SUMMARY

SUMMARY OF ATTESTATION EXAMINATION

Except for the material noncompliance described below involving reporting errors or records that were not properly or accurately prepared or were not available at the time of our examination and could not be subsequently located for students in ESE Support Levels 4 and 5 and Career Education 9-12, the Dixie County District School Board (District) complied, in all material respects, with State requirements relating to the classification, assignment, and verification of the full-time equivalent (FTE) student enrollment, including teacher certification, and student transportation as reported under the Florida Education Finance Program (FEFP) for the fiscal year ended June 30, 2019. Specifically, we noted exceptions involving reporting errors or records that were not properly or accurately prepared or were not available at the time of our examination and could not be subsequently located for 1 of the 9 students in our ESE Support Levels 4 and 5 test and 2 of the 10 students in our Career Education 9-12 test. None of the students with exceptions attended charter schools.

Noncompliance related to the reported FTE student enrollment resulted in four findings. The resulting proposed net adjustment to the District's reported, unweighted FTE totaled negative .5596 applicable to District schools other than charter schools but has a potential impact on the District's weighted FTE of negative 1.2564, applicable to District schools other than charter schools. Noncompliance related to student transportation resulted in 4 findings and a proposed net adjustment of negative 8 students.

The weighted adjustments to the FTE student enrollment are presented in our report for illustrative purposes only. The weighted adjustments to the FTE student enrollment do not take special program caps and allocation factors into account and are not intended to indicate the weighted FTE used to compute the dollar value of adjustments. That computation is the responsibility of the Department of Education (DOE). However, the gross dollar effect of our proposed adjustments to the FTE may be estimated by multiplying the proposed net weighted adjustments to the FTE student enrollment by the base student allocation amount. The base student allocation for the fiscal year ended June 30, 2019, was \$4,204.42 per FTE. For the District, the estimated gross dollar effect of our proposed adjustments to the reported FTE student enrollment is negative \$5,282 (negative 1.2564 times \$4,204.42), of which all is applicable to District schools other than charter schools.

We have not presented an estimate of the potential dollar effect of our proposed adjustments to student transportation because there is no equivalent method for making such an estimate.

The ultimate resolution of our proposed adjustments to the FTE student enrollment and student transportation and the computation of their financial impact is the responsibility of the DOE.

THE DISTRICT

The District was established pursuant to Section 1001.30, Florida Statutes, to provide public educational services for the residents of Dixie County, Florida. Those services are provided primarily to PK through 12th-grade students and to adults seeking career education-type training. The District is part of the State

system of public education under the general direction and control of the SBE. The geographic boundaries of the District are those of Dixie County.

The governing body of the District is the District School Board that is composed of five elected members. The executive officer of the Board is the elected Superintendent of Schools. The District had 4 schools other than charter schools, 1 charter school, and 2 virtual education cost centers serving PK through 12th-grade students.

For the fiscal year ended June 30, 2019, State funding totaling \$11.9 million was provided through the FEFP to the District for the District-reported 2,196.13 unweighted FTE as recalibrated, which included 85.87 unweighted FTE as recalibrated for charter schools. The primary sources of funding for the District are funds from the FEFP, local ad valorem taxes, and Federal grants and donations.

FEFP

FTE Student Enrollment

Florida school districts receive State funding through the FEFP to serve PK through 12th-grade students (adult education is not funded by the FEFP). The FEFP was established by the Florida Legislature in 1973 to guarantee to each student in the Florida public school system, including charter schools, the availability of programs and services appropriate to the student's educational needs that are substantially equal to those available to any similar student notwithstanding geographic differences and varying local economic factors. To provide equalization of educational opportunity in Florida, the FEFP formula recognizes: (1) varying local property tax bases, (2) varying program cost factors, (3) district cost differentials, and (4) differences in per-student costs for equivalent educational programs due to sparsity and dispersion of student population.

The funding provided by the FEFP is based on the numbers of individual students participating in particular educational programs. A numerical value is assigned to each student according to the student's hours and days of attendance in those programs. The individual student thus becomes equated to a numerical value known as an unweighted FTE student enrollment. For brick and mortar school students, one student would be reported as 1.0 FTE if the student was enrolled in six courses per day at 50 minutes per course for the full 180-day school year (i.e., six courses at 50 minutes each per day is 5 hours of class a day or 25 hours per week, which equates to 1.0 FTE). For virtual education students, one student would be reported as 1.0 FTE if the student has successfully completed six courses or credits or the prescribed level of content that counts toward promotion to the next grade. A student who completes less than six credits will be reported as a fraction of an FTE. Half-credit completions will be included in determining an FTE student enrollment. Credits completed by a student in excess of the minimum required for that student for graduation are not eligible for funding.

School districts report all FTE student enrollment regardless of the 1.0 FTE cap. The DOE combines all FTE student enrollment reported for the student by all school districts, including the Florida Virtual School. The DOE then recalibrates all reported FTE student enrollment for each student to 1.0 FTE if the total reported FTE for the student exceeds 1.0 FTE. The FTE student enrollment reported by the Department of Juvenile Justice (DJJ) for FTE student enrollment earned beyond the 180-day school year is not included in the recalibration to 1.0 FTE.

All FTE student enrollment is capped at 1.0 FTE except for the FTE student enrollment reported by the Department of Juvenile (DJJ) for students beyond the 180-day school year. However, if a student only has FTE student enrollment reported in one FTE membership survey¹ of the 180-day school year (Survey 2 or Survey 3), the FTE student enrollment reported will be capped at .5000 FTE, even if FTE student enrollment is reported in Survey 1 or Survey 4, with the exception of FTE student enrollment reported by the DJJ for students beyond the 180-day school year.

Student Transportation

Any student who is transported by the District must meet one or more of the following conditions to be eligible for State transportation funding: live 2 or more miles from school, be classified as a student with a disability under the IDEA, be a Career Education 9-12 or an ESE student who is transported from one school center to another where appropriate programs are provided, or be on a route that meets the criteria for hazardous walking conditions specified in Section 1006.23, Florida Statutes. Additionally, Section 1002.33(20)(c), Florida Statutes, provides that the governing board of the charter school may provide transportation through an agreement or contract with the district school board, a private provider, or parents. The charter school and the sponsor shall cooperate in making arrangements that ensure that transportation is not a barrier to equal access for all students residing within a reasonable distance of the charter school as determined in its charter. The District received \$565,595 for student transportation as part of the State funding through the FEFP.

¹ FTE is determined and reported during the school year by means of four FTE membership surveys that are conducted under the direction of district and school management. See Note A6. for more information on surveys.

INDEPENDENT AUDITOR'S REPORT

Report on Full-Time Equivalent Student Enrollment

We have examined the Dixie County District School Board's (District's) compliance with State requirements relating to the classification, assignment, and verification of the full-time equivalent (FTE) student enrollment including teacher certification reported under the Florida Education Finance Program for the fiscal year ended June 30, 2019. These requirements are found primarily in Sections 1011.60, 1011.61, and 1011.62, Florida Statutes; State Board of Education Rules, Chapter 6A-1, Florida Administrative Code; and the *FTE General Instructions 2018-19* issued by the Department of Education.

Management's Responsibility for Compliance

District management is responsible for the District's compliance with the aforementioned State requirements, including the design, implementation, and maintenance of internal control to prevent, or detect and correct, noncompliance due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the District's compliance with State requirements based on our examination. Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the classification, assignment, and verification of the full-time equivalent student enrollment including teacher certification reported by the District under the Florida Education Finance Program complied with State requirements in all material respects.

An examination involves performing procedures to obtain evidence about whether the District complied with State requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for

our opinion. Our examination does not provide a legal determination on the District's compliance with State requirements. The legal determination of the District's compliance with these requirements is the responsibility of the Department of Education.

An examination by its nature does not include a review of all records and actions of District management and staff and, as a consequence cannot be relied upon to identify all instances of noncompliance, fraud, abuse, or inefficiency. Because of these limitations and the inherent limitations of internal control, an unavoidable risk exists that some material noncompliance may not be detected, even though the examination is properly planned and performed in accordance with attestation standards.

Opinion

Our examination disclosed material noncompliance with State requirements relating to the classification, assignment, and verification of full-time equivalent student enrollment as reported under the Florida Education Finance Program for students in our Exceptional Student Education Support Levels 4 and 5 and Career Education 9-12 tests involving reporting errors or records that were not properly or accurately prepared or were not available at the time of our examination and could not be subsequently located.

In our opinion, except for the material noncompliance with State requirements described in the preceding paragraph involving reporting errors or records that were not properly or accurately prepared or were not available at the time of our examination and could not be subsequently located for students in Exceptional Student Education Support Levels 4 and 5 and Career Education 9-12, the Dixie County District School Board complied, in all material respects, with State requirements relating to the classification, assignment, and verification of the full-time equivalent student enrollment including teacher certification reported under the Florida Education Finance Program for the fiscal year ended June 30, 2019.

Other Reporting Required by *Government Auditing Standards*

In accordance with attestation standards established by *Government Auditing Standards*, we are required to report all deficiencies that are considered to be significant deficiencies or material weaknesses² in internal control; fraud and noncompliance with provisions of laws or regulations that have a material effect on the District's compliance with State requirements; and any other instances that warrant the attention of those charged with governance; noncompliance with provisions of contracts or grant agreements, and abuse that has a material effect on the District's compliance with State requirements. We are also required to obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as any planned corrective actions.

We performed our examination to express an opinion on the District's compliance with State requirements and not for the purpose of expressing an opinion on the District's related internal control over compliance with State requirements; accordingly, we express no such opinion. Because of its limited purpose, our examination would not necessarily identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses. However, the material noncompliance mentioned above is indicative of significant deficiencies considered to be material weaknesses in the District's

² A significant deficiency is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that material noncompliance will not be prevented, or detected and corrected, on a timely basis.

internal controls related to reporting errors or records that were not properly or accurately prepared or were not available at the time of our examination and could not be subsequently located for students in Exceptional Student Education Support Levels 4 and 5 and Career Education 9-12. Our examination disclosed certain findings that are required to be reported under *Government Auditing Standards* and all findings, along with the views of responsible officials, are described in *SCHEDULE D* and *MANAGEMENT'S RESPONSE*, respectively. The impact of this noncompliance with State requirements on the District's reported full-time equivalent student enrollment including teacher certification is presented in *SCHEDULES A, B, C, and D*.

The District's written response to this examination has not been subjected to our examination procedures and, accordingly, we express no opinion on it.

Purpose of this Report

Pursuant to Section 11.45(4)(c), Florida Statutes, this report is a public record and its distribution is not limited. Attestation standards established by the American Institute of Certified Public Accountants require us to indicate that the purpose of this report is to provide an opinion on the District's compliance with State requirements. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Sherrill F. Norman, CPA
Tallahassee, Florida
April 20, 2020

SCHEDULE A

POPULATIONS, TEST SELECTION, AND TEST RESULTS FULL-TIME EQUIVALENT STUDENT ENROLLMENT

Reported FTE Student Enrollment

The funding provided by the FEFP is based on the numbers of individual students participating in particular educational programs. The FEFP funds ten specific programs that are grouped under the following four general program titles: Basic, ESOL, ESE, and Career Education 9-12. The unweighted FTE represents the FTE prior to the application of the specific cost factor for each program. (See *SCHEDULE B* and NOTE A3., A4., and A5.) For the fiscal year ended June 30, 2019, the Dixie County District School Board (District) reported to the DOE 2,196.13 unweighted FTE as recalibrated, which included 85.87 unweighted FTE as recalibrated for charter schools, at 4 District schools other than charter schools, 1 charter school, and 2 virtual education cost centers.

Schools and Students

As part of our examination procedures, we tested the FTE student enrollment reported to the DOE for schools and students for the fiscal year ended June 30, 2019. (See NOTE B.) The population of schools (7) consisted of the total number of brick and mortar schools in the District that offered courses including charter schools, as well as the virtual education cost centers in the District that offered virtual instruction in the FEFP-funded programs. The population of students (2,206) consisted of the total number of students in each program at the schools and cost centers in our tests. Our Career Education 9-12 student test data includes only those students who participated in OJT.

We noted the following material noncompliance: exceptions involving reporting errors or records that were not properly or accurately prepared or were not available at the time of our examination and could not be subsequently located for 1 of the 9 students in our ESE Support Levels 4 and 5 test³ and 2 of the 10 students in our Career Education 9-12 test,⁴ none of which attended charter schools.

Our populations and tests of schools and students are summarized as follows:

<u>Programs</u>	<u>Number of Schools</u>		<u>Number of Students at Schools Tested</u>		<u>Students With Exceptions</u>	<u>Recalibrated Unweighted FTE</u>		<u>Proposed Adjustments</u>
	<u>Population</u>	<u>Test</u>	<u>Population</u>	<u>Test</u>		<u>Population</u>	<u>Test</u>	
Basic	7	5	1,698	49	0	1,591.5300	42.4447	.0000
Basic with ESE Services	6	4	485	30	0	530.2700	28.2139	.0000
ESE Support Levels 4 and 5	3	3	9	9	1	9.1900	4.6901	(.1501)
Career Education 9-12	2	1	<u>14</u>	<u>10</u>	<u>2</u>	<u>65.1400</u>	<u>3.2387</u>	<u>(.4095)</u>
All Programs	7	5	<u>2,206</u>	<u>98</u>	<u>3</u>	<u>2,196.1300</u>	<u>78.5874</u>	<u>(.5596)</u>

³ For ESE Support Levels 4 and 5, the material noncompliance is found in Finding 4 on *SCHEDULE D*.

⁴ For Career Education 9-12, the material noncompliance is found in Finding 2 on *SCHEDULE D*.

Teachers

We also tested teacher qualifications as part of our examination procedures. (See NOTE B.) Specifically, the population of teachers (21) consisted of the total number of teachers at schools in our test who taught courses in ESE Support Levels 4 and 5, Career Education 9-12, or taught courses to ELL students, and of the total number of teachers reported under virtual education cost centers in our test who taught courses in Basic, Basic with ESE Services, ESE Support Levels 4 and 5, Career Education 9-12, or taught courses to ELL students. From the population of teachers, we selected 12 and found no exceptions.

Proposed Adjustments

Our proposed adjustments present the net effects of noncompliance disclosed by our examination procedures, including those related to our test of teacher qualifications. Our proposed adjustments generally reclassify the reported FTE to Basic education, except for noncompliance involving a student's enrollment or attendance in which case the reported FTE is taken to zero. (See *SCHEDULES B, C, and D.*)

The ultimate resolution of our proposed adjustments to the FTE student enrollment and the computation of their financial impact is the responsibility of the DOE.

SCHEDULE B

EFFECT OF PROPOSED ADJUSTMENTS ON WEIGHTED FULL-TIME EQUIVALENT STUDENT ENROLLMENT

<u>No. Program (1)</u>	<u>Proposed Net Adjustment (2)</u>	<u>Cost Factor</u>	<u>Weighted FTE (3)</u>
255 ESE Support Level 5	(.1501)	5.642	(.8469)
300 Career Education 9-12	(.4095)	1.000	(.4095)
Total	(.5596)		(1.2564)

Notes: (1) See NOTE A7.

(2) These proposed net adjustments are for unweighted FTE. (See *SCHEDULE C*.)

(3) Weighted adjustments to the FTE are presented for illustrative purposes only. The weighted adjustments to the FTE do not take special program caps or allocation factors into consideration and are not intended to indicate the FTE used to compute the dollar value of adjustments. That computation is the responsibility of the DOE. (See NOTE A5.)

SCHEDULE C

PROPOSED ADJUSTMENTS BY SCHOOL FULL-TIME EQUIVALENT STUDENT ENROLLMENT

<u>No.</u> <u>Program</u>	<u>Proposed Adjustments (1)</u>		<u>Total</u>
	<u>#0021</u>	<u>#0101</u>	
255 ESE Support Level 5	(.1501)	(.1501)
300 Career Education 9-12	<u>(.4095)</u>	<u>(.4095)</u>
Total	<u>(.4095)</u>	<u>(.1501)</u>	<u>(.5596)</u>

Note: (1) These proposed net adjustments are for unweighted FTE. (See NOTE A5.)

SCHEDULE D

FINDINGS AND PROPOSED ADJUSTMENTS FULL-TIME EQUIVALENT STUDENT ENROLLMENT

Overview

Dixie County District School Board (District) management is responsible for determining that the FTE student enrollment including teacher certification as reported under the FEFP is in compliance with State requirements. These requirements are found primarily in Sections 1011.60, 1011.61, and 1011.62, Florida Statutes; SBE Rules, Chapter 6A-1, FAC; and the *FTE General Instructions 2018-19* issued by the DOE. All noncompliance disclosed by our examination procedures is discussed below and requires management's attention and action as presented in *SCHEDULE E*.

Findings

Our examination included the July and October 2018 reporting survey periods and the February and June 2019 reporting survey periods (See NOTE A6.). Unless otherwise specifically stated, the Findings and Proposed Adjustments presented herein are for the October 2018 reporting survey period, the February 2019 reporting survey period, or both. Accordingly, our Findings do not mention specific reporting survey periods unless necessary for a complete understanding of the instances of noncompliance being disclosed.

**Proposed Net
Adjustments
(Unweighted FTE)**

Districtwide – Certification of Attendance Records

1. [Ref. 2101/4101/10101/11101] Our examination of the attendance procedures at 13 schools in our test disclosed that the Principals did not certify student attendance for the 2018-19 school year as required by SBE Rule 6A-1.044, FAC, and DOE's *Comprehensive Management Information System: Automated Student Attendance Recordkeeping System Handbook*. Specifically, the Principal (or the Principal's designee) has the responsibility for certifying the completeness and accuracy of the automated attendance system in the school for each of the FTE surveys (at least four times per year). The certification would be a formal statement of certification like that currently contained in the manual attendance registers which would be signed by the Principal (or the Principal's designee). The certification may be on a separate page of paper or included on the first page of the printed report. We present this disclosure finding with no proposed adjustment.

.0000

Dixie County High School (#0021)

2. [Ref. 2102] Timecards were not available at the time of our examination and could not be subsequently located for two Career Education 9-12 students who participated in OJT. We propose the following adjustment:

**Proposed Net
Adjustments
(Unweighted FTE)**

Findings

Dixie County High School (#0021) (Continued)

300 Career Education 9-12	<u>(.4095)</u>	<u>(.4095)</u>
		<u>(.4095)</u>

Old Town Elementary School (#0041)

3. [Ref. 4102] Student course schedules were incorrectly reported for our test students. The School’s daily instructional schedule supported 1,625 instructional minutes per week that met the minimum reporting of CMW; however, the students’ course schedules were not reported in accordance with the daily instructional schedule. We noted differences ranging from 35 CMW to 175 CMW. Student course schedules, which are necessary for the recalibration process to work appropriately, should reflect the correct number of CMW according to the School’s bell schedule. Since most of the students were reported at only one school for the entire year and their reported FTE was recalibrated to 1.0, this erroneous reporting did not affect their ultimate funding level. As such, we present this disclosure finding with no proposed adjustment.

.0000
.0000

James M. Anderson Elementary School (#0101)

4. [Ref. 10102] The reported course schedule for one ESE student enrolled in the Hospital and Homebound Program was not in agreement with either the instructional minutes noted on the student’s IEP or the homebound instructor’s contact log. We propose the following adjustment:

255 ESE Support Level 5	<u>(.1501)</u>	<u>(.1501)</u>
		<u>(.1501)</u>

Proposed Net Adjustment

(.5596)

SCHEDULE E

RECOMMENDATIONS AND REGULATORY CITATIONS FULL-TIME EQUIVALENT STUDENT ENROLLMENT

RECOMMENDATIONS

We recommend that Dixie County District School Board (District) management exercise more care and take corrective action, as appropriate, to ensure that: (1) Principals certify the completeness and accuracy of automated student attendance records as required by DOE's *Comprehensive Management Information System: Automated Student Attendance Recordkeeping System Handbook*; (2) students in Career Education 9-12 who participate in OJT are reported in accordance with timecards that are accurately completed, signed, and retained in readily accessible files; (3) students' reported course schedule reflect the same amount of instructional time as documented on the school's bell schedule; and (4) the reported course schedules for students enrolled in the Hospital and Homebound Program reflect the instructional minutes noted on the students' IEPs and the homebound instructors' contact logs.

The absence of statements in this report regarding practices and procedures followed by the District should not be construed as acceptance, approval, or endorsement of those practices and procedures. Additionally, the specific nature of this report does not limit or lessen the District's obligation to comply with all State requirements relating to the classification, assignment, and verification of the FTE student enrollment including teacher certification as reported under the FEFP.

NOTES TO SCHEDULES

<p style="text-align: center;">NOTE A – SUMMARY FULL-TIME EQUIVALENT STUDENT ENROLLMENT</p>

A summary discussion of the significant features of the Dixie County District School Board (District), the FEFP, the FTE, and related areas is provided below.

1. The District

The District was established pursuant to Section 1001.30, Florida Statutes, to provide public educational services for the residents of Dixie County, Florida. Those services are provided primarily to PK through 12th-grade students and to adults seeking career education-type training. The District is part of the State system of public education under the general direction and control of the SBE. The geographic boundaries of the District are those of Dixie County.

The governing body of the District is the District School Board that is composed of five elected members. The executive officer of the Board is the elected Superintendent of Schools. The District had 4 schools other than charter schools, 1 charter school, 2 virtual education cost centers serving PK through 12th-grade students.

For the fiscal year ended June 30, 2019, State funding totaling \$11.9 million was provided through the FEFP to the District for the District-reported 2,196.13 unweighted FTE as recalibrated, which included 85.87 unweighted FTE as recalibrated for charter schools. The primary sources of funding for the District are funds from the FEFP, local ad valorem taxes, and Federal grants and donations.

2. FEFP

Florida school districts receive State funding through the FEFP to serve PK through 12th-grade students (adult education is not funded by the FEFP). The FEFP was established by the Florida Legislature in 1973 to guarantee to each student in the Florida public school system, including charter schools, the availability of programs and services appropriate to the student's educational needs that are substantially equal to those available to any similar student notwithstanding geographic differences and varying local economic factors. To provide equalization of educational opportunity in Florida, the FEFP formula recognizes: (1) varying local property tax bases, (2) varying program cost factors, (3) district cost differentials, and (4) differences in per-student cost for equivalent educational programs due to sparsity and dispersion of student population.

3. FTE Student Enrollment

The funding provided by the FEFP is based on the numbers of individual students participating in particular educational programs. A numerical value is assigned to each student according to the student's hours and days of attendance in those programs. The individual student thus becomes equated to a numerical value known as an unweighted FTE student enrollment. For example, for PK through 3rd grade, 1.0 FTE is defined as one student in membership in a program or a group of programs for 20 hours per week for 180 days; for grade levels 4 through 12, 1.0 FTE is defined as one student in membership in a program or a group of programs for 25 hours per week for 180 days. For brick and

mortar school students, one student would be reported as 1.0 FTE if the student was enrolled in six courses per day at 50 minutes per course for the full 180-day school year (i.e., six courses at 50 minutes each per day is 5 hours of class a day or 25 hours per week, which equates to 1.0 FTE). For virtual education students, one student would be reported as 1.0 FTE if the student has successfully completed six courses or credits or the prescribed level of content that counts toward promotion to the next grade. A student who completes less than six credits will be reported as a fraction of an FTE. Half-credit completions will be included in determining an FTE student enrollment. Credits completed by a student in excess of the minimum required for that student for graduation are not eligible for funding.

4. Recalibration of FTE to 1.0

School districts report all FTE student enrollment regardless of the 1.0 FTE cap. The DOE combines all FTE student enrollment reported for the student by all school districts, including the Florida Virtual School. If the combined reported FTE for the student exceeds 1.0 FTE, the DOE recalibrates the reported FTE student enrollment for each student to 1.0 FTE. The FTE student enrollment reported by the DJJ for FTE student enrollment earned beyond the 180-day school year is not included in the recalibration to 1.0 FTE.

All FTE student enrollment is capped at 1.0 FTE except for the FTE student enrollment reported by the DJJ for students beyond the 180-day school year. However, if a student only has FTE student enrollment reported in one survey of the 180-day school year (Survey 2 or Survey 3), the FTE student enrollment reported will be capped at .5000 FTE, even if FTE student enrollment is reported in Survey 1 or Survey 4, with the exception of FTE student enrollment reported by the DJJ for students beyond the 180-day school year.

5. Calculation of FEFP Funds

The amount of State and local FEFP funds is calculated by the DOE by multiplying the number of unweighted FTE in each educational program by the specific cost factor of each program to obtain weighted FTEs. Weighted FTEs are multiplied by the base student allocation amount and that product is multiplied by the appropriate cost differential factor. Various adjustments are then added to obtain the total State and local FEFP dollars. All cost factors, the base student allocation amount, cost differential factors, and various adjustment figures are established by the Florida Legislature.

6. FTE Reporting Surveys

The FTE is determined and reported during the school year by means of four FTE membership surveys that are conducted under the direction of district and school management. Each survey is a determination of the FTE membership for a period of 1 week. The surveys for the 2018-19 school year were conducted during and for the following weeks: Survey 1 was performed July 9 through 13, 2018; Survey 2 was performed October 8 through 12, 2018; Survey 3 was performed February 4 through 8, 2019; and Survey 4 was performed June 10 through 14, 2019.

7. Educational Programs

The FEFP funds ten specific programs under which instruction may be provided as authorized by the Florida Legislature. The general program titles under which these specific programs fall are: (1) Basic, (2) ESOL, (3) ESE, and (4) Career Education 9-12.

8. Statutes and Rules

The following statutes and rules are of significance to the administration of Florida public education:

Chapter 1000, Florida Statutes, *K-20 General Provisions*

Chapter 1001, Florida Statutes, *K-20 Governance*

Chapter 1002, Florida Statutes, *Student and Parental Rights and Educational Choices*

Chapter 1003, Florida Statutes, *Public K-12 Education*

Chapter 1006, Florida Statutes, *Support for Learning*

Chapter 1007, Florida Statutes, *Articulation and Access*

Chapter 1010, Florida Statutes, *Financial Matters*

Chapter 1011, Florida Statutes, *Planning and Budgeting*

Chapter 1012, Florida Statutes, *Personnel*

SBE Rules, Chapter 6A-1, FAC, *Finance and Administration*

SBE Rules, Chapter 6A-4, FAC, *Certification*

SBE Rules, Chapter 6A-6, FAC, *Special Programs I*

NOTE B – TESTING FTE STUDENT ENROLLMENT

Our examination procedures for testing provided for the selection of schools, students, and teachers using judgmental methods for testing the FTE student enrollment including teacher certification as reported under the FEFP to the DOE for the fiscal year ended June 30, 2019. Our testing process was designed to facilitate the performance of appropriate examination procedures to test the District's compliance with State requirements relating to the classification, assignment, and verification of the FTE student enrollment including teacher certification as reported under the FEFP. The following schools were selected for testing:

<u>School</u>	<u>Findings</u>
Districtwide – Certification of Attendance Records	1
1. Dixie County High School	2
2. Old Town Elementary School	3
3. James M. Anderson Elementary School	4
4. Ruth Rains Middle School	NA
5. Dixie Virtual Instruction Program	NA

INDEPENDENT AUDITOR'S REPORT

Report on Student Transportation

We have examined the Dixie County District School Board's (District's) compliance with State requirements relating to the classification, assignment, and verification of student transportation as reported under the Florida Education Finance Program for the fiscal year ended June 30, 2019. These requirements are found primarily in Chapter 1006, Part I, E. and Section 1011.68, Florida Statutes; State Board of Education Rules, Chapter 6A-3, Florida Administrative Code; and the *FTE General Instructions 2018-19 (Appendix F)* issued by the Department of Education.

Management's Responsibility for Compliance

District management is responsible for the District's compliance with the aforementioned State requirements, including the design, implementation, and maintenance of internal control to prevent, or detect and correct, noncompliance due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the District's compliance with State requirements based on our examination. Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the classification, assignment, and verification of student transportation reported by the District under the Florida Education Finance Program complied with State requirements in all material respects.

An examination involves performing procedures to obtain evidence about whether the District complied with State requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for

our opinion. Our examination does not provide a legal determination on the District's compliance with State requirements. The legal determination of the District's compliance with these requirements is, however, ultimately the responsibility of the Department of Education.

An examination by its nature does not include a review of all records and actions of District management and staff and, as a consequence cannot be relied upon to identify all instances of noncompliance, fraud, abuse, or inefficiency. Because of these limitations and the inherent limitations of internal control, an unavoidable risk exists that some material noncompliance may not be detected, even though the examination is properly planned and performed in accordance with attestation standards.

Opinion

In our opinion, the Dixie County District School Board complied, in all material respects, with State requirements relating to the classification, assignment, and verification of student transportation reported under the Florida Education Finance Program for the fiscal year ended June 30, 2019.

Other Reporting Required by *Government Auditing Standards*

In accordance with attestation standards established by *Government Auditing Standards*, we are required to report all deficiencies that are considered to be significant deficiencies or material weaknesses⁵ in internal control; fraud and noncompliance with provisions of laws or regulations that have a material effect on the District's compliance with State requirements; and any other instances that warrant the attention of those charged with governance; noncompliance with provisions of contracts or grant agreements, and abuse that has a material effect on the District's compliance with State requirements. We are also required to obtain and report the views of responsible officials concerning the findings, conclusions, and recommendations, as well as any planned corrective actions.

We performed our examination to express an opinion on the District's compliance with State requirements and not for the purpose of expressing an opinion on the District's related internal control over compliance with State requirements; accordingly, we express no such opinion. Our examination disclosed certain findings that are required to be reported under *Government Auditing Standards* and all findings, along with the views of responsible officials, are described in *SCHEDULE G* and *MANAGEMENT'S RESPONSE*, respectively. Because of its limited purpose, our examination would not necessarily identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses. The impact of this noncompliance with State requirements on the District's reported student transportation is presented in *SCHEDULES F* and *G*.

The District's written response to this examination has not been subjected to our examination procedures and, accordingly, we express no opinion on it.

⁵ A significant deficiency is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that material noncompliance will not be prevented, or detected and corrected, on a timely basis.

Purpose of this Report

Pursuant to Section 11.45(4)(c), Florida Statutes, this report is a public record and its distribution is not limited. Attestation standards established by the American Institute of Certified Public Accountants require us to indicate that the purpose of this report is to provide an opinion on the District's compliance with State requirements. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Sherrill F. Norman, CPA
Tallahassee, Florida
April 20, 2020

SCHEDULE F

POPULATIONS, TEST SELECTION, AND TEST RESULTS STUDENT TRANSPORTATION

Any student who is transported by the Dixie County District School Board (District) must meet one or more of the following conditions to be eligible for State transportation funding: live 2 or more miles from school, be classified as a student with a disability under the IDEA, be a Career Education 9-12 or an ESE student who is transported from one school center to another where appropriate programs are provided, or be on a route that meets the criteria for hazardous walking conditions specified in Section 1006.23(2), Florida Statutes. (See NOTE A1.)

As part of our examination procedures, we tested student transportation as reported to the DOE for the fiscal year ended June 30, 2019. (See NOTE B.) The population of vehicles (48) consisted of the total number of vehicles (buses, vans, or passenger cars) reported by the District for all reporting survey periods. For example, a vehicle that transported students during the July and October 2018 and February and June 2019 reporting survey periods would be counted in the population as four vehicles. Similarly, the population of students (2,518) consisted of the total number of funded students reported by the District as having been transported for all reporting survey periods. (See NOTE A2.) The District reported students in the following ridership categories:

<u>Ridership Category</u>	<u>Number of Funded Students Transported</u>
IDEA – PK through Grade 12, Weighted	39
All Other FEFP Eligible Students	<u>2,479</u>
Total	<u>2,518</u>

Students with exceptions are students with exceptions affecting their ridership category. Students cited only for incorrect reporting of days in term, if any, are not included in our error-rate determination.

Our examination results are summarized below:

<u>Description</u>	<u>Students</u>	
	<u>With Exceptions</u>	<u>Proposed Net Adjustment</u>
Our tests included 194 of the 2,518 students reported as being transported by the District.	6	(5)
In conjunction with our general tests of student transportation we identified certain issues related to 3 additional students.	<u>3</u>	<u>(3)</u>
Total	<u>9</u>	<u>(8)</u>

Our proposed net adjustment presents the net effect of noncompliance disclosed by our examination procedures. (See *SCHEDULE G*.)

The ultimate resolution of our proposed net adjustment and the computation of its financial impact is the responsibility of the DOE.

SCHEDULE G

FINDINGS AND PROPOSED ADJUSTMENTS STUDENT TRANSPORTATION

Overview

Dixie County District School Board (District) management is responsible for determining that student transportation as reported under the FEFP is in compliance with State requirements. These requirements are found primarily in Chapter 1006, Part I, E. and Section 1011.68, Florida Statutes; SBE Rules, Chapter 6A-3, FAC; and the *FTE General Instructions 2018-19 (Appendix F)* issued by the DOE. All noncompliance disclosed by our examination procedures is discussed below and requires management's attention and action as presented in *SCHEDULE H*.

Findings

**Students
Transported
Proposed Net
Adjustments**

Our examination procedures included both general tests and detailed tests. Our general tests included inquiries concerning the District's transportation of students and verification that a bus driver's report existed for each bus reported in a survey period. Our detailed tests involved verification of the specific ridership categories reported for students in our tests from the October 2018 and the February 2019 reporting survey periods. Adjusted students who were in more than one reporting survey period are accounted for by reporting survey period. For example, a student included in our tests twice (e.g., once for the October 2018 reporting survey period and once for the February 2019 reporting survey period) will be presented in our Findings as two test students.

1. [Ref. 51] Our general tests disclosed that the reported student ridership did not agree with the bus driver's report as one student was not marked as riding the bus assigned. We propose the following adjustment:

October 2018 Survey

86 Days in Term

All Other FEFP Eligible Students (1) (1)

2. [Ref. 52] Our general tests disclosed that the ridership of three students (one student was in our test) was not adequately supported. The students were marked as riding the bus after the date on which the bus driver signed the report; consequently, the driver's signature did not attest to the accuracy of ridership beyond the date the report was signed. We propose the following adjustment:

February 2019 Survey

91 Days in Term

All Other FEFP Eligible Students (3) (3)

**Students
Transported
Proposed Net
Adjustments**

Findings

3. [Ref. 53] One student in our test was incorrectly reported in the IDEA - PK through Grade 12, Weighted ridership category. The IEP for the student did not indicate that the student met at least one of the five criteria required for reporting in the weighted ridership category. We noted that the student lived more than 2 miles from the student's assigned school and was otherwise eligible for reporting in the All Other FEFP Eligible Students ridership category. We propose the following adjustment:

October 2018 Survey

86 Days in Term

IDEA - PK through Grade 12, Weighted	(1)	
All Other FEFP Eligible Students	<u>1</u>	0

4. [Ref. 55] Four students in our test were incorrectly reported in the All Other FEFP Eligible Students ridership category. The students lived less than 2 miles from their assigned schools and were not otherwise eligible for State transportation funding. We propose the following adjustments:

October 2018 Survey

86 Days in Term

All Other FEFP Eligible Students	(1)	
----------------------------------	-----	--

February 2019 Survey

91 Days in Term

All Other FEFP Eligible Students	(3)	(4)
----------------------------------	-----	-----

Proposed Net Adjustment **(8)**

SCHEDULE H

RECOMMENDATIONS AND REGULATORY CITATIONS STUDENT TRANSPORTATION

RECOMMENDATIONS

We recommend that Dixie County District School Board (District) management exercise more care and take corrective action, as appropriate, to ensure that: (1) all reported students are marked as riding the bus during the 11-day survey window; (2) all bus driver reports documenting student ridership during the reporting survey periods are signed and dated by the bus drivers attesting to the validity and correctness of the student ridership; (3) students who are reported in a weighted ridership category are documented as having met at least one of the five criteria required for weighted classification as indicated on each student's IEP; and (4) students reported in the All Other FEFP Eligible Students ridership category live more than 2 miles from their respective schools or have IEPs that authorize transportation services.

The absence of statements in this report regarding practices and procedures followed by the District should not be construed as acceptance, approval, or endorsement of those practices and procedures. Additionally, the specific nature of this report does not limit or lessen the District's obligation to comply with all State requirements relating to the classification, assignment, and verification of student transportation as reported under the FEFP.

REGULATORY CITATIONS

Section 1002.33, Florida Statutes, *Charter Schools*
Chapter 1006, Part I, E., Florida Statutes, *Transportation of Public K-12 Students*
Section 1011.68, Florida Statutes, *Funds for Student Transportation*
SBE Rules, Chapter 6A-3, FAC, *Transportation*
FTE General Instructions 2018-19 (Appendix F)

NOTES TO SCHEDULES

NOTE A - SUMMARY STUDENT TRANSPORTATION

A summary discussion of the significant features of the Dixie County District School Board (District) student transportation and related areas is provided below.

1. Student Eligibility

Any student who is transported by the District must meet one or more of the following conditions in order to be eligible for State transportation funding: live 2 or more miles from school, be classified as a student with a disability under the IDEA, be a Career Education 9-12 or an ESE student who is transported from one school center to another where appropriate programs are provided, or be on a route that meets the criteria for hazardous walking conditions specified in Section 1006.23(2), Florida Statutes.

2. Transportation in Dixie County

For the fiscal year ended June 30, 2019, the District received \$565,595 for student transportation as part of the State funding through the FEFP. The District's student transportation reported by survey period was as follows:

<u>Survey Period</u>	<u>Number of Vehicles</u>	<u>Number of Funded Students</u>	<u>Number of Courtesy Riders</u>
October 2018	24	1,267	151
February 2019	<u>24</u>	<u>1,251</u>	<u>148</u>
Totals	<u>48</u>	<u>2,518</u>	<u>299</u>

3. Statutes and Rules

The following statutes and rules are of significance to the District's administration of student transportation:

Section 1002.33, Florida Statutes, *Charter Schools*

Chapter 1006, Part I, E., Florida Statutes, *Transportation of Public K-12 Students*

Section 1011.68, Florida Statutes, *Funds for Student Transportation*

SBE Rules, Chapter 6A-3, FAC, *Transportation*

NOTE B – TESTING STUDENT TRANSPORTATION

Our examination procedures for testing provided for the selection of students using judgmental methods for testing student transportation as reported to the DOE for the fiscal year ended June 30, 2019. Our testing process was designed to facilitate the performance of appropriate examination procedures to test the District's compliance with State requirements relating to the classification, assignment, and verification of student transportation as reported under the FEFP.

111 West Madison Street
Tallahassee, FL 32399-1450

Dear Ms. Norman:

RE: Dixie District Response to Audit Findings for 2018-2019

FTE Student Enrollment:

Finding 1 – Dixie district created a formal student attendance certification form that will be signed by school principals for each full-time equivalent student membership period and at the end of the school year.

Finding 2 – DCHS OJT Coordinator will contact students/employers prior to end of survey processing window and verify continued employment. Survey will be updated for students without appropriate timecard information.

Finding 3 – MIS Coordinator will verify reported CMW matches the instructional bell schedule.

Finding 4 - Data entry procedure for Hospital Homebound students has been updated to help eliminate errors.

Student Transportation:

Finding 1 – Data entry mistake.

Finding 2 – This finding is due to a "NEW" driver being anxious to make sure all reports were complete. Transportation stressed the importance of accuracy and completeness, which led to the driver dating attendance reports prior to turning them in. In the future, drivers will sign records on date attendance is turned in to the office.

Finding 3 – IEP team determined that student required specialized transportation; however, the team did not word it correctly in the IEP. Team stated that student should "ride early bus". The ESE Director and Staffing Specialist will ensure that correct wording is used in the future.

No person shall on the basis of race, color, religion, gender, age, marital status, sexual orientation, disability, political or religious beliefs, national or ethnic origin, or genetic information, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity, or in any employment conditions or practices conducted by the School District, except as provided by law.
