and taxes levied for the current year are presented in a subsequent note.

4. Capital Outlay Surtax

On November 4, 2014, the voters of Monroe County approved the continuation of the one-half cent school capital outlay surtax on sales in the County for 10 years, effective January 1, 2016. The surtax proceeds are used to upgrade and address security needs at school facilities, equip schools with modern technology, construct new or replacement facilities, provide for renovations to existing school structure and other permitted capital improvements, in accordance with Section 212.055(6), Florida Statutes.

5. Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

6. Compensated Absences

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations and retirements. The liability for compensated absences includes salary-related benefits, where applicable.

7. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for employee health insurance premiums. Operating expenses include insurance claims and excess coverage premiums. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

II. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

A. Cash Deposits with Financial Institutions

Custodial Credit Risk-Deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to the District or will not be able to recover collateral securities that are in the possession of an outside party. The District does not have a policy for custodial credit risk; however, Board Policy 6140, provides that all public funds shall be deposited in a qualified public depository, unless exempt under the laws of the State. All bank balances of the District are fully insured or collateralized as required by Chapter 280, Florida Statutes.

B. Investments

Fair Value Measurement

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District's investments in the Federal Home Loan Discount Note and the United States Treasury Notes and Bills accounts are valued using Level 1 inputs.

- Notes: (1) These investments are held by a paying agent in connection with the Qualified School Construction Bonds financing arrangement (see Note II.H.1.).
- (2) These investments are held by a paying agent in connection with the Qualified Zone Academy Bonds (QZAB) financing arrangement (see Note II.H.1.).
- (3) These investments are held by a paying agent in connection with the Certificate of Participation Series 2018A financing arrangements (see Note II.H.1.).
- (4) These investments are held by a paying agent in connection with the QZAB financing arrangement (see Note II.H.1.).

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Section 218.415(17), Florida Statutes, limits investment maturities to provide sufficient liquidity to pay obligations as they come due. The District's investment policy (Policy) provides that an attempt will be made to match investment maturities with known cash needs and anticipated cash flow requirements. The Policy limits current short-term funds investments to a maximum of one year, and investments of bond reserves, construction moneys, and other core funds to a term appropriate to the need for moneys and in accordance with debt covenants, but not to exceed 3 years.

Florida PRIME and the District's money market funds use a weighted average days to maturity (WAM). A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes.

For Florida PRIME, Section 218.409(8)(a), Florida Statutes, states that "the principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from the moneys in the trust fund. However, the Executive Director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the Board can invest moneys entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the Trustees, the Joint Legislative Auditing

Committee, and the Investment Advisory Council. The Trustees shall convene an emergency meeting as soon as practicable from the time the Executive Director has instituted such measures and review the necessity of those measures. If the Trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the moratorium may be extended by the Executive Director until the Trustees are able to meet to review the necessity for the moratorium. If the Trustees agree with such measures, the Trustees shall vote to continue the measures for up to an additional 15 days. The Trustees must convene and vote to continue any such measures before the expiration of the time limit set, but in no case may the time limit set by the Trustees exceed 15 days." As of June 30, 2019, there were no redemption fees or maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100 percent of their account value.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(16), Florida Statutes, limits investments to the Local Government Surplus Funds Trust Fund (Florida PRIME), or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; interest-bearing time deposits or savings accounts in qualified public depositories, as defined in Section 280.02, Florida Statutes; direct obligations of the United States Treasury; Federal agencies and instrumentalities; rated or unrated bonds, notes or instruments backed by the full faith and credit of the government of Israel; securities of, or other interest in, an open-ended or closed-ended management type investment company or investment trust registered under the Investment Company Act of 1940; and other investments authorized by law or by resolution for a school district. The District's investment policy authorizes investing in the Local Government Surplus Funds Trust Fund, or any intergovernmental pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; United States Government securities; SEC registered money market funds; interest-bearing time deposits or saving accounts; securities of, or other interest in, an open-ended or closed-ended management type investment company or investments trust registered under the Investment Company Act of 1940; and other investments as authorized by State law and not prohibited by the investment policy.

The District's investment in Florida PRIME is rated AAAM by Standard & Poor's.

The Fidelity Institutional Money Market Government Portfolio – Class I normally invests at least 99.5 percent of the fund's total assets in cash equivalents, United States Government securities or repurchase agreements for those securities. As of June 30, 2019, the District's investments in the Fidelity Institutional Money Market Government Portfolio – Class I were

**MONROE COUNTY
SCHOOL DISTRICT, FLORIDA
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

rated AAAm by Standard & Poor's and AAA-mf by Moody's Investors Service.

The Fidelity Institutional Money Market Treasury Portfolio – Class I normally invest at least 99.5 percent of the fund's total assets in cash equivalents, United States Treasury securities or repurchase agreements for those securities. As of June 30, 2019, the District's investments in the Fidelity Institutional Money Market Treasury Portfolio – Class I were rated AAAm by Standard & Poor's and AAA-mf by Moody's Investors Service.

The District's investment in the Federal Home Loan Discount Note is rated A-1+ by Standard & Poor's and P-1 by Moody's Investors Services.

The District's investment in the US Treasury Bills is not rated by Standard & Poor's and is rated Aaa by Moody's Investors Service. This investment is made pursuant to the QZAB financing agreement, and thus is not subject to the District's investment policy.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Section 218.415(18), Florida Statutes, requires the District to earmark all investments and (1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; (2) if in book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or (3) if physically issued to the holder but not registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a secured vault. The District's investment policy addresses custodial credit risk in that all securities, with the exception of certificates of deposit, shall be held with a third-party custodian; and all securities purchased by and all collateral obtained by the District should be properly designated as an asset of the District. The securities must be held in an account separate and apart from the assets of the financial institution.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy limits investments, which are subject to concentration of credit risk, to a maximum of 10 percent of available moneys. This policy does not apply to pension moneys, trust funds, and debt proceeds where there are other existing policies, resolutions, or indentures in effect for the investment of such moneys. Moneys held by State agencies (e.g., SBA) are also not subject to the provisions of this policy.

D. Retirement Plans

1. FRS – Defined Benefit Pension Plans

General Information about the FRS

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add

**MONROE COUNTY
SCHOOL DISTRICT, FLORIDA
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2019**

the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree HIS Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services Web site (www.dms.myflorida.com).

The District's FRS and HIS pension expense totaled \$8,852,023 for the fiscal year ended June 30, 2019.

FRS Pension Plan

Plan Description. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are:

- *Regular* – Members of the FRS who do not qualify for membership in the other classes.
- *Elected County Officers* – Members who hold specified elective offices in local government.
- *Senior Management Service* – Members in senior management level positions.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Employees enrolled in the Plan

may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

The DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the 5 highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

<u>Class, Initial Enrollment, and Retirement Age/Years of Service</u>	<u>Percent Value</u>
Regular Class members initially enrolled before July 1, 2011	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
Regular Class members initially enrolled on or after July 1, 2011	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63

As provided in Section 121.101, Florida Statutes, if the member was initially enrolled in the Plan before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member was initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost of living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2018-19 fiscal year were as follows:

<u>Class</u>	<u>Percent of Gross Salary</u>	
	<u>Employee</u>	<u>Employer (1)</u>
FRS, Regular	3.00	8.26
FRS, Elected County Officers	3.00	48.70

FRS, Reemployed Retiree	(2)	(2)

Notes: (1) Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

(2) Contribution rates are dependent upon retirement class in which reemployed.

The District's contributions to the Plan totaled \$3,960,316 for the fiscal year ended June 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2019, the District reported a liability of \$38,319,266 for its proportionate share of the Plan's net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The District's proportionate share of the net pension liability was based on the District's 2017-18 fiscal year contributions relative to the total 2017-18 fiscal year contributions of all participating members. At June 30, 2018, the District's proportionate share was 0.127219810 percent, which was an increase of 0.001535747 from its proportionate share measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the District recognized the Plan pension expense of \$6,960,615. In addition, the District reported deferred outflows of resources and

Actuarial Assumptions. The total pension liability in the July 1, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary increases	3.25 percent, average, including inflation
Investment rate of return	7.00 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

The actuarial assumptions used in the July 1, 2018, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (1)	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1%	2.9%	2.9%	1.8%
Fixed Income	18%	4.4%	4.3%	4.0%
Global Equity	54%	7.6%	6.3%	17.0%
Real Estate (Property)	11%	6.6%	6.0%	11.3%
Private Equity	10%	10.7%	7.8%	26.5%
Strategic Investments	6%	6.0%	5.7%	8.6%
Total	100%			
Assumed inflation - Mean			2.6%	1.9%

Note: (1) As outlined in the Plan's investment policy.

Discount Rate. The discount rate used to measure the total pension liability was 7 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. The discount rate used in the 2018 valuation was updated from 7.1 percent to 7 percent.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6 percent) or 1 percentage point higher (8 percent) than the current rate:

HIS Pension Plan

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided. For the fiscal year ended June 30, 2019, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Federal Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2019, the contribution rate was 1.66 percent of payroll pursuant to Section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$1,037,329 for the fiscal year ended June 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2019, the District reported a net pension liability of \$19,676,713 for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within 1 year, net of the District's proportionate share of the HIS Plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2018, and the total pension liability used to

calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The District's proportionate share of the net pension liability was based on the District's 2017-18 fiscal year contributions relative to the total 2017-18 fiscal year contributions of all participating members. At June 30, 2018, the District's proportionate share was 0.185908016 percent, which was an increase of 0.002861072 from its proportionate share measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the District recognized HIS Plan pension expense of \$1,891,408. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences Between Expected and Actual Experience	\$ 301,242	\$ 33,430

District HIS Contributions Subsequent to the Measurement Date	1,037,329	
Total	\$ 5,221,732	\$ 2,113,817

The deferred outflows of resources related to pensions resulting from District contributions to the HIS Plan subsequent to the measurement date, totaling \$1,037,329, will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

While an experience study had not been completed for the HIS Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan.

Discount Rate. The discount rate used to measure the total pension liability was 3.87 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate changed from 3.58 percent to 3.87 percent.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 3.87 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.87 percent) or 1 percentage point higher (4.87 percent) than the current rate:

2. FRS – Defined Contribution Pension Plan

The SBA administers the defined contribution plan officially titled the FRS Investment Plan (Investment Plan). The Investment Plan is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. District

SCHOOL DISTRICT, FLORIDA

employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Retirement benefits are based upon the value of the member's account upon retirement. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. Allocations to the Investment Plan member accounts during the 2018-19 fiscal year were as follows:

<u>Class</u>	<u>Percent of Gross Compensation</u>
FRS, Regular	6.30
FRS, Elected County Officers	11.34
FRS, Senior Management Service	7.67

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings, regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS-covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2019, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided in which the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to

receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$1,005,829 for the fiscal year ended June 30, 2019.

3. Early Retirement Plan

Plan Description

As authorized by Section 1012.685, Florida Statutes, the Board implemented an Early Retirement Plan (ERP) effective July 1, 1992. The ERP is a single-employer public employee retirement system (PERS) and was offered for only one year. The purpose of the ERP was to provide eligible District employees, who elected to retire under the early retirement provisions of the FRS described in Note II.D.1., with a monthly benefit equal to the statutory reduction of the normal retirement benefits when early retirement precedes the normal retirement age of 62.

Plan Administration

The Board administers the ERP assets in a pension trust fund and is responsible for their investment. The Board appoints and removes the ERP administrator. The ERP does not issue a stand-alone financial report and is not included in the report of a public employee retirement system of another entity.

Plan Membership

As of June 30, 2019, employee membership data related to the ERP were as follows:

Summary of Population Statistics

Inactive Plan Members or Beneficiaries Currently Receiving Benefits	8
Inactive Plan Members Entitled to But Not Yet Receiving Benefits	0
Active Plan Members	<u>0</u>
Total	<u><u>8</u></u>

Benefits Provided

All full-time United Teachers of Monroe bargaining unit members or administrative support personnel who were members of the FRS or the Teachers Retirement System (TRS) and who had attained the age of 55 as of August 1, 1992, completed 25 or more years of creditable service as determined by the FRS or the TRS, and have made application for benefits on or before June 10, 1992, are eligible to be members of the ERP. Benefits are paid in the amount of early payment reduction in monthly benefits from the FRS or the TRS as a consequence of early retirement.

**MONROE COUNTY
SCHOOL DISTRICT, FLORIDA

Contributions and Reserves

The ERP was established by the Board on July 1, 1992, and may be amended by Board action. Pursuant to the ERP agreement, no contribution shall be required or permitted from any member. Board contributions shall be sufficient to meet the annual pension cost of the ERP and to amortize the unfunded actuarial accrued liability within 4.62 years based on the July 1, 2017, actuarial study.

Periodic employer contributions to the ERP are determined on an actuarial basis using the aggregate cost method. Under this actuarial cost method, a funding cost is developed for the ERP as a level dollar amount per individual. The level dollar amount is calculated as the excess of the total future benefit liability over accumulated assets and future employee contributions, with this excess spread over the life expectancy for current retired participants and their beneficiaries. The normal cost is equal to the level dollar amount multiplied by the total life expectancy for retired participants and their beneficiaries solely during the year immediately following the valuation date. The actuarial accrued liability is equal to the accumulated assets. Therefore, under the aggregate cost method, no unfunded accrued liability is developed.

Significant actuarial assumptions used to compute annual required contributions are the same as those used to determine the actuarial accrued liability.

Contributions to the ERP in the 2018-19 fiscal year amounted to \$52,694, all of which were paid by the Board, and were \$1,880 less than the actuarially determined contribution requirement of \$54,574 determined through the actuarial valuation performed as of July 1, 2017.

All of the assets in the District's Pension Trust Fund are legally required reserves. None of the assets have been designated by the Board for any other specific purpose. Costs of administering the ERP are financed through the ERP's resources (employer contributions and investment earnings).

Summary of Significant Accounting Policies

Significant accounting policies related to basis of accounting and method of asset valuation are disclosed in Note I. Investment disclosures related to the pension trust fund are in Note II.B.

Investments

Investment Policy. The District manages the ERP's assets in accordance with the Board's investment policy discussed in Note II.B., the same as for all other District investments. ERP investments at June 30, 2019, consisted of amounts placed with the Florida PRIME investment pool.

Rate of Return. For the year ended June 30, 2019, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 2.52 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability

The components of the net pension liability of the ERP at June 30, 2019, were as follows:

Total Pension Liability	\$ 485,267
Plan Fiduciary Net Position	<u>(206,793)</u>
Net Pension Liability	<u>\$ 278,474</u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	42.6%

Actuarial Methods and Assumptions. The total pension liability was determined by an actuarial valuation as of July 1, 2017, using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return	3%
Projected salary increases	Not Applicable
Postemployment benefit increases	3%

Post-Retirement Mortality: Sex-distinct rates set forth in the RP-2000 Combined Mortality Table with full generational improvements in mortality using Scale BB.

The Total Pension Liability used in calculating the Net Pension Liability presented above is based on the actuarial valuation performed as of July 1, 2017. Actuarial update procedures were used to roll forward the Total Pension Liability to June 30, 2019, the ERP's fiscal year end.

As total investments represent less than a percent of total ERP assets, the District did not calculate the long-term expected rate of return on ERP investments.

Discount Rate. The discount rate used to measure the total pension liability was 3 percent (2.75 percent, per annum, is attributable to long-term inflation). This rate was used to discount all future benefit payments.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate. The following presents the normal cost rate of the ERP calculated using the discount rate of 3 percent, as well as what the normal cost rate would be if it were calculated using a discount rate that is 1 percentage point lower (2 percent) or 1 percentage point higher (4 percent) than the current rate:

E. Other Postemployment Benefit Obligations

Plan Description. The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District that provides OPEB for all employees who satisfy the District's retirement eligibility provisions. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the District are eligible to participate in the District's healthcare and life insurance coverage. Retirees and their eligible dependents shall be offered the same healthcare coverage as is offered to active employees at a premium cost of no more than the premium cost applicable to active employees. The District subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because retiree healthcare costs are generally greater than active employee healthcare costs. The OPEB Plan contribution requirements and benefit terms of the District and the OPEB Plan members are established and may be amended through action from the Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Benefits Provided. The OPEB Plan provides healthcare and life insurance benefits for retirees and their dependents. In addition to the implicit subsidy described above, the benefit terms provide for payment of 100 percent of a capped subsidy for non-Medicare-eligible retirees that retire with 20 or more years of service to the District and 50 percent of a capped subsidy for non-Medicare-eligible retirees that retire with less than 20 years and more than 10 years of service to the District. There is no subsidy for Medicare-eligible retirees and retirees with less than 10 years of service to the District. The plan also provides all retirees with \$2,500 of life insurance benefits.

Employees Covered by Benefit Terms. At June 30, 2019, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	70
Inactive Employees Entitled to But Not Yet Receiving Benefits	0
Active Employees	<u>907</u>
Total	<u><u>977</u></u>

Total OPEB Liability. The District's total OPEB liability of \$8,716,605 was measured as of June 30, 2019, and was determined by an actuarial valuation as of June 30, 2018, and update procedures were used to determine the total OPEB liability as of June 30, 2019.

**MONROE COUNTY
SCHOOL DISTRICT, FLORIDA
NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Actuarial Assumptions and Other Inputs. The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation Rate	2.50 percent
Salary increase Rate	2.00 percent
Discount rate	3.50 percent
Municipal Bond Rate Basis	Bond Buyer General Obligation 20-year Municipal Bond Index
Mortality Rates	RP-2014 generational table scales using MP-17 and applied on a gender specific basis
Healthcare Cost Trend Rates	6 percent for 2019, decreasing 0.5 percent per year to an ultimate rate of 4.5 percent for 2022 and later years
Administrative Expenses	Per-capita administrative costs are based on current administrative fees.

The demographic actuarial assumptions for retirement and withdrawal used in the June 30, 2018, valuation were based on the results of the July 1, 2017, FRS Actuarial Valuation, which were developed by the FRS from an Actuarial Experience Study.

The participation percentage is the assumed rate of future eligible retirees who elect to continue health coverage at retirement. It is assumed that 80 percent of all employees and their dependents who are eligible for early retirement benefits will participate in the retiree medical plan. This assumes that a one-time irrevocable election to participate is made at retirement. The expected annual claim costs were developed using historical claim experience through March 2018. The age 60 adjusted claim costs are presented in the table below:

<u>Per Capita Cost</u>	<u>Age 60 Claim Cost</u>
Buy up	\$ 12,997
Core	10,773
HDHP	9,828

The plan election percentage is based on current retiree plan elections, future retirees are assumed to elect the Buy up plan at 54 percent, the core plan at 43 percent and the remaining are assumed to elect the HDHP.

G. Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Property and casualty, including workers' compensation coverage and group medical insurance for its employees, retirees, and their dependents is being provided on a self-insured basis up to specified limits. The District has entered into agreements with various insurance companies to provide specific excess coverage of claim amounts above the stated amount on an individual claim basis, and aggregate excess coverage when total claims minus specific excess coverage exceeds the loss fund established annually by the District. The District has contracted with an insurance administrator to administer these self-insurance programs, including the processing, investigating, and payment of claims.

Under the plan for property and casualty, including workers' compensation, the District's liability is limited to various per occurrence amounts ranging between \$1,000 and \$10 million, depending on the type of peril coverage. The District's commercial property insurance for wind damage provides for a \$50 million primary limit with a \$4 million sublimit per named windstorm after a deductible of 5 percent of total insured values per location subject to a minimum of \$10 million per occurrence. All other windstorm/hail coverage provides for a \$100,000 deductible per occurrence.

The plan for group medical insurance provides that the District contributes premiums as a fringe benefit to employees. The District also contributes for dependent coverage for several administrative employees. Dependent coverage for other employees and coverage for retirees and their dependents is by prepaid premium. The District's liability under the group medical plan is limited to \$275,000 annually for each person. The District's reimbursement from excess insurance coverage for aggregate claims is limited to a total of \$2 million annually.

Settled claims resulting from the risks described above have not exceeded commercial insurance coverage in any of the past 3 fiscal years.

A liability in the amount of \$4,210,083 was actuarially determined to cover estimated incurred, but not reported, insurance claims payable for the group medical, workers' compensation, and automobile and general liability self-insurance programs at June 30, 2019.

The following schedule represents the changes in claims liability for the past 2 fiscal years for the District's self-insurance program:

H. Long-Term Liabilities

1. Certificates of Participation

The Monroe School Board Leasing Corporation (Leasing Corporation) was formed by the District to be lessor in connection with financing the acquisition and/or construction of certain educational facilities. On October 15, 1996, the District entered into a financing arrangement, characterized as a lease-purchase agreement with the Leasing Corporation, whereby the District secured financing and refinancing of various educational facilities, sites, and equipment. On December 29, 2005, the Leasing Corporation issued Certificates of Participation, Qualified Zone Academy Bonds (QZAB), Series 2005, in the amount of \$4,842,000 for heating, ventilation, and conditioning; electrical; and general facilities improvements at several District properties. Under the terms of the lease agreement, the District is required to make ten annual payments of \$341,008 each, which are deposited with a trustee and invested in accordance with a security delivery agreement until maturity and, when combined with interest earnings, will be sufficient to pay off the principal balance in full, at maturity on December 29, 2020. On August 1, 2013, the Board transferred Glynn Archer Elementary to the City of Key West, Florida, and such facility ceased being used as a qualified zone academy. In accordance with Federal tax law, an escrow deposit agreement was established on October 29, 2013, and \$561,689 (the amount of QZAB funds spent on the Glynn Archer Elementary facility) was deposited into the account. Such funds will remain on deposit until December 29, 2020, the date the 2005 QZAB matures.

Certificates of Participation, Series 2010A. On June 24, 2010, Certificates of Participation, Series 2010A, were issued under the Qualified School Construction Bond program in the amount of \$36,000,000 to finance the construction of a new middle school. The Qualified School Construction Bond program was established under the American Recovery and Reinvestment Act of 2009, to provide for a taxable obligation to be issued by the school district with a Federal subsidy for interest. The Series 2010A Certificates were issued by the Leasing Corporation as direct pay bonds whereby the District pays interest of 5.7 percent and receives a 5.49 percent interest subsidy, which is paid directly to the District by the United States Treasury. Under the terms of the trust agreement, the District is required to make annual payments of \$2,117,647 each, which are to be deposited with a trustee and invested in accordance with a trust agreement until maturity and, when combined with interest earnings, will be sufficient to pay off the principal balance in full, at maturity on June 1, 2027.

Certificate of Participation, Series 2018A. On May 18, 2018, Certificates of Participation, Series 2018A, were issued in the amount of \$31,260,000 to finance construction at Stanley Switlik Elementary, to be repaid from the proceeds of rents paid by the District.

As a condition of the financing arrangements, the District has given a ground lease on District property to the Leasing Corporation, with a rental fee of \$1 per year. The initial term of the lease is 25 years commencing on October 15, 1996, and ending August 1, 2021. A separate ground lease commencing on June 1, 2010, and ending on June 1, 2032, was given to the Leasing Corporation for the facilities being financed by the Series 2010A Certificates. An additional ground lease commencing on May 18, 2018, and ending on June 1, 2036, was given to the Leasing Corporation for the facility being financed by the Series 2018A Certificates. The properties covered by the ground leases are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the leases and to provide for the rent payments through to term, the District may be required to surrender the sites included under the Ground Lease Agreements for the benefit of the securers of the certificates for a period of time specified by the arrangements which may be up to 30 years from the date of inception of the arrangement.

The District properties included in the ground leases under these arrangements are as follows:

- Gerald Adams Elementary School
- Horace O'Bryant Middle School
- Marathon High School
- Stanley Switlik Elementary School
- Sugarloaf Middle School

On March 30, 2015, the District entered into a Forward Delivery Agreement (Sinking Fund Agreement) among the Trustee for the Series 2010A Certificates of Participation and the Deutsche Bank AG, New York Branch (the Provider). Under the terms of the agreement, the District agreed to purchase Treasury securities on a periodic basis from the Provider at a fixed rate of return for delivery to the Trustee and deposit into the sinking fund. As a result, the District locked in a long-term fixed rate of return for future sinking fund deposits and reduced the amount of their annual sinking fund deposits from \$2,117,647 to

District Revenue Bonds

Sales Tax Revenue Bonds, Series 2017. The Board issued Sales Tax Revenue Bonds, Series 2017, on January 19, 2017, totaling \$68,725,000. These bonds are authorized by Chapters 212, 1001, 1011, and 1013, Florida Statutes. These bonds are secured by a pledge of the proceeds received by the District from the levy and collection of a one-half cent discretionary sales surtax pursuant to Section 212.055(6), Florida Statutes, and all moneys including investments thereof in the funds and accounts established pursuant to the bond resolution. The bonds were issued for the purpose of financing the costs of acquisition, construction, equipping, installation of, and renovation to, various capital improvements and educational facilities.

The District has pledged a combined total of \$65,029,825 of discretionary surtax sales revenues (sales tax revenues) in connection with the Series 2017 Sales Tax Revenue Bond issues described above. The pledged sales tax revenues are committed until final maturity of the debt, or October 1, 2025. Assuming a nominal growth rate of 0 percent in the collection of sales tax revenues, which are levied through October 1, 2025, approximately 51 percent of this revenue stream has been pledged in connection with debt service on the revenue bonds.

Sales Tax Revenue Bonds, Series 2019. On June 14, 2019, the Board issued Sales Tax Revenue Bonds, Series 2019 totaling \$22,500,000. These bonds are secured by a pledge of the proceeds received by the District from the levy and collection of a one-half cent discretionary sales surtax pursuant to Section 212.055(6), Florida Statutes and as per the Series 2017 Official Statement. The final maturity date of the loan is October 1, 2025.

The District has pledged a combined total of \$24,246,747 of discretionary surtax sales revenues (sales tax revenues) in connection with the Series 2019 Sales Tax Revenue Bond issues described above. The pledged sales tax revenues are committed until final maturity of the debt, or October 1, 2025. Assuming a nominal growth rate of 0 percent in the collection of sales tax revenues, which are levied through October 1, 2025, approximately 20 percent of this revenue stream has been pledged in connection with debt service on the revenue bonds.

The bonds were issued for the purpose of financing the acquisition, construction and installation of various capital projects within the District including, without limitations the following:

I. Fund Balance Reporting

In addition to committed and assigned fund balance categories discussed in the Fund Balance Policies note disclosure, fund balances may be classified as follows:

- **Nonspendable Fund Balance.** Nonspendable fund balance is the net current financial resources that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Generally, not in spendable form means that an item is not expected to be converted to cash.
- **Restricted Fund Balance.** Restricted fund balance is the portion of fund balance on which constraints have been placed by creditors, grantors, contributors, laws or regulations of other governments, constitutional provisions, or enabling legislation. Restricted fund balance places the most binding level of constraint on the use of fund balance.
- **Unassigned Fund Balance.** The unassigned fund balance is the portion of fund balance that is the residual classification for the General Fund. This balance represents amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned for specific purposes.

The notes below are an integral part of this schedule.

- Notes: (1) Basis of Presentation. The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the Federal award activity of the Monroe County District School Board under programs of the Federal Government for the fiscal year ended June 30, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.
- (2) Summary of Significant Accounting Policies. Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (3) Indirect Cost Rate. The District has not elected to use the 10 percent de minimis cost rate allowed under the Uniform Guidance.
- (4) Noncash Assistance: National School Lunch Program - Includes cash in lieu of donated food of \$268,338.89 received during the fiscal year.
- (5) Head Start. Expenditures include \$63,100.74 for grant number/program year 04CH4752/04 and \$1,348,795.46 for grant number/program year 04CH4752/05.
- (6) Disaster Grants - Public Assistance (Presidentially Declared Disasters). Expenditures that are being reported were expended in the 2017-18 fiscal year.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Monroe County District School Board, as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 10, 2019, included under the heading **INDEPENDENT AUDITOR'S REPORT**. Our report includes a reference to other auditors who audited the financial statements of the school internal funds and the aggregate discretely presented component units, as described in our report on the District's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material

misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR THE MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Report on Compliance for the Major Federal Program

We have audited the Monroe County District School Board's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the District's major Federal program for the fiscal year ended June 30, 2019. The District's major Federal program is identified in **SECTION I – SUMMARY OF AUDITOR'S RESULTS** of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**.

Management's Responsibility

Management is responsible for compliance with Federal statutes, regulations, and the terms and conditions of its Federal awards applicable to its Federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the District's major Federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major Federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on the Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major Federal program for the fiscal year ended June 30, 2019.

Report on Internal Control Over Compliance

District management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on the major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major Federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
